Re: Docket UM 1464(4)

In the Matter of Idaho Power Company's Deferred Accounting of Net Variable Power Cost Variances – Idaho Power Company's Application

Dear Filing Center:

Enclosed for filing in Docket UM 1464(4) are an original and five (5) copies of Idaho Power Company's Application for Deferred Accounting of Net Variable Power Cost Variances. Confidential Attachment B is being provided confidentially pursuant to OAR 860-001-0070 and Protective Order No. 12-499 previously issued in this docket.

The Application has been served on the parties to the UE 233 and UM 1464 service lists as indicated in the Certificate of Service.

If you have any questions, please do not hesitate to contact the undersigned.

Sincerely,

Elizabeth Paynter

In the Matter of Idaho Power Company's
Application for Deferred Accounting of Net
Variable Power Cost Variances

APPLICATION

I. INTRODUCTION

Pursuant to ORS 757.210, ORS 757.259, and OAR 860-027-0300, Idaho Power Company ("Idaho Power") hereby requests an accounting order reauthorizing Idaho Power to defer for later ratemaking treatment annual net variable power cost variances pursuant to Order No. 08-238 and Idaho Power Tariff Schedule 56. Schedule 56 is an "automatic adjustment clause" as defined in ORS 757.210. Idaho Power seeks authorization for this deferral effective as of January 1, 2014. In support of this Application, Idaho Power states:

1. Idaho Power is a public utility in the state of Oregon and its rates, services, and accounting practices are subject to the regulation of the Public Utility Commission of Oregon ("Commission").

2. This Application is filed pursuant to ORS 757.259, which allows the Commission, upon application, to authorize the deferral of certain items for later inclusion in rates.

3. Communications regarding this Application should be address to:

II. OAR 860-027-0300(3) REQUIREMENTS

A. Description

With this deferral application, Idaho Power seeks authorization from the Commission to accrue, for future amortization, the difference between actual annual net variable power costs and the annual net variable power costs forecasted pursuant to Tariff Schedule 55, in accordance with Order No. 08-238. The annual variance will be determined pursuant to the terms of Schedule 56, which includes a Power Supply Expense Deadband and an Earnings Test.

B. Reasons for Deferral

In Order No. 08-238, the Commission ordered the adoption of a power cost adjustment mechanism for Idaho Power that contains both an Annual Power Cost Update (“APCU”) and Power Cost Adjustment Mechanism (“PCAM”). Idaho Power Schedule 55 contains the terms of the APCU while Schedule 56 contains the terms of the PCAM. The PCAM provides for recognition in rates of the difference, for a given year, between the *actual* annual net variable power costs incurred by Idaho Power and the net annual variable power costs recovered pursuant to Idaho Power Schedule 55. This deferral is intended to capture the net annual variable power cost difference that will be amortized in rates.

This deferral is filed pursuant to Order No. 08-238 and ORS 757.259(2)(e). This deferral will minimize the frequency of rate changes or the fluctuation of rate levels and match appropriately the costs borne by and benefits received by customers.

C. Proposed Accounting

Idaho Power records revenues and expenses that would be subject to the deferral order in accordance with the Code of Federal Regulations (CFR) to FERC Account 501 (Fuel), FERC Account 547 (Fuel), FERC Account 447 (Sales for Resale), and FERC 555 (Purchased Power). Upon receiving approval of a deferral, Idaho Power proposes to

1 record the Deferred Amount by debiting FERC Account 182.3 (Regulatory Assets);
2 crediting FERC Account 557 (Other Expenses) if there is an amount to collect from
3 customers. If there is a refund to customers, Idaho Power would record the Accrued
4 Amount in FERC Account 254 (Regulatory Liabilities); debiting FERC Account 557 (Other
5 Expenses).

6 **D. Estimate of Amounts**

7 The Deferred Amount is a function of several unknown and unpredictable factors
8 including customer usage, the wholesale market price for electricity, and the wholesale
9 market price for natural gas. Because the Deferred Amount is dependent on factors that
10 cannot be precisely forecast, Idaho Power cannot provide a precise estimate of the
11 Deferred Amount. Idaho Power requests that, in accordance with Order No. 05-1070, it be
12 allowed to accrue interest on the unamortized balance at a rate equal to its authorized
13 weighted average cost of capital most recently approved by the Commission.

14 **E. Notice**

15 A copy of the Notice of Application for Deferred Accounting of Excess Power Costs
16 and a list of persons served with the Notice are attached to the Application as Attachment
17 A.

18 **III. OAR 860-027-0300(4) REQUIREMENTS**

19 **A. Entries in the Deferred Account to Date**

20 Attached to the Application as Attachment B is a description and explanation of the
21 entries in this deferred account as of the date of the Application. The attachment includes
22 unreported financial information and is confidential pursuant to OAR 860-001-0070 and
23 Protective Order No. 12-499 previously issued in this docket.

In the Matter of Idaho Power Company's
Application for Deferred Accounting of Net
Variable Power Cost Variances

**NOTICE OF APPLICATION FOR
DEFERRED ACCOUNTING OF NET
VARIABLE POWER COST VARIANCES**

On December 20, 2013, Idaho Power Company ("Idaho Power") filed an application with the Public Utility Commission of Oregon ("Commission") for an Order authorizing deferral of the annual net variable power cost variance pursuant to Order No. 08-238 and Idaho Power Tariff Schedule 56.

Approval of Idaho Power's Application will not authorize a change in Idaho Power's rates, but will permit the Commission to consider allowing such deferred amounts in rates in a subsequent proceeding.

Idaho Power's Application will be posted on the Commission website for persons who wish to obtain a copy or they may contact the following:

Lisa D. Nordstrom
Idaho Power Company
1221 West Idaho Street
P.O. Box 70
Boise, Idaho 83707
lnordstrom@idahopower.com

Any person who wishes to submit written comments to the Commission on Idaho Power's Application must do so by no later than January 17, 2014.

DATED this 20th day of December 2013.
