Attachment

Safety & Customer Service Performance Indicator Report

Item (a): The ratio of the incident of damage to Company facilities relative to construction activity adjacent to Company facilities:

During the 2019 calendar year, Cascade performed 25,092 locates in its Oregon service territory and experienced 86 damage incidents. This results in a ratio of 3.43 damages per 1000 locates.

Item (b): The number and duration of orders backlogged over thirty (30) days for new service line installation, not including orders on hold at applicant/customer request:

One (1) order was backlogged over thirty days for new service line installations.

Item (c): Delays in connecting service that exceed the requirements of the rules that govern connection of utility service:

None.

Item (d): The average time required to provide applicants with a cost estimate for new service:

The average time to provide a cost estimate for new service lines is two to seven days depending on volume during heavy construction periods and city of service.
