In the Matter of

PACIFICORP d/b/a PACIFIC POWER

Application for Approval of Deferred Accounting for Costs Related to the Oregon Community Solar Program. APPLICATION FOR REAUTHORIZATION FOR DEFERRED ACCOUNTING

I. INTRODUCTION

In accordance with ORS 757.259(2)(e) and OAR 860-027-0300, PacifiCorp d/b/a
Pacific Power (PacifiCorp or Company) applies to the Public Utility Commission of Oregon
(Commission) for an order reauthorizing deferral of start-up costs related to the Oregon
Community Solar Program (CSP). PacifiCorp respectfully requests reauthorization for
12 months beginning September 29, 2023 (Deferral Period).

II. CONTACT INFORMATION

Communications regarding this application should be addressed to:

Portland, OR 97232

Informal questions may be directed to Jennifer Angell, Regulatory Project Manager, at (503) 331-4414.

III. BACKGROUND

On November 27, 2018, PacifiCorp filed an application for approval to defer accounting costs related to the CSP, docket UM 1981. The Commission approved the application in Order No. 18-478. PacifiCorp has filed for annual reauthorizations since Order No. 18-478, which have been approved by the Commission. ²

IV. OAR 860-027-0300(3) AND (4) REQUIREMENTS

PacifiCorp respectfully requests reauthorization under ORS 757.259(2)(e) to establish and maintain a balancing account to record costs related to the CSP, along with related interest at the Modified Blended Treasury Rate, consistent with the treatment of interest rates described in Order No. 08-263 as modified by Order No. 10-279, for the Deferral Period.

As required by OAR 860-027-0300(3) and OAR 860-027-0300(4), PacifiCorp provides the following:

A. Description of Utility Expense

PacifiCorp seeks reauthorization to defer, for future amortization, the start-up costs of Community Solar. OAR 860-088-0160(1) defines start-up costs as:

¹ In the Matter of PACIFICORP, dba PACIFIC POWER, Application for Approval to Defer Accounting Costs Related to the Oregon Community Solar Program, Order No. 18-478 (Dec. 19, 2018).

² See, Order No. 20-057, to defer costs related to the CSP for the 12 months beginning November 28, 2019; Order No. 21-048, to defer costs related to the CSP for the 12 months beginning November 28, 2020; and Order No. 21-418, defer costs related to the CSP for the 12 months beginning September 29, 2021; and Order No. 22-467, to defer costs related to the CSP for the 12 months beginning September 29, 2022.

- Costs associated with the Program Administrator³ and Low-Income Facilitator;⁴
 and
- 2) Each electric utility's prudently incurred start-up costs associated with implementing the Community Solar Program. These costs include, but are not limited to, costs associated with customer account information transfer and on-bill crediting and payment, but exclude any costs associated with the electric utility developing a Community Solar Program solar project.

PacifiCorp anticipates its start-up costs consisting of:

- Capital costs consisting of billing system upgrade costs that were not otherwise captured in PacifiCorp's general rate case;
- Internal administration costs which include internal program
 management, billing system operating costs, training and support for
 customer support representatives, and customer outreach costs;
- External administration costs which include funding of the Program
 Administrator and Low-Income Facilitator; and
- 4) **Incremental subscribed energy costs,** which represent the difference in energy costs between the bill credit rate and cost of energy PacifiCorp would otherwise purchase.⁵

³ The Program Administrator is a third-party directed by the Commission to administer the CSP.

⁴ The Low-Income Facilitator's responsibilities are provided in OAR 860-088-0030.

⁵ These costs were calculated in accordance with joint-utility methodology approved by Commission. *In the Matter of PUBLIC UTILITY COMMISSION OF OREGON, Investigation of Joint Utility Method for Calculating the Incremental Cost of Subscribed Energy In Community Solar Program, Docket No. UM 2247, Order No. 22-310 (Aug. 26, 2022).*

B. Reasons for Deferral

ORS 757.259(2)(e) allows the deferral of identifiable utility expenses in order to minimize the frequency of rate changes or the fluctuation of rate levels or to match appropriately the costs borne and benefits received by customers. ORS 757.386(7)(c) and OAR 860-088-0160(1) permit utilities to recover all start-up costs prudently incurred during the development or modification of Community Solar in electric company rates. In this application PacifiCorp seeks the use of a balancing account to match the costs borne and benefits received by customers.

C. Proposed Accounting

If this application is approved, PacifiCorp will record deferred Community Solar start-up costs by crediting Federal Energy Regulatory Commission (FERC) account 906, Customer Service and Informational Expenses, and other relevant FERC expense accounts, and debiting the Community Solar Start-Up Costs balancing account, in FERC Account 182.3, Other Regulatory Assets. The deferral balance will be reduced monthly by the amount collected under Schedule 207, Community Solar Star-Up Cost Recovery Adjustment. A carrying charge calculated at the current Modified Blended Treasury rate will be recorded each month on the deferral balance. If this application is denied, Community Solar start-up costs will remain in FERC account 906 and other relevant FERC expense accounts.

D. Estimate of Amounts

PacifiCorp estimates that its internal administration costs for Community Solar startup will be \$150,000 for the Deferral Period and does not anticipate any billing system upgrade (capital) costs during the Deferral Period. PacifiCorp estimates Program Administration team costs to be \$1,080,000 in over the Deferral Period based on its share (39.5 percent) of the State of Oregon's contract with Energy Solutions, the Program Administrator.⁶ Some portion of these costs will be paid by Community Solar Participants and Project Managers once community solar projects come online and begin billing, but the timing and magnitude of that contribution is uncertain at this time. PacifiCorp estimates the incremental subscribed energy costs for the Deferral Period to be \$403,209, which includes six operational CSP projects, representing approximately 2.5 megawatts of capacity, and an additional 16 pending projects with projected Commercial Operation Dates (CODs) that fall within the Deferral Period. It is important to note that CSP projects may experience delays which could change the projected CODs. As a result, the actual incremental subscribed energy cost for the Deferral Period could vary significantly depending on the actual CODs for the projects.

Expected Community Solar Start-Up Costs (\$000s)

	Deferral
	Period
PacifiCorp Administration Costs	\$150
Billing IT Costs (Capital)	\$0
Program Administration Team	\$1080
Incremental Subscribed Energy	\$403
Costs	

E. Notice

A Notice of PacifiCorp's Application for Approval of Deferred Accounting for Costs Related to the Oregon Community Solar Program is included as Exhibit A. This notice will be served to the service list in docket UE 399.

UM 1981(5)—Application for Reauthorization for Deferred Accounting

⁶ Community Solar Start-Up Cost Recovery and Remittance of Funds to the Program Administrator, Order No. 19-122, Appendix A at 4 (April 11, 2019).

F. Description and Explanation of Entries in the Deferred Account to Date

At this time, the balance in the balancing account is approximately \$2,887,831. Exhibit B provides the entries in the deferred account to date. The amounts recorded include the expenses for the program and the revenue received through Schedule 207.

V. CONCLUSION

PacifiCorp respectfully requests that the Commission authorize the Company to continue deferring the Community Solar start-up costs, related amortization and interest beginning September 29, 2023.

Respectfully submitted this 29th day of September, 2023.
