RE: Report No. 64 - 2014 Affiliated Interest Report (Reported May 2015)

In accordance with 757.005 and OAR 860-027-0100, enclosed is Portland General Electric's (PGE) Affiliated Interest Report for the twelve months ending December 31, 2014.

Attachment 1 shows amounts of annual billings between PGE and its affiliates. PGE billed approximately \$1.3 million to affiliates during 2014. Attachment 1 also provides billings from affiliates to PGE of approximately \$6.2 million. The largest of these billings was approximately \$5.0 million from 121 SW Salmon Corporation for the lease of the World Trade Center (WTC) Building.

Attachment 2 is PGE's Cost Allocation Manual pursuant to OAR 860-027-0048(6), which includes PGE's 2014 corporate allocation summary.

Attachment 3 references PGE's 2014 SEC form 10-K. Following Attachment 3 are Sections I through VII of the Affiliated Interest Report. Section I-A provides the related Organization chart. Section I-B provides lists of officers and directors for each company with inter-company transactions that exceeded \$25,000 during 2014. Section I-C provides affiliate financial information that PGE considers **Confidential and Subject** to treatments prescribed under OAR 860-001-0070 (Confidential Information) because it could be used to harm PGE, its customers, its affiliates, and/or their customers. Sections II through V provide information on Affiliated Transactions. Sections VI and VII provide information regarding employee transfers and intracompany allocations.

SunWay 1, LLC was dissolved effective January 8, 2014 and SunWay 2, LLC was dissolved effective January 5, 2015, and these projects are now part of PGE's rate base. For this reporting period, PGE provides financials for SunWay 2, LLC and SunWay 3, LLC, although they are not true affiliates, and have no appointed directors or officers. Portland General Electric Company, as Managing Member, directs the operations of SunWay 3, LLC.

PGE Affiliated Interest Report For 12 months ending December 31, 2014 May 26, 2015 Page 2

For the reasons stated above, the affiliate financial statements (Section I-C) are noted as **Confidential and Subject** to treatments prescribed under OAR 860-001-0070 (Confidential Information). Therefore, this item is provided on yellow paper, and provided in a separate sealed envelope bearing the legend "**CONFIDENTIAL**." Additionally, for this item, please do not release this information to anyone outside the Public Utility Commission Staff and please store this information in a locked file cabinet. If you are unable to honor these requests, please notify us immediately.

If you have any questions regarding this report, please feel free to contact me at (503) 464-7580.

Sincerely.

Patrick G. Hager

¹ SunWay 1, LLC was dissolved on January 8, 2014 and is now part of PGE's Rate Base.

¹ SunWay 2, LLC was dissolved on January 5, 2015 and is now part of PGE's Rate Base.
² SunWay 3, LLC is reported, but not a PGE affiliate for 2013 or 2014. PGE is including it in this report as mentioned previously to OPUC Staff.

Attachment 2

PORTLAND GENERAL ELECTRIC COMPANY

2014 Cost Allocation Manual

per

OAR 860-027-0048(6)

(Reported May 2015)

Introduction

This document discusses PGE's loadings, allocations and the respective methodologies that are used to redistribute costs to non-regulated activities and affiliates. For some services, typically those that benefit various functional areas, it is not practicable to charge the cost directly. Costs that cannot be reasonably directly charged are captured either on the balance sheet through deferred accounts or in specific income statement accounts. These costs are then redistributed to their ultimate destination.

PGE uses a series of automated reclassifications and loadings to distribute administrative and overhead costs to end use accounts. There are four groups of these: 1) Labor Loadings, 2) Service Provider Allocations, 3) Administrative Allocations, and 4) Overhead Stores Loadings.

PGE's Non-Regulated Activities

Non-Regulated Activities:

- Large Nonresidential Tradable Renewable Credit Rider (Schedule 54)
- Meter Information Services (Schedule 320)
- Electrical Equipment Services (Schedule 715)
- Power Quality Products and Services (Schedule 730)
- Service Maps (Schedule 800)

PGE Affiliates and Subsidiaries

Affiliates:

• Portland General Electric Foundation – Corporate foundation of PGE.

Subsidiaries:

- 121 SW Salmon Street Corporation PGE makes its WTC lease payments to 121 SW Salmon, which makes payments to the leaseholder.
- World Trade Center Northwest Corporation Inactive except for holding the World Trade Center franchise.
- Salmon Springs Hospitality Group, Inc. SSHG provides catering within the WTC and also provides catering outside of the WTC. SSHG charges PGE its market rate less a discount for its catering. PGE charges SSHG labor costs based on man-hours utilized at fully allocated labor rates. Non-labor items are billed at cost, with the exception of office space, which is billed at market value. All profits/losses from SSHG flow back to PGE (regulated).

Other:

- SunWay 2, LLC SunWay 2 owns three photovoltaic solar power facilities approximating a total of 1,095 kW located on the rooftops of three different buildings in Portland, Oregon, which are owned by ProLogis (a Maryland real estate investment trust). The equipment is operated and maintained by PGE.
- SunWay 3, LLC SunWay 3 owns seven photovoltaic solar power facilities approximating a total of 2,406 kW located on the rooftops of seven different buildings in Portland, Oregon, which are owned by ProLogis (a Maryland real estate investment trust). The equipment is operated and maintained by PGE.

Labor Loadings

There are eight categories of labor loadings: 1) Employee support; 2) Payroll Taxes; 3) Employee Benefits; 4) Corporate Incentives; 5) Injuries & Damages; 6) Paid Time Off (PTO); 7) Pension Service Cost; and 8) Net Periodic Pension Cost. The accounting entries created by the loading process are captured in accounts using Cost Elements (CE) specific to the loadings.

Employee Support

The Employee Support loading includes the cost of administering PGE's compensation program, EEO (Equal Employment Opportunity) and employee relations, employee training and development, and Human Resources administration.

Payroll Taxes

The Payroll Tax loading consists of employer-paid, labor-related taxes such as FICA (Social Security & Medicare), federal unemployment, state unemployment, and workers' compensation premiums.

Employee Benefits

The Employee Benefits loading includes the costs of retirement savings, health, dental, disability, and life insurance; and education and recreation programs.

Corporate Incentives

The incentive loading consists of the cost of PGE's general incentive pay program that is incurred in the Performance Incentive Compensation accounts.

Injuries & Damages

The Injuries & Damages loading includes the cost of administering PGE's health and safety programs plus claims from general liability damages, workers' compensation injuries, and auto accidents.

Paid Time Off

Paid Time Off (PTO) consists of employee pay for vacation, holiday, sick leave, and funeral leave.

Pension Service Cost

Pension Service Cost is the actuarial estimate of the pension service cost earned by eligible participants. This loading is applied to PGE labor that gets billed to outside parties (i.e. co-owners of PGE's generating facilities and billings jobs) and nonutility activities.

Net Periodic Pension Cost

The Net Period Pension Costs (NPPC) loading includes the annual accounting expense associated with the PGE pension plan. The amount of NPPC that's applied to PGE's labor is reduced by the amount of Pension Service Costs billed to outside parties and charged to nonutility activities.

Following is a table which includes the actual labor loading rates for 2014:

Labor Loading Rates	2014 Actuals
F 1 G	500 /
Employee Support	.78%
Payroll Taxes	10.81%
Employee Benefits	34.39%
Corporate Incentives	8.15%
Injuries & Damages (PGE Only)	7.22%
Vacation (PTO)	17.97%
Pension Service Cost	8.01%
Net Periodic Pension Cost	15.07%

Service Provider Allocations

Overview

PGE has several departments that provide services to most areas of the company. These services include World Trade Center facilities, Information Technology, Production Services, the corporate Helicopter, and Fleet Services.

World Trade Center Facilities

The World Trade Center Allocation is used to allocate the cost (lease, operations and maintenance, and cost of capital) between PGE (utility and non-utility) and non-PGE tenants. The amount allocated to PGE is apportioned by functional areas of PGE, including O&M, A&G, Capital and non-utility accounts.

WTC Cost Distribution (Actual) PGE (Utility/Non-Utility Tenants) Non-PGE Tenants	71.40% 28.60%
Total Cost Pool	\$13,277,342
PGE's Share allocated	\$9,480,022

Below is a table of the actual distribution percentages of the 2014 WTC costs allocated to PGE:

World Trade Center Allocation	% Lease Cost
Boardman	0.41%
Coyote Springs	0.18%
Pelton	0.52%
Round Butte	0.49%
Utility Capital	14.75%
Trojan	0.25%
Utility Expense	79.83%
Non-Utility	3.57%
2014 Actual Total	100.00%

Information Technology

PGE's Information Technology department provides services to all functional areas of the company. The allocation of these costs is based on several methods. Some costs are allocated based on counts of equipment, some use historical analysis, and others use the results of the spread of all of the previous methods.

Production Services

The Production Services portion of Service Providers includes the Printing & Mail Services group. The allocation of these costs is based on historical usage of services provided, which is tracked by the Printing & Mail Services group. This in turn is used to allocate costs to end use accounts.

Helicopter

The costs to operate the corporate helicopter (operations, maintenance, and depreciation) are charged to a clearing account (Account 184). The helicopter costs are allocated based on historical usage patterns. The helicopter is used primarily for transmission and distribution power line inspections and surveillance.

Included below is a table which lists the 2014 actual percentages and costs for the Service Provider Allocations:

	Information Technology	Production Services	Helicopter
Trojan	0.71%	0.10%	N/A
Boardman	3.36%	0.25%	N/A
Coyote Springs	1.11%	0.20%	N/A
Pelton / Round Butte	0.62%	0.40%	N/A
Generation ¹	9.28%	1.60%	N/A
Power Operations	2.10%	1.00%	N/A
Transmission	2.79%	7.00%	66.00%
Distribution	32.64%	15.50%	22.00%
Marketing	4.13%	2.25%	N/A
Customer Service	22.12%	32.00%	N/A
Admin & General	20.04%	38.00%	12.00%
Non-Utility	1.10%	1.70%	N/A
Totals	100.00%	100.00%	100.00%
2014 Actuals	\$36,451,729	\$701,950	\$423,817

6

¹ Generation includes Beaver, Faraday, North Fork, Oak Grove, River Mill, Sullivan, Port Westward and Biglow.

Fleet Services Overview

PGE manages a fleet of vehicles and specialized equipment to support the wide variety of activities necessary to operate the company. The majority of these vehicles are dedicated to the work of PGE's line crews. In addition, PGE maintains a small pool of light-duty pickups and passenger vehicles which support employee transportation job requirements. The fleet is segregated into 9 vehicle types:

Type 1 - Man-lift equipment

Type 2 - Digger derrick equipment

Type 3 - Cranes

Type 4 - Heavy-duty trucks

Type 5 - Medium-duty trucks

Type 6 - Light-duty trucks

Type 7 - Construction equipment

Type 8 - Trailers

Type 9 - Automobiles

Rates are determined for each vehicle class by analyzing historical cost and usage levels. For the Type 1 through 8 vehicles these rates are used to spread vehicle overhead costs to end-use accounting based on a combination of normalized annual usage based on the latest vehicle study and line crew labor costs. The vehicles located at the corporate headquarters (Type 9) are charged at market rates to end-use accounting provided by employees who use the vehicles.

The actual rates for Type 1-8 vehicles used during 2014 are included in the following table:

Transportation Rates	Hourly Rate
Type 1 - Man-lift Equipment	\$38.67
Type 2 - Digger Derrick Equipment	\$80.82
Type 3 - Cranes	\$71.77
Type 4 - Heavy Duty Trucks	\$95.68
Type 5 - Medium Duty Trucks	\$27.06
Type 6 - Light Duty Trucks	\$12.80
Type 7 - Construction Equipment	\$28.64
Type 8 - Trailers	\$12.75

Actual costs associated with operating and maintaining the company vehicle fleet for 2014 total \$13,641,319.

Administrative Allocations

Corporate Governance

Certain A&G costs are distributed to PGE's capital, non-utility and the co-owned entities through the Corporate Governance allocation. These costs are incurred for activities such as Human Resources, Accounting, and other corporate functions that support all PGE activities. This is accomplished by pooling the corporate governance costs and allocating them to PGE capital, non-utility, and the co-owned entities capital and A&G accounts.

Activities charged to certain accounts and by certain departments have been identified as supporting all PGE, including the generating plant co-owners. The charges in these ledger segments are pooled together creating the "Corporate Governance Cost Pool". Certain departments, however, are excluded from the Cost Pool since their activities do not support the co-owners, such as tax and legal.

The basis for this allocation is labor costs for PGE and the co-owned entities (excluding PTO). For PGE, the allocation is made to capital and non-utility activity only. Costs remaining in A&G reflect amounts that are unallocated to PGE's O&M (income statement) expenses. For the co-owned entities, however, costs are distributed to capital, A&G, and decommissioning.

Included below is a table which shows the 2014 actual percentages and costs for the Corporate Governance Allocation:

Corporate Governance

	Capital	Decommissioning	Expense
Trojan	0.00%	0.66%	0.00%
Boardman	0.56%	N/A	5.96%
Pelton	0.13%	N/A	0.79%
Round Butte	0.37%	N/A	1.06%
Coyote Springs	0.13%	N/A	1.63%
Utility	28.73%	N/A	59.62%
Non-Utility	0.00%	N/A	0.08%
KB Pipeline	N/A	N/A	0.04%
Affiliates	N/A	N/A	0.24%
Totals	29.92%	0.66%	69.42%

2014 Actual Total

\$18,987,188

Corporate Allocation Summary

The pool of allocable dollars in 2014 related to Labor Loadings, Service Provider Allocations, and Corporate Governance, all of which were discussed above, totaled \$249,756,340 of which \$163,777,817 was allocated to capital, non-utility and other expenses. The below table provides a summary of the allocation targets. All unallocated dollars remain in their respective A&G or O&M accounts.

2014 Corporate Allocation Summary

Trojan	0.79%
Boardman	5.57%
Pelton	0.97%
Round Butte	1.37%
Coyote Springs	1.42%
KB Pipeline	0.04%
Salmon Springs Hospitality Group	0.33%
Portland General Electric Foundation	0.03%
Utility Capital	34.54%
Utility Expense	53.95%
Non-Utility	0.99%
Total	100.00%

Affiliate Billings

The affiliate billings include labor loadings plus the allocations (Corporate Governance, WTC Floor Space and Service Provider costs). The direct costs incurred to provide services (i.e. labor costs) are accumulated in a billing job account along with the associated loadings and allocations; these costs are then billed to each affiliate and the billing job is relieved. If any balance remains in the billing job account, these costs are cleared to a nonutility account.

Other Utility Administrative Allocations

PGE has other administrative allocations that are intra-company allocations and stay within utility operations; these include:

- Distribution Operations Supervision Engineering (DOSE)
- Generation Operations Supervision/Engineering (GOSE)
- PSES Administrative Overhead Allocation (GGF)
- West Side Hydro Operations (Hydro/Hydro2)
- Construction Loadings (allocation of administrative costs to utility capital)

These allocations do not impact affiliate, nonutility or subsidiary activities.

Stores Loadings

Overview

PGE uses two stores loading rates: Boardman and PGE general inventory. The Boardman rate applies only to the operating trust; the PGE general inventory rate is applied to all other stores issues and returns.

PGE General Inventory

The Stores loading (also referred to as the materials loading) is used to spread the cost of operating and maintaining material storerooms to the accounts that receive materials issues.

The costs incurred to operate each storeroom relate to both the maintenance of items in inventory and issuance of inventory to end-users. The balance remaining in stores overhead has a parallel relationship to the balance in stores inventory, so as the level of inventory increases, so would the balance in stores overhead. The calculation of the loading rate utilizes a 2-year rolling average of gross purchases, issues and returns divided into a 2-year rolling average of the operating costs. This ratio, multiplied by the dollar value of the physical inventory at a given point in time, determines the net amount of dollars that will remain in the stores overhead accounts (1630001). The stores loading process and manual adjustments keep the overhead balance at the appropriate level.

The 2014 loading rates are as follows:

PGE Materials 20% Boardman 23%

Name of Company:

PGE - Intra-Company Headquarters Allocation

VII. A description of each intra-company cost allocation procedure, and a schedule of cost amounts transferred between regulated and non-regulated segments of the company.

Corporate Headquarters Lease (World Trade Center Operations)

PGE leases, operates and maintains its corporate headquarters office. Portions of the building are subleased to third parties (non-utility tenants). Costs incurred to lease and operate the building are recorded in non-utility accounts. Amounts related to PGE utility operations are allocated above the line to various Operating and Maintenance Expense accounts.

Allocation of costs between utility and non-utility operations is based on square footage of space used. Operating costs which are identifiable to specific utility or non-utility operations are directly allocated.

Name of Company:

<u>PGE - Intra-Company Corporate Governance Allocation</u>

VII. A description of each intra-company cost allocation procedure, and a schedule of cost amounts transferred between regulated and non-regulated segments of the company.

Corporate Governance A&G Allocation

Corporate Governance is a pool of Administrative and General costs, a portion of which are reclassified (or allocated) from PGE Expense to the following: PGE capital, jointly-owned projects capital and expense, billing jobs and non-utility operations.

	 Amount
Amount transferred to non-utility operations during 2014	
Accounts 417, 418, 421 & 426:	\$ 126,373

Name of Company:

PGE - Intra-Company Service Provider Allocation

VII. A description of each intra-company cost allocation procedure, and a schedule of cost amounts transferred between regulated and non-regulated segments of the company.

Service Provider Allocation

PGE has several departments that provide services to most areas of the company. These services include computer support, information processing, printing and mailing and telecommunications. These departments charge their support service expenses to FERC 184 and then these are reclassified (or allocated) to the areas of the company receiving the services.
