Enclosure

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 1301

In the Matter of

PORTLAND GENERAL ELECTRIC
COMPANY

Application for Deferral of 2007 Quarterly
Direct Access Open Enrollment Costs/Benefits

**PORTLAND GENERAL ELECTRIC
COMPANY APPLICATION FOR
DEFERRAL REAUTHORIZATION**

Pursuant to ORS 757.259, OAR 860-027-0300, and the Public Utility Commission of Oregon (Commission or OPUC) Order No. 20-032, Portland General Electric Company (PGE) hereby requests reauthorization to continue to defer for later ratemaking treatment certain costs or benefits associated with implementation of PGE’s direct access open enrollment windows¹ from January 1, 2021 through December 31, 2021 (Deferral Period 2021).

I. Deferral History

On September 14, 2006, the Commission adopted the Direct Access Stipulation in Order No. 06-528. PGE and parties entered into, and the Commission approved a stipulation by which PGE would offer quarterly direct access enrollment windows in addition to its annual November election window. The stipulation was made a part of Commission Order No. 07-015 and PGE filed tariff Schedule 128 in compliance with that Order.

On February 1, 2007, PGE filed a request for approval to defer costs and benefits associated with its 2007 Quarterly Direct Access Open Enrollment Windows and pursuant to the Commission Orders referenced above. The quarterly deferral was authorized by Commission

¹ The direct access windows include PGE’s annual and balance-of-year open enrollment window provided through PGE’s Schedule 128.

Order No. 07-108 and the request to continue the deferral is filed pursuant to Commission Order No. 16-038 and ORS §757.259. On March 17, 2008, the Commission determined that the costs and benefits associated with PGE's Annual Direct Access Window are appropriately included in this deferral, i.e., UM 1301. See Commission Order No. 08-169 (Docket UM 1359).

On February 23, 2012, Commission Order No. 12-057 (Docket No. UE 236) reduced the quarterly windows to one, effective April 1 of each year. The balance-of-year window now provides Schedule 128-eligible customers the opportunity to move to direct access service or an applicable non-cost-of-service pricing option for the balance of the calendar year.

The financial impact of customer decisions during the balance-of-year and Annual Direct Access Windows is based on the amount of customer load that selects non-cost of service pricing and the changes in wholesale market prices used to set the transition adjustment rates (Schedule 128 rates) for each enrollment period. Amounts calculated pursuant to this mechanism will be deferred if the difference in market prices and the load leaving PGE's cost-of-service rate exceeds \$60,000 in the balance-of-year period or \$240,000 for the annual election as specified in Schedule 128.

PGE has since filed and received reauthorizations for this deferral, as shown in Table 1 below:

II. OAR 860-027-0300 Requirements

The following is provided pursuant to OAR 860-027-0300(3):

a. Description of Amounts

The deferred amount for any given Deferral Period is a function of the difference in wholesale market prices used to set transition adjustment rates (Schedule 128) for each open enrollment window, and the amount of customer load that selects non-cost of service energy pricing and supply. The current deferral balance is approximately (\$400,000) associated with the 2019 annual November enrollment window. PGE will set the amortization for this \$400,000 in 2021 through Schedule 105. PGE cannot provide an estimate of the deferred amount for Deferral Period 2021 until the results of the applicable direct access windows are available.

b. Reasons for Deferral

PGE seeks reauthorization to continue to defer costs or benefits associated with Direct Access Open Enrollment Windows incurred from January 1, 2021 through December 31, 2021.

Any costs or benefits associated with the deferral will be considered later for appropriate rate-making treatment. Without reauthorization, this deferral will expire on December 31, 2020. The deferral provides a mechanism for PGE to track the cost or benefit of open enrollment options and defer those costs or benefits for later rate-making treatment. PGE will seek amortization of any deferred amount in a later proceeding. The continuation of the deferral will minimize the frequency of rate changes or fluctuations pursuant to ORS 757.259(2)(e), or match appropriately the costs borne by and benefits received by customers.

PGE expects any deferred amount to be recovered or refunded in a manner approved by the Commission and consistent with the terms of Schedule 128.

c. Proposed Accounting

PGE proposes to record the deferral as a regulatory asset in FERC Account 182.3 (Other Regulatory Assets) with an off-setting credit to FERC Account 447 (Sales for Resale) or as a regulatory liability in FERC Account 254 (Other Regulatory Liabilities) with an off-setting debit to FERC Account (Sales for Resale). In the absence of a deferral order, PGE would record the revenues associated with the deferred amount in FERC Account 447 (Sales for Resale).

d. Estimate of Amounts

See II (a) above. PGE requests that, in accordance with ORS 757.259(4), it be allowed to continue to accrue interest on the unamortized balance at a rate equal to its authorized weighted average cost of capital. Subsequently, interest will accrue at the modified blend treasury rate set by the Commission for the amortization of deferred accounts.

e. Notice

A copy of the Notice of Application for Reauthorization to Defer Direct Access Open Enrollment Costs or Benefits and a list of persons served with the Notice are attached to the

Application as Attachment A.

III. The following is provided pursuant to OAR 860-027-0300(4):

a. Description of deferred account entries

Please see sections (II)(a) and II(c) above.

b. The reason for continuing deferred accounting

Pursuant to Commission Order No. 20-032 and as described in Section II(b) above, PGE seeks approval to continue to defer the costs or benefits associated with its Direct Access Open Enrollment Costs from January 1, 2021 through December 31, 2021. Without reauthorization, this deferral will expire on December 31, 2020.

V. Summary of Filing Conditions

a. Earnings Review

An earnings review should not be required, because, as stated in the OPUC Staff Memo

for PGE Advice No. 13-24, which the Commission approved at the December 19, 2013 OPUC Public Meeting, the deferred costs are of the sort that should be borne by customers.

b. Prudence Review

A prudence review will be performed by the OPUC Staff and should include a verification of the accounting methodology used to determine the final amortization balance.

c. Sharing

All costs should flow to customers per the Staff Memo described in part V(a) above.

d. Rate Spread/Rate Design

The amortization of any deferred amount will be spread on a per-kWh basis to applicable Large Nonresidential customers as specified in Schedule 128.

e. Three Percent Test (ORS 757.259(6))

The three percent test measures the annual overall effect on customer rates resulting from deferral amortizations. The three percent test limits (exceptions at ORS 757.259(7) and (8)) the aggregated deferral amortizations during a 12-month period to no more than three percent of the utility's gross revenues for the preceding year. The limit of these deferrals, if any will be determined at the time of amortization.

VI. Conclusion

For the reasons stated above, PGE requests permission to continue to defer certain Direct Access Open Enrollment Costs or Benefits effective January 1, 2021 through December 31, 2021.

DATED: December 29, 2020.

Respectfully Submitted,

/s/ Jaki Ferchland
