BEFORE THE OREGON PUBLIC UTILITY COMMISSION

IN THE MATTER OF THE APPLICATION OF) APPLICATION FOR
CASCADE NATURAL GAS CORPORATION) REAUTHORIZATION OF
FOR AN ORDER REAUTHORIZING) DEFERRAL ACCOUNTING
DEFERRAL OF CERTAIN COSTS RELATED)
TO THE COMPANY'S CONSERVATION)
ALLIANCE PLAN (CAP))
(OAR 860-27-0300(4))

Cascade Natural Gas Corporation (herein "Cascade") pursuant to ORS 757.259, OAR 860-27-300(4), and in compliance with Order No. 13-079, applies to the Oregon Public Utility Commission ("Commission") for an order reauthorizing it to utilize deferral accounting for the 12-months beginning January 1, 2014. The Company's last reauthorization, was approved in the Commission's Order No. 13-171.

Specifically, in this Application, Cascade requests reauthorization to defer:

1. Amounts associated with changes in margin due to conservation and variances from normal weather, consistent with the procedures outlined in the Company's Conservation Alliance Plan (CAP) Schedule No. 30 that was approved by the Commission's Order No. 13-079 (UG 224).

Item 1 – Conservation and Weather Variance Accounts

Cascade requests reauthorization to continue deferring margin differences associated with changes in margin due to conservation and variances from normal weather, consistent with the procedures outlined in the Company's Conservation Alliance Plan (CAP) Schedule No. 30 that was originally approved by the Commission's Order No. 06-191 and which was originally scheduled to expire on September 30, 2010. In Order No. 07-221, the Commission extended the term of the decoupling mechanism to September 30, 2012, as part of the Commission's approval of Cascade's purchase by MDU Resources Group, Inc. The Commission extended Cascade's decoupling mechanism through April 30, 2013, in Order No. 13-102. In Order No. 13-171, the Commission approved the supplemental application for reauthorization extending the CAP through December 31, 2013.

According to the provisions in Schedule 30, such margin differences are accumulated as regulatory assets or liabilities for distribution to or collection from customers annually at the time of the Company's PGA filing.

It is appropriate that deferral accounting be reauthorized for the same reasons that originally established the CAP mechanism in Order 06-191. Deferral minimizes both the frequency of rate changes and the fluctuation of rate levels pursuant to subsection (2) (e) of ORS 757.259. In the absence of the Commission's approval of this Application, the company would record under- or over-collected margins as utility operating revenue in FERC Account 480.

Item 3 – Notification

The copy of this Application for an order reauthorizing these accounts was sent to all parties and interested persons that participated in Docket UG 224.

The estimated or projected deferrals are difficult to measure due to weather volatility.

WHEREFORE, Cascade respectfully requests that the Conservation and Weather Variance Accounts deferral accounts referred to above be appropriately reauthorized.

DATED this 31th day of October, 2013.

Respectfully submitted,

CASCADE NATURAL GAS CORPORATION
