Re: Application for Reauthorization of ISFSI Tax Credit Deferral UM 1186

Enclosed for filing are the original and one copy of Portland General Electric Company's Application for Reauthorization to Defer ISFSI Tax Credits for December 31, 2009 through December 30, 2010.

PGE originally received permission to defer Independent Spent Fuel Storage Installation State Tax Credits through OPUC Order No. 05-136. The deferral authorization period began December 30, 2004, with annual reauthorization approvals through OPUC Order Nos. 05-136, 06-117, 07-084, 08-152, and 08-616.

We have provided copies of a Notice of Application to the UE 197 service list. PGE waives paper service of documents in this proceeding and has E-filed a copy on this date.

Thank you for your assistance in this matter. If you have any questions or require further information, please call me (503-464-7580), or Jay Tinker (503-464-7623).

Sincerely,

BEFORE THE PUBLIC UTILITY COMMISSION

OF OREGON

UM 1186

In the Matter of the Application of Portland
General Electric Company for an Order to
Reauthorize the Deferral of Independent Spent
Fuel Storage Installation State Tax Credit Cost
Reduction

Application For Reauthorization To
Defer ISFSI State Tax Credits

Pursuant to ORS 757.259, OAR 860-027-0300 and OPUC Order No. 07-084, Portland General Electric Company ("PGE") requests reauthorization to defer for later ratemaking treatment certain Independent Spent Fuel Storage Installation (ISFSI) state tax credits, for December 31, 2009, through December 30, 2010, (the "Deferral Period").

I. Deferral History:

On December 9, 2004, the Environmental Quality Commission granted PGE approval of the final certification of ISFSI expenditures, authorizing state tax credits totaling \$21.1 million (50% of PGE's share of the certified costs). The credits are authorized for use on a straight-line basis over ten years, with a carry-forward provision that allows any particular tax year's provision to be postponed for up to three tax years.

The ISFSI is a dry cask storage system, which provided storage for the spent nuclear fuel assemblies and radioactive waste generated at the Trojan plant during the years in which it produced energy. PGE, PacifiCorp, and the Eugene Water and Electric Board jointly own the Trojan plant.

On December 30, 2004, PGE filed and requested authorization to defer for later ratemaking treatment those cost reductions associated with the use of ISFSI Oregon state tax credits. PGE received approval of the deferral for the 2004 tax year on March 15, 2005. (See OPUC Order No. 05-136).

PGE has since filed and received reauthorization for this deferral, as shown in Table 1 below:

Table 1

Filing Date	Renewal Period	Tax year	Order No.	Approval Date
12-30-05	12/31/05 – 12/30/06	2005	06-117	03-13-06
12-15-06	12/31/06 - 12/30/07	2006	07-084	03-05-07
12-21-07	12/31/07 - 12/30/08	2007	08-152	03-04-08
11-18-08	12/31/08 - 12/30/09	2008	08-616	12-30-08
11-XX-09	12/31/09 - 12/30/10	2009		

II. OAR 860-027-0300 Requirements:

The following is provided pursuant to OAR 860-027-0300(3):

a. Description

See the Deferral History above. For any tax year, the maximum Deferral Amount is \$2.25 million per year (\$21.1 million over ten years, after federal tax effect and using a Net-to-Gross Factor of 1.65%). For tax years during which PGE accrues less than the maximum provision of the ISFSI tax credit because anticipated state tax expense is less than \$2.1 million, PGE will calculate the Deferral Amount based on the actual ISFSI tax credit accrued.

b. Reasons for Deferral

PGE seeks approval of the Deferral Amount pursuant to ORS 757.259(2)(e). This deferral will minimize the frequency of rate changes and match appropriately the costs borne by and benefits received by customers. PGE's customers have paid for the ISFSI project through an inclusion in rates of the annual contribution to the Trojan Nuclear Decommissioning Trust (NDT), and PGE has committed that customers should receive the benefits of these tax credits. The deferral of these credits allows them to be accumulated for later customer refund.

c. Proposed Accounting

PGE proposes to record the deferral as a regulatory liability in FERC Account 254 (Other Regulatory Liabilities), debiting FERC Account 407.3 (Regulatory Debits). In the absence of a renewed deferred accounting order, PGE's net income would increase as a result of lower state tax expense as booked in FERC Account 409.1 (Income Taxes, Utility Operating Income) when the ISFSI tax credits are utilized.

PGE will accrue interest, as appropriate, on the Deferral Amount at PGE's authorized cost of capital, currently 8.284% until the Commission approves amortization of the deferred amount in a future proceeding.

d. Estimate of Amounts

For December 31, 2009, through December 30, 2010, PGE estimates adding approximately \$2.25 million to the deferred account if PGE earns adequate taxable income to use all the credits available.

The actual deferred amount may be more or less depending on PGE's state taxable income, actual tax expense and the provision for a three-year carry forward into future tax years.

e. Notice

A copy of the Notice of Application for Reauthorization to Defer ISFSI state tax credits and a list of persons served with the Notice are attached to the Application as Attachment A.

III. The following is provided pursuant to OAR 860-027-0300(4):

a. Description of Deferred Account Entries

Please see section (II)(c)

b. The Reason for Continuing Deferred Accounting

PGE is seeking approval to continue the ISFSI Deferral pursuant to conditions approved in

Commission Order No. 08-616 (2008 tax year) as described in Section (II)(b) above.
