Attn: Filing Center

RE: Report No. 64 - 2015 Affiliated Interest Report (Reported May 2016)

In accordance with 757.005 and OAR 860-027-0100, enclosed is Portland General Electric's (PGE) Affiliated Interest Report for the twelve months ending December 31, 2015.

Attachment 1 shows amounts of annual billings between PGE and its affiliates. PGE billed approximately \$1.3 million to affiliates during 2015. Attachment 1 also provides billings from affiliates to PGE of approximately \$6.1 million. The largest of these billings was approximately \$5.0 million from 121 SW Salmon Corporation for the lease of the World Trade Center (WTC) Building.

Attachment 2 is PGE's Cost Allocation Manual pursuant to OAR 860-027-0048(6), which includes PGE's 2015 corporate allocation summary.

Attachment 3 references PGE's 2015 SEC form 10-K. Following Attachment 3 are Sections I through VII of the Affiliated Interest Report. Section I-A provides the related Organization chart. Section I-B provides lists of officers and directors for each company with inter-company transactions that exceeded \$25,000 during 2015. Section I-C provides affiliate financial information that PGE considers **Confidential and Subject** to treatments prescribed under OAR 860-001-0070 (Confidential Information) because it could be used to harm PGE, its customers, its affiliates, and/or their customers. Sections II through V provide information on Affiliated Transactions. Sections VI and VII provide information regarding employee transfers and intracompany allocations.

SunWay 2, LLC was dissolved effective January 5, 2015, and is now part of PGE's rate base. For this reporting period, PGE provides financials for SunWay 3, LLC, although it is not a true affiliate, and has no appointed directors or officers. Portland General Electric Company, as

PGE Affiliated Interest Report For 12 months ending December 31, 2015 May 27, 2016 Page 2

Managing Member, directs the operations of SunWay 3, LLC.

For the reasons stated above, the affiliate financial statements (Section I-C) are noted as **Confidential and Subject** to treatments prescribed under OAR 860-001-0070 (Confidential Information). Therefore, this item is provided on yellow paper, and provided in a separate sealed envelope bearing the legend "**CONFIDENTIAL**." Additionally, for this item, please do not release this information to anyone outside the Public Utility Commission Staff and please store this information in a locked file cabinet. If you are unable to honor these requests, please notify us immediately.

If you have any questions regarding this report, please feel free to contact me at (503) 464-8937.

Sincerely

Stefan Brown

Manager, Regulatory Affairs

# PORTLAND GENERAL ELECTRIC COMPANY

# 2015 Cost Allocation Manual

per

OAR 860-027-0048(6)

(Reported May 2016)

#### Introduction

This document discusses PGE's loadings, allocations and the respective methodologies that are used to redistribute costs to non-regulated activities and affiliates. For some services, typically those that benefit various functional areas, it is not practicable to charge the cost directly. Costs that cannot be reasonably directly charged are captured either on the balance sheet through deferred accounts or in specific income statement accounts. These costs are then redistributed to their ultimate destination.

PGE uses a series of automated reclassifications and loadings to distribute administrative and overhead costs to end use accounts. There are four groups of these: 1) Labor Loadings, 2) Service Provider Allocations, 3) Administrative Allocations, and 4) Overhead Stores Loadings.

## **PGE's Non-Regulated Activities**

## Non-Regulated Activities:

- Large Nonresidential Tradable Renewable Credit Rider (Schedule 54)
- Meter Information Services (Schedule 320)
- Electrical Equipment Services (Schedule 715)
- Service Maps (Schedule 800)

## **PGE Affiliates and Subsidiaries**

#### Affiliates:

• Portland General Electric Foundation – Corporate foundation of PGE.

### Subsidiaries:

- 121 SW Salmon Street Corporation PGE makes its WTC lease payments to 121 SW Salmon, which makes payments to the leaseholder.
- World Trade Center Northwest Corporation Inactive except for holding the World Trade Center franchise.
- Salmon Springs Hospitality Group, Inc. SSHG provides catering within the
  WTC complex. SSHG charges PGE its market rate less a discount for its catering.
  PGE charges SSHG labor costs based on man-hours utilized at fully allocated
  labor rates. Non-labor items are billed at cost, with the exception of office space,
  which is billed at market value. All profits/losses from SSHG flow back to PGE
  (regulated).

#### Other:

• SunWay 3, LLC – SunWay 3 owns seven photovoltaic solar power facilities approximating a total of 2,406 kW located on the rooftops of seven different buildings in Portland, Oregon, which are owned by ProLogis (a Maryland real estate investment trust). The equipment is operated and maintained by PGE.

## **Labor Loadings**

There are eight categories of labor loadings: 1) Employee support; 2) Payroll Taxes; 3) Employee Benefits; 4) Corporate Incentives; 5) Injuries & Damages; 6) Paid Time Off (PTO); 7) Pension Service Cost; and 8) Net Periodic Pension Cost. The accounting entries created by the loading process are captured in accounts using Cost Elements (CE) specific to the loadings.

## **Employee Support**

The Employee Support loading includes the cost of administering PGE's compensation program, EEO (Equal Employment Opportunity) and employee relations, employee training and development, and Human Resources administration.

## **Payroll Taxes**

The Payroll Tax loading consists of employer-paid, labor-related taxes such as FICA (Social Security & Medicare), federal unemployment, state unemployment, and workers' compensation premiums.

## **Employee Benefits**

The Employee Benefits loading includes the costs of retirement savings, health, dental, disability, and life insurance; and education and recreation programs.

# **Corporate Incentives**

The incentive loading consists of the cost of PGE's general incentive pay program that is incurred in the Performance Incentive Compensation accounts.

# Injuries & Damages

The Injuries & Damages loading includes the cost of administering PGE's health and safety programs plus claims from general liability damages, workers' compensation injuries, and auto accidents.

#### **Paid Time Off**

Paid Time Off (PTO) consists of employee pay for vacation, holiday, sick leave, and funeral leave.

### **Pension Service Cost**

Pension Service Cost is the actuarial estimate of the pension service cost earned by eligible participants. This loading is applied to PGE labor that gets billed to outside parties (i.e., co-owners of PGE's generating facilities and billings jobs) and nonutility activities.

### **Net Periodic Pension Cost**

The Net Period Pension Costs (NPPC) loading includes the annual accounting expense associated with the PGE pension plan. The amount of NPPC that's applied to PGE's labor is reduced by the amount of Pension Service Costs billed to outside parties and charged to nonutility activities.

Following is a table which includes the actual labor loading rates for 2015:

<b>Labor Loading Rates</b>	2015 Actuals
	0.050/
Employee Support	0.85%
Payroll Taxes	10.61%
Employee Benefits	33.74%
Corporate Incentives	5.02%
Injuries & Damages (PGE Only)	7.99%
Vacation (PTO)	19.36%
Pension Service Cost	9.46%
Net Periodic Pension Cost	15.83%

### **Service Provider Allocations**

### Overview

PGE has several departments that provide services to most areas of the company. These services include World Trade Center facilities, Information Technology, Production Services, the corporate Helicopter, and Fleet Services.

### **World Trade Center Facilities**

The World Trade Center Allocation is used to allocate the cost (lease, operations and maintenance, and cost of capital) between PGE (utility and non-utility) and non-PGE tenants. The amount allocated to PGE is apportioned by functional areas of PGE, including O&M, A&G, Capital and non-utility accounts.

### WTC Cost Distribution (Actual)

	40% 60%
Total Cost Pool \$13,381 PGE's Share allocated \$9,554	

Below is a table of the actual distribution percentages of the 2015 WTC costs allocated to PGE:

World Trade Center Allocation	% Lease Cost
Boardman	0.38%
Coyote Springs	0.22%
Pelton	0.24%
Round Butte	0.31%
Utility Capital	21.54%
Trojan	0.18%
Utility Expense	73.54%
Non-Utility	3.59%
2015 Actual Total	100.00%

## **Information Technology**

PGE's Information Technology department provides services to all functional areas of the company. The allocation of these costs is based on several methods. Some costs are allocated based on counts of equipment, some use historical analysis, and others use the results of the spread of all of the previous methods.

### **Production Services**

The Production Services portion of Service Providers includes the Printing & Mail Services group. The allocation of these costs is based on historical usage of services provided, which is tracked by the Printing & Mail Services group. This in turn is used to allocate costs to end use accounts.

## Helicopter

The costs to operate the corporate helicopter (operations, maintenance, and depreciation) are charged to a clearing account (Account 184). The helicopter costs are allocated based on historical usage patterns. The helicopter is used primarily for transmission and distribution power line inspections and surveillance.

Included below is a table which lists the 2015 actual percentages and costs for the Service Provider Allocations:

	Information Technology	<b>Production Services</b>	Helicopter
Trojan	0.51%	0.10%	N/A
Boardman	3.39%	0.25%	N/A
Coyote Springs	1.13%	0.16%	N/A
Pelton / Round Butte	0.69%	0.40%	N/A
Generation <sup>1</sup>	9.05%	1.60%	N/A
Power Operations	3.29%	1.00%	N/A
Transmission	2.73%	7.00%	66.00%
Distribution	32.90%	15.50%	22.00%
Marketing	4.70%	2.25%	N/A
Customer Service	20.24%	32.00%	N/A
Admin & General	20.34%	38.04%	12.00%
Non-Utility	. 1.03%	1.70%	N/A
Totals	100.00%	100.00%	100.00%
2015 Actuals	\$39,511,109	\$710,333	\$435,870

6

<sup>&</sup>lt;sup>1</sup> Generation includes Beaver, Faraday, North Fork, Oak Grove, River Mill, Sullivan, Port Westward, Port Westward 2, Biglow and Tucannon.

#### Fleet Services Overview

PGE manages a fleet of vehicles and specialized equipment to support the wide variety of activities necessary to operate the company. The majority of these vehicles are dedicated to the work of PGE's line crews. In addition, PGE maintains a small pool of light-duty pickups and passenger vehicles which support employee transportation job requirements. The fleet is segregated into nine vehicle types:

Type 1 - Man-lift equipment

Type 2 - Digger derrick equipment

Type 3 - Cranes

Type 4 - Heavy-duty trucks

Type 5 - Medium-duty trucks

Type 6 - Light-duty trucks

Type 7 - Construction equipment

Type 8 - Trailers

Type 9 - Automobiles

Rates are determined for each vehicle class by analyzing historical cost and usage levels. For the Type 1 through 8 vehicles these rates are used to spread vehicle overhead costs to end-use accounting based on a combination of normalized annual usage based on the latest vehicle study and line crew labor costs. The vehicles located at the corporate headquarters (Type 9) are charged at market rates to end-use accounting provided by employees who use the vehicles.

The actual rates for Type 1-8 vehicles used during 2015 are included in the following table:

Transportation Rates	Hourly Rate
Type 1 - Man-lift Equipment	\$38.67
Type 2 - Digger Derrick Equipment	\$80.82
Type 3 - Cranes	\$71.77
Type 4 - Heavy Duty Trucks	\$95.68
Type 5 - Medium Duty Trucks	\$27.06
Type 6 - Light Duty Trucks	\$12.80
Type 7 - Construction Equipment	\$28.64
Type 8 - Trailers	\$12.75

Actual costs associated with operating and maintaining the company vehicle fleet for 2015 total \$11,685,684.

#### **Administrative Allocations**

## **Corporate Governance**

Certain A&G costs are distributed to PGE's capital, non-utility and the co-owned entities through the Corporate Governance allocation. These costs are incurred for activities such as Human Resources, Accounting, and other corporate functions that support all PGE activities. This is accomplished by pooling the corporate governance costs and allocating them to PGE capital, non-utility, and the co-owned entities capital and A&G accounts.

Activities charged to certain accounts and by certain departments have been identified as supporting all PGE, including the generating plant co-owners. The charges in these ledger segments are pooled together creating the "Corporate Governance Cost Pool". Certain departments, however, are excluded from the Cost Pool since their activities do not support the co-owners, such as tax and legal.

The basis for this allocation is labor costs for PGE and the co-owned entities (excluding PTO). For PGE, the allocation is made to capital and non-utility activity only. Costs remaining in A&G reflect amounts that are unallocated to PGE's O&M (income statement) expenses. For the co-owned entities, however, costs are distributed to capital, A&G, and decommissioning.

Included below is a table which shows the 2015 actual percentages and costs for the Corporate Governance Allocation:

## **Corporate Governance**

	Capital	Decommissioning	Expense
Trojan	0.00%	0.62%	0.02%
Boardman	0.53%	N/A	5.40%
Pelton	0.02%	N/A	0.88%
Round Butte	0.20%	N/A	1.18%
Coyote Springs	0.08%	N/A	1.57%
Utility	30.16%	N/A	58.24%
Non-Utility	0.00%	N/A	0.81%
KB Pipeline	0.02%	N/A	0.04%
Affiliates	N/A	N/A	0.23%
Totals	31.01%	0.62%	68.37%

2015 Actual Total

\$18,196,725

## **Corporate Allocation Summary**

The pool of allocable dollars in 2015 related to Labor Loadings, Service Provider Allocations, and Corporate Governance, all of which were discussed above, totaled \$253,364,616 of which \$169,923,038 was allocated to capital, non-utility and other expenses. The below table provides a summary of the allocation targets. All unallocated dollars remain in their respective A&G or O&M accounts.

### 2015 Corporate Allocation Summary

Trojan	0.73%
Boardman	5.41%
Pelton	0.88%
Round Butte	1.34%
Coyote Springs	1.36%
KB Pipeline	0.06%
Salmon Springs Hospitality Group	0.33%
Portland General Electric Foundation	0.03%
Utility Capital	35.04%
Utility Expense	53.71%
Non-Utility	1.11%
Total	100.00%

## **Affiliate Billings**

The affiliate billings include labor loadings plus the allocations (Corporate Governance, WTC Floor Space and Service Provider costs). The direct costs incurred to provide services (i.e. labor costs) are accumulated in a billing job account along with the associated loadings and allocations; these costs are then billed to each affiliate and the billing job is relieved. If any balance remains in the billing job account, these costs are cleared to a nonutility account.

# Other Utility Administrative Allocations

PGE has other administrative allocations that are intra-company allocations and stay within utility operations; these include:

- Distribution Operations Supervision Engineering (DOSE)
- Generation Operations Supervision/Engineering (GOSE)
- PSES Administrative Overhead Allocation (GGF)
- Hydro Operations Support Overhead Allocation (GGH)
- Construction Loadings (allocation of administrative costs to utility capital)

These allocations do not impact affiliate, nonutility or subsidiary activities.

## **Stores Loadings**

#### Overview

PGE uses two stores loading rates: Boardman and PGE general inventory. The Boardman rate applies only to the operating trust; the PGE general inventory rate is applied to all other stores issues and returns.

## **PGE General Inventory**

The Stores loading (also referred to as the materials loading) is used to spread the cost of operating and maintaining material storerooms to the accounts that receive materials issues.

The costs incurred to operate each storeroom relate to both the maintenance of items in inventory and issuance of inventory to end-users. The balance remaining in stores overhead has a parallel relationship to the balance in stores inventory, so as the level of inventory increases, so would the balance in stores overhead. The calculation of the loading rate utilizes a 2-year rolling average of gross purchases, issues and returns divided into a 2-year rolling average of the operating costs. This ratio, multiplied by the dollar value of the physical inventory at a given point in time, determines the net amount of dollars that will remain in the stores overhead accounts (1630001). The stores loading process and manual adjustments keep the overhead balance at the appropriate level.

The 2015 loading rates are as follows:

PGE Materials 20% Boardman 23%

Name of Company:

PGE - Intra-Company Headquarters Allocation

VII. A description of each intra-company cost allocation procedure, and a schedule of cost amounts transferred between regulated and non-regulated segments of the company.

### Corporate Headquarters Lease (World Trade Center Operations)

PGE leases, operates and maintains its corporate headquarters office. Portions of the building are subleased to third parties (non-utility tenants). Costs incurred to lease and operate the building are recorded in non-utility accounts. Amounts related to PGE utility operations are allocated above the line to various Operating and Maintenance Expense accounts.

Allocation of costs between utility and non-utility operations is based on square footage of space used. Operating costs which are identifiable to specific utility or non-utility operations are directly allocated.

	Amount	
Total 2015 World Trade Center Operations:	\$	13,381,441
Amount transferred to utility operations during 2015:

Name of Company:

PGE - Intra-Company Corporate Governance Allocation

VII. A description of each intra-company cost allocation procedure, and a schedule of cost amounts transferred between regulated and non-regulated segments of the company.

### Corporate Governance A&G Allocation

Corporate Governance is a pool of Administrative and General costs, a portion of which are reclassified (or allocated) from PGE Expense to the following: PGE capital, jointly-owned projects capital and expense, billing jobs and non-utility operations.

Name of Company:

PGE - Intra-Company Service Provider Allocation

VII. A description of each intra-company cost allocation procedure, and a schedule of cost amounts transferred between regulated and non-regulated segments of the company.

### Service Provider Allocation

PGE has several departments that provide services to most areas of the company. These services include computer support, information processing, printing and mailing and telecommunications. These departments charge their support service expenses to FERC 184 and then these are reclassified (or allocated) to the areas of the company receiving the services.
