The Honorable Kimberly D. Bose Secretary Federal Energy Regulatory Commission 888 First Street, N.E. Washington, DC 20426

RE: *PacifiCorp* Docket No. ER21-____

Dear Secretary Bose:

Pursuant to Section 205 of the Federal Power Act ("FPA"),¹ Part 35 of the Federal Energy Regulatory Commission's ("FERC" or the "Commission") regulations,² and Order 714,³ PacifiCorp hereby submits limited revisions to its transmission formula rate template ("Transmission Formula Rate Template") to reflect new source references in FERC Form No. 1. The new source references: (1) result from the addition of new electric plant and operation and maintenance expense accounts for energy storage devices as required by Order No. 784⁴; and (2) impact a limited number of lines in Appendix A, Appendix B, and Attachment 5 of Attachment H-1 of PacifiCorp's Open Access Transmission Tariff ("OATT"). The specific revisions are set forth below in Table 1. PacifiCorp respectfully requests the Commission accept the revisions effective 61 days after this filing or September 15, 2021.

I. Background and Reason for Filing

a. PacifiCorp's Transmission Formula Rate.

On May 23, 2013, the Commission accepted a settlement agreement in Docket No. ER11-3643, which implemented a formula transmission rate for PacifiCorp.⁵ Under the formula transmission rate, the charges PacifiCorp assesses for Point-to-Point Transmission Service and Network Integration Transmission Service are calculated annually using the Annual Transmission Revenue Requirement.

Honorable Kimberly D. Bose July 16, 2021

b. <u>Order No. 784</u>.

On July 18, 2013, the Commission issued Order No. 784 that revised certain aspects of the Commission's market-based rate regulations, ancillary services requirements under the *pro forma* open-access transmission tariff, and accounting and reporting requirements. As relevant to this filing, the Commission adopted reforms to its accounting and reporting requirements under its Uniform System of Accounts for public utilities and licensees and its forms, statements, and reports, contained in FERC Form No. 1, Annual Report of Major Electric Utilities, Licensees and Others, FERC Form No. 1-F, Annual Report for Nonmajor Public Utilities and Licensees, and FERC Form No. 3-Q, Quarterly Financial Report of Electric Utilities, Licensees, and Natural Gas Companies, to better account for and report transactions associated with the use of energy storage devices in public utility operations. These reforms added new electric plant and operation and maintenance expense accounts for energy storage devices to accommodate the increasing availability of these new resources for use in public utility operations.

Order No. 784 directed utilities with energy storage assets and operations to implement the accounting and reporting requirements as of January 1, 2013, i.e., in the 2013 FERC Form Nos. 1 and 1-F that must be filed with the Commission by April 18, 2014.⁶ But due to software limitations, the adopted new and revised schedules of Form Nos. 1, 1-F, and 3-Q were not available for use as of the effective date of Order No. 784. Consequently, utilities with energy storage assets and those that acquire the assets at a later date must continue or begin, as appropriate, using the existing form schedules to report energy storage assets pending availability of the new and revised schedules.⁷

c. <u>Order No. 859</u>.

On June 20, 2019, the Commission issued Order No. 859⁸, which adopted eXtensible Business Reporting Language ("XBRL") as the standard for filing Commission Forms. The XBRL taxonomy includes detailed tags to enable validation, enhance data analysis, and provide software developers with the tools needed to deliver filing software solutions with as many or more features than those currently available. The FERC required the Commission Forms to be submitted in XBRL, starting with the third quarter of 2021 filings for FERC Form Nos. 3-Q (electric), 3-Q (natural gas), and 6-Q.

On March 23, 2021, in Docket No. RM19-12, the Commission issued a "Notice of eforms updates, termination of visual foxpro filings and extension of filing deadlines", which extended the deadlines for submitting third quarter 2021 filings of FERC Form Nos. 3-Q (electric), 3-Q (natural gas), and 6-Q (oil) were extended. In particular, the deadline for filing the FERC Form No. 3-Q (electric) for Major Electric Utilities, Licensees, and

Honorable Kimberly D. Bose July 16, 2021

Others for the third quarter of 2021 was extended from November 29, 2021 until December 31, 2021.

d. <u>The need to update the Transmission Formula Rate Template in light of the</u> requirements of Order Nos. 784 and 859.

Based on the above, PacifiCorp will: (1) submit FERC Form No. 1 data in a XBRL compatible platform starting in 2021 as required by Order No. 859, and (2) update its FERC Form No. 1 to include the new accounting and reporting requirements associated with energy storage devices used in public utility operations in compliance with Order No. 784. As a result of these new energy storage accounts and added lines in FERC Form No. 1, the Transmission Formula Rate Template must also be updated to reflect new source references in FERC Form No. 1.

II. Summary of Proposed Changes to the Transmission Formula Rate

PacifiCorp proposes revisions to the FERC Form No. 1 line references in Appendix A, Appendix B, and Attachment 5 of its Transmission Formula Rate Template as specified in below table.

III. Rate Impact to Customers

The proposed revisions to the Transmission Formula Rate Template do not affect the resulting rates. The purpose of this filing is solely to update and reflect new source references in FERC Form No. 1.

IV. Enclosures

In addition to this transmittal letter, this filing consists of the following enclosures:

- Enclosure 1 Revised Attachment H-1 of PacifiCorp's OATT (clean version); and
- Enclosure 2 Revised Attachment H-1 of PacifiCorp's OATT (including redlined version of Appendix A, Appendix B and Attachment 5 compared to currently effective version).

Because of the section-based nature of PacifiCorp's eTariff filing of its Baseline OATT, PacifiCorp includes its complete Attachment H-1 of its OATT in clean and redlined versions, even though the only changes concern Appendix A, Appendix B and Attachment 5, as described herein.

V. Effective Date and Request for Waiver

As noted earlier, PacifiCorp respectfully requests the Commission accept the proposed revisions to the Transmission Formula Rate Template 61 days after the date of this filing or September 15, 2021.

To the extent necessary, PacifiCorp respectfully requests waiver of any requirements of the Commission's rules and regulations, as well as any authorizations as may be necessary or required, to permit the revisions to the Transmission Formula Rate Template to be accepted by the FERC and made effective in the manner proposed herein.

VI. Communications

All communications and correspondence regarding this filing should be forwarded to the following persons:⁹

⁹ To the extent necessary, PacifiCorp requests waiver of Section 385.203(b)(3) of the Commission's regulations to allow more than two persons identified below to receive service in this proceeding. 18 C.F.R. § 385.203(b)(3) (2021).

Excess deferred income taxes were reported in FERC Acct. 282 through 2018. Accordingly no separate rate base adjustment was reported in Appendix A.
 For the calendar year ended December 31, 2018, the balance is included in in FERC Acct. 282. Accordingly, it is excluded from the separately reported rate base adjustment in Appendix A to avoid being double counted.

Criteria for Allocation:

- A Other taxes that are incurred through ownership of plant, including transmission plant, will be allocated based on the Net Plant Allocator. If the taxes are 100% recovered at retail, they shall not be included.
- B Other taxes that are incurred through ownership of only general or intangible plant will be allocated based on the Wages and Salar Allocator. If the taxes are 100% recovered at retail, they shall not be included.
- C Other taxes that are assessed based on labor will be allocated based on the Wages and Salary Allocator.
- D Other taxes, except as provided for in A, B and C above, which are incurred and (1) are not fully recovered at retail or (2) are directly or indirectly related to transmission service, will be allocated based on the Net Plant Allocator; provided, however, that overheads shall be treated, as described in footnote B above.
- E Excludes prior period adjustments in the first year of the formula's operation and reconciliation for the first year.

1 Depreciation Rates shown in rows 1 through 22 were approved by each of the Company's respective state jurisdictions during the last depreciation study. Washington rate for 389.2 on line 11 was added after the last depreciation study.

2 The columns labeled "Balance" are the amount of investment physically located in each state.

3 The plant balance is updated each month as new plant is added.

4 The balances to be reported in the columns labeled "Balances" in any update are the weighted 13-month average balances for the rate year.

5 "Company Rate" shows the depreciation rate approved by all of the jurisdictions on a total company basis.

6 Unclassified Transmission represents the transmission additions placed in service but not yet classified to a FERC level account. Monthly depreciation is calculated by multiplying the month's beginning unclassified balance by the monthly transmission composite depreciation rate.

7 Unclassified General represents the general plant additions placed in service but not yet classified to a FERC level account. Monthly depreciation is calculated by multiplying the month's beginning unclassified balance by the monthly state general plant composite depreciation rate.

8 Transfers into the General amortized accounts (rows 13 through 21) are depreciated over the remaining life based on the account life.

9 Depreciation expense for General plant is decreased by the amount that is billed to joint owners for computer hardware.

10 Intangible and Leasehold Improvements (rows 23 through 25) are composite rates based on the 13 month average balance divided into the 2020 amortization expense for each account.

11 Amortization expense for Intangible is decreased by the amount that is billed to joint owners for computer software.

12 If the depreciation rates shown differ from the depreciation rates used to calculate the depreciation expense reported in FN1, then PacifiCorp is required to file under Section 205 for a modification of this Attachment or the calculation of depreciation expense and

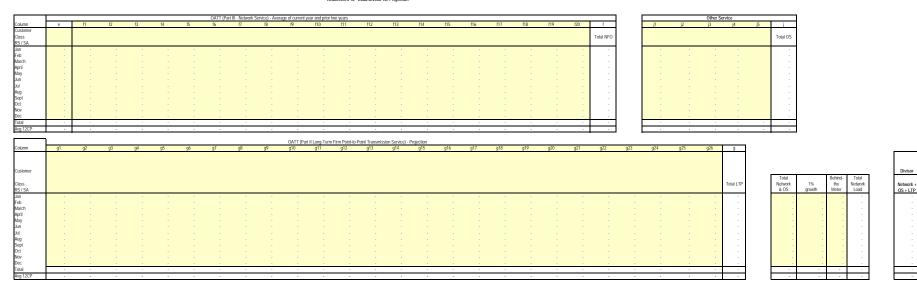

accumulated depreciation under this formula

a Some intragible assets in FERC accounts 302 and 303 have been excluded from balances in the calculation of composite Company depreciation rates: Hydro License Settlement Obligations and Gas Plant Intangibles.

14 FERC Sub-accounts 353.7 (Supervisory Equipment), 356.2 (Clearing & Grading), and 390.3 (Structures and Improvements - Office Panels) were previously shown on separate lines on Attachment 8, but the depreciation rates for these aforementioned

categories/FERC Accounts have been combined into their main accounts due to immateriality.
 New FERC Sub-account 391.3 (Office Furniture and Equipment) is a new FERC account with a different depreciation rate than the main FERC account 391.0, and was therefore added to reflect the current status.

Excess deferred income taxes were reported in FERC Acct. 282 through 2018. Accordingly no separate rate base adjustment was reported in Appendix A.
 For the calendar year ended December 31, 2018, the balance is included in in FERC Acct. 282. Accordingly, it is excluded from the separately reported rate base adjustment in Appendix A to avoid being double counted.

Criteria for Allocation:

- A Other taxes that are incurred through ownership of plant, including transmission plant, will be allocated based on the Net Plant Allocator. If the taxes are 100% recovered at retail, they shall not be included.
- B Other taxes that are incurred through ownership of only general or intangible plant will be allocated based on the Wages and Salar Allocator. If the taxes are 100% recovered at retail, they shall not be included.
- C Other taxes that are assessed based on labor will be allocated based on the Wages and Salary Allocator.
- D Other taxes, except as provided for in A, B and C above, which are incurred and (1) are not fully recovered at retail or (2) are directly or indirectly related to transmission service, will be allocated based on the Net Plant Allocator; provided, however, that overheads shall be treated, as described in footnote B above.
- E Excludes prior period adjustments in the first year of the formula's operation and reconciliation for the first year.

1 Depreciation Rates shown in rows 1 through 22 were approved by each of the Company's respective state jurisdictions during the last depreciation study. Washington rate for 389.2 on line 11 was added after the last depreciation study.

2 The columns labeled "Balance" are the amount of investment physically located in each state.

3 The plant balance is updated each month as new plant is added.

4 The balances to be reported in the columns labeled "Balances" in any update are the weighted 13-month average balances for the rate year.

5 "Company Rate" shows the depreciation rate approved by all of the jurisdictions on a total company basis.

6 Unclassified Transmission represents the transmission additions placed in service but not yet classified to a FERC level account. Monthly depreciation is calculated by multiplying the month's beginning unclassified balance by the monthly transmission composite depreciation rate.

7 Unclassified General represents the general plant additions placed in service but not yet classified to a FERC level account. Monthly depreciation is calculated by multiplying the month's beginning unclassified balance by the monthly state general plant composite depreciation rate

8 Transfers into the General amortized accounts (rows 13 through 21) are depreciated over the remaining life based on the account life.

9 Depreciation expense for General plant is decreased by the amount that is billed to joint owners for computer hardware.

10 Intangible and Leasehold Improvements (rows 23 through 25) are composite rates based on the 13 month average balance divided into the 2020 amortization expense for each account.

11 Amortization expense for Intangible is decreased by the amount that is billed to joint owners for computer software.

12 If the depreciation rates shown differ from the depreciation rates used to calculate the depreciation expense reported in FN1, then PacifiCorp is required to file under Section 205 for a modification of this Attachment or the calculation of depreciation expense and

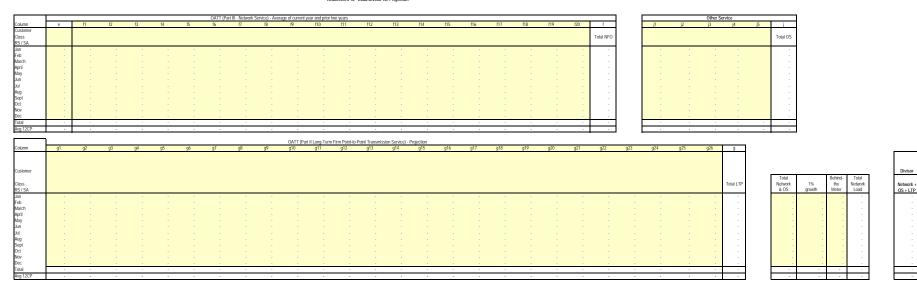

accumulated depreciation under this formula

a Some intragible assets in FERC accounts 302 and 303 have been excluded from balances in the calculation of composite Company depreciation rates: Hydro License Settlement Obligations and Gas Plant Intangibles.

14 FERC Sub-accounts 353.7 (Supervisory Equipment), 356.2 (Clearing & Grading), and 390.3 (Structures and Improvements - Office Panels) were previously shown on separate lines on Attachment 8, but the depreciation rates for these aforementioned

categories/FERC Accounts have been combined into their main accounts due to immateriality.
 New FERC Sub-account 391.3 (Office Furniture and Equipment) is a new FERC account with a different depreciation rate than the main FERC account 391.0, and was therefore added to reflect the current status.
