Application for Reauthorization of Deferred Accounting Related to a Change in Annual Regulatory Fees Payable to the Public Utility Commission of Oregon.

APPLICATION FOR REAUTHORIZATION OF DEFERRED ACCOUNTING

I. INTRODUCTION

In accordance with Oregon Revised Statutes (ORS) 757.259(2)(e) and Oregon Administrative Rules (OAR) 860-027-0300, PacifiCorp d/b/a Pacific Power (PacifiCorp or the Company) applies to the Public Utility Commission of Oregon (Commission) for an order reauthorizing deferral of the increase in the annual regulatory fee due to the Commission-ordered increase in the annual fee rate to 0.35 percent. For administrative ease, PacifiCorp also requests to amortize the deferred amounts through its existing property sales balancing account.

PacifiCorp requests to defer costs associated with the increase in the annual fee rate until the increase in the annual fee rate is included in the Company's base rates.¹

III. BACKGROUND

In accordance with OAR 860-021-0033, electric utilities are required to pay regulatory fees to the Commission each year by April 1. The fee payable by the electric utility is an annual fee rate multiplied by the utility's gross operating revenues derived within Oregon for the previous calendar year. The annual fee rate is set by Commission order entered on or around March 1 of each year.

PacifiCorp initially applied for deferral of the change in annual fee rate level from the previous 0.25 percent maximum rate on March 11, 2016, docketed as UM 1764. In that docket, PacifiCorp requested the use of deferred accounting for the costs related to the change in annual fee rate from the previous 0.25 percent maximum rate² and the annual fee rate established for 2016 of 0.275 percent in Order No. 16-067. The Commission authorized Staff's recommendation and approved the deferral for the 12-month period beginning March 11, 2016, in Order No. 16-153. Staff's recommendation supported PacifiCorp's decision to amortize the deferred amounts through its existing property sales balancing account and also recommended that deferred amounts not be subject to an earnings test.

UM 1764(4)—PacifiCorp's Application for Deferred Accounting

2

² This 0.25 percent fee level is also the annual fee rate currently reflected in the Company's Oregon rates.

On February 22, 2017, the Commission issued Order No. 17-065, setting the annual fee rate at 0.30 percent of 2016 gross operating revenues for electric, natural gas, water, and wastewater utilities, an increase from prior annual fee rates that previously could not exceed 0.25 percent.³ On March 10, 2017, PacifiCorp filed a request for reauthorization to defer the costs related to the increase in annual fee rate for the 12-month period beginning March 11, 2017. Staff's recommendation supported PacifiCorp's proposal to amortize the deferred amounts through its existing property sales balancing account and also recommended that deferred amounts not be subject to an earnings test. The Commission approved the Company's reauthorization and Staff's recommendation in Order No. 17-149, issued on April 18, 2017.

On February 27, 2018, the Commission issued Order No. 18-073, setting the annual fee rate at 0.30 percent of 2017 gross operating revenues, again an increase from prior annual fee rates that previously could not exceed 0.25 percent. On March 9, 2018, PacifiCorp filed a request for reauthorization to defer the costs related to the increase in annual fee rate for the 12-month period beginning March 11, 2018. Staff's recommendation supported PacifiCorp's proposal to amortize the deferred amounts through its existing property sales balancing account and also recommended that deferred amounts not be subject to an earnings test. The Commission approved the Company's reauthorization and Staff's recommendation in Order No. 18-123, issued April 10, 2018.

On February 26, 2019, the Commission issued Order No. 19-060, setting the annual fee rate at 0.30 percent of 2018 gross operating revenues, again an increase from prior annual fee rates that previously could not exceed 0.25 percent. On March 8, 2019, PacifiCorp filed a

request for reauthorization to defer the costs related to the increase in annual fee rate for the 12-month period beginning March 11, 2019. Staff's recommendation supported PacifiCorp's proposal to amortize the deferred amounts through its existing property sales balancing account and also recommend that deferred amounts not be subject to an earnings test. The Commission approved the Company's reauthorization and Staff's recommendation in Order No. 19-117, issued April 11, 2019.

On February 26, 2020, the Commission issued Order No. 20-054, setting the annual fee rate at 0.35 percent of 2019 gross operating revenues, again an increase from prior annual fee rates that previously could not exceed 0.25 percent. PacifiCorp respectfully requests reauthorization to defer the costs related to the increase in annual fee rate for the 12-month period beginning March 11, 2020.

IV. DEFERRAL OF COSTS

PacifiCorp respectfully requests reauthorization under ORS 757.259(2)(e) to defer the costs related to the increase in the annual fee rate and to amortize these costs through PacifiCorp's tariff Schedule 96, Property Sales Balancing Account.⁴ Further, because the collection and payment of the annual fee is a direct pass-through to the Commission, PacifiCorp proposes that this deferral not be subject to an earnings test.

As required by OAR 860-027-0300(3) and (4), PacifiCorp provides the following:

A. Description of Utility Expense

PacifiCorp is requesting to defer approximately \$1,378,571 in 2020 associated with the increase in the regulatory fee rate for 2019, calculated as shown in the following table.

UM 1764(4)—PacifiCorp's Application for Deferred Accounting

⁴ The Company's property sales balancing account is evaluated and reported annually to the Commission. Any rate changes necessary to the property sales balancing account will be requested and determined in a subsequent filing.

This amount reflects the calculated difference between PacifiCorp's annual fee at the new rate of 0.35 percent and the annual fee of 0.25 percent included in the Company's Oregon rates.

	Current Rate per	Previous Rate per	Estimated for
	Order No. 20-054	Order No. 15-057	deferral
2019 Revenues*	\$1,378,571,429	\$1,378,571,429	
Annual Fee Rate	0.35%	0.25%	
Annual Regulatory Fee*	\$4,825,000	\$3,446,429	\$1,378,571

^{* 2019} revenues are preliminary estimates; PacifiCorp has not yet released its final 2019 results.

B. Reasons for Deferral

As discussed above, PacifiCorp requests reauthorization to defer the costs associated with the increase in the annual regulatory fee rate that is higher than the previous statutory-maximum rate. ORS 757.259(2)(e) allows the deferral of identifiable utility expenses in order to minimize the frequency of rate changes or the fluctuation of rate levels or to match appropriately the costs borne and received by customers. In this application PacifiCorp seeks to match the costs borne and benefits received by customers. The concurrent proposal to amortize deferred amounts through the existing property sales balancing account also provides for administrative efficiency by minimizing the rate changes required to address the change in annual fees.

C. Proposed Accounting

If this application is approved, PacifiCorp will record deferred amounts by crediting Commission fees recorded in FERC Account 928—Regulatory Commission Expenses and debiting the property sales balancing account, in FERC Account 254—Other Regulatory Liabilities. If this application is denied, the increase in regulatory fees will remain in Regulatory Commission Expenses, FERC Account 928.

D. Estimate of Amounts

The Company estimates that the Oregon cost related to the increase in the annual fee rate is \$1,378,571 for the 2019 annual fee that will be paid on or before April 1, 2020.

E. Notice

A copy of the Notice of Application is included as Exhibit A. This notice will be served to the service list in docket UM 1764.

F. Description and Explanation of Entries in the Deferred Account to Date

Exhibit B provides the current history of PacifiCorp's Oregon property sales balancing account.

G. Reasons for Continuation of Deferred Accounting

Reauthorization of deferred accounting will allow PacifiCorp to continue to match the costs borne and benefits received by customers. The concurrent proposal to amortize deferred amounts through the existing property sales balancing account also provides for administrative efficiency by minimizing the rate changes required to address the change in annual fees.

V. CONCLUSION

PacifiCorp respectfully requests that, in accordance with ORS 757.259(2)(e), the Commission authorize the Company to defer the costs described in this application, and to amortize these costs through tariff Schedule 96, Property Sales Balancing Account.

Respectfully submitted this 10th day of March, 2020.
