Enclosure

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 1514

In the Matter of

PORTLAND GENERAL ELECTRIC
COMPANY

Application for Authorization to Defer the
Costs Associated with Automated Demand
Response Pilots

**SUPPLEMENT TO DEFERRAL
APPLICATION DATED
SEPTEMBER 21, 2017**

Pursuant to ORS 757.259 and OAR 860-027-0300, Portland General Electric Company (PGE) hereby supplements its request for authorization to defer the costs associated with the Automated Demand Response (Energy Partner) pilots most recently approved by Public Utility Commission of Oregon (Commission or OPUC) Order No. 20-479.

I. Deferral Status

On September 21, 2017, PGE filed a request to defer costs associated with the Energy Partner pilots: Non-Residential Direct Load Control Pilot (PGE Schedule 25) and Non-Residential Demand Response Pilot (PGE Schedule 26). The application also established an evaluation schedule for both pilots. The deferral was approved by Commission Order No. 17-429 and subsequent reauthorizations were approved by Commission Order Nos. 19-151, 20-259 and 20-479. Those orders also authorized PGE's evaluation schedules, which were designed to evaluate both pilots together.

In a recent conversation with OPUC Staff on June 1, 2021, parties agreed that an independent program evaluation is a requirement for PGE to transition Schedule 26 from pilot to program. Separate evaluation reports are necessary for Schedule 25 and Schedule 26 to clearly

delineate factors informing OPUC oversight of Schedule 25 design modification and its consideration of Schedule 26 program readiness. Because authorized conditions related to the deferral have changed, PGE proposes to modify the following aspects of its recent UM 1514 application.

Initial Proposals to Modify:

- PGE proposed that the final evaluation be submitted in Q2 of 2021; and
- PGE proposed the final evaluation would be a combined evaluation of both pilots.

Proposed Modifications:

- PGE proposes to extend the evaluation submission to Q3 of 2021; and
- PGE proposes to separate the final evaluation into two separate evaluations to have a comprehensive report for each pilot, individually.

II. Conclusion

For the above-noted modifications, PGE requests that the Commission issue an order granting its request to extend the evaluation of Energy Partner Pilots as well as allow separate evaluations for each pilot.

DATED this June 11, 2021.

Respectfully Submitted,

/s/ Jaki Ferchland
