RE: PGE's UM 1452 Compliance Filing for OAR 860-084-0430
Oregon Solar Payment Option Pilot Program, Bi-Annual Report

Enclosed is PGE's Bi-Annual compliance filing for the Oregon Solar Payment Option Pilot Program. This filing is submitted in compliance with OAR 860-084-0430. PGE provides the raw data collected from pilot program participants who have signed agreements with PGE from February 1 through July 31, 2013. These signed agreements allow PGE to provide customer information to the Oregon Department of Energy (ODOE) and the Energy Trust of Oregon (ETO).

In addition, PGE provides pilot program results below in the following standardized format through the April 1, 2013 reservation period. Results from the most recent enrollment period – April 2013 – are provided last.

Summary of Pilot Program

PGE has offered seven reservation periods for capacity under the Solar Photovoltaic Incentive Rate Pilot Program. The available capacity in the first three reservation periods was fully subscribed within minutes. The October 3, 2011 reservation period saw significant changes which resulted in the reservation period closing with capacity remaining available for small-scale projects. The April 2, 2012 reservation period experienced a return to a fully subscribed program. The April 2013 reservation was fully subscribed.

July 1, 2010, Reservation Period Results

The July 1, 2010 reservation period has concluded with 84 projects fully interconnected with contracts in place, and operating. Twenty (20) projects have withdrawn their reservation or failed to meet the application and installed deadlines. Participants failing to meet these requirements were removed from the program. The information is summarized in the table below.
