Amended Application for Approval of Deferred Accounting for Lost Revenue Associated with Special Contracts

APPLICATION FOR
REAUTHORIZATION FOR
DEFFERRED ACCOUNTING

I. INTRODUCTION

In accordance with Oregon Revised Statutes (ORS) 757.259(2)(e), ORS 752.072(4), and Oregon Administrative Rule (OAR) 860-027-0300(4), Cascade Natural Gas Corporation (Cascade or Company) files this application (Application) with the Public Utility Commission of Oregon (Commission) for an order reauthorizing the Company to record and defer with interest the lost revenue associated with special contracts with PacifiCorp and Hermiston Generating Company, L.P. The authorization timeframe would be the 12-month period beginning August 1, 2023.

IV. APPLICATION FOR AUTHORIZATION TO DEFER

In compliance with the requirements established in OAR 860-027-0300(4) Cascade submits the following:

A. Description of Utility Expense or Revenue [OAR 860-027-0300(3)(a)]

Cascade requests authorization to defer the lost revenue associated with the special contracts between the Company and PacifiCorp and Hermiston Generating L.P.

B. Reasons for Deferral [OAR 1 860-027-0300(3)(b)]

Pursuant to 757.259(2)(e), Cascade seeks deferred accounting treatment of revenues associated with the special contracts. The ability to defer costs and revenues associated with the special contracts will minimize the frequency of rate changes and match appropriately the costs borne by and benefits received by customers. Approving the Application will not authorize a change in rates but will permit the Commission to consider allowing the deferred amounts in rates in a subsequent proceeding.

C. Proposed Accounting [OAR 860-027-0300(3)(c)]

The proposed accounting treatment for the lost revenues is to track them in a separate schedule but not record them on the Company's financial statements. Unlike costs approved for deferral under an accounting order that may be recorded as a regulatory asset until determination is made in a future rate proceeding, generally accepted accounting principles do not allow for a regulated utility to record revenue approved for deferral until that revenue is approved for rate recovery, except in certain limited circumstances. Specifically, revenue approved for deferral that does not meet the definition of an "alternative revenue program" under Accounting Standards Codification 980-605-25 and may not be recorded on a regulated utility's financial statement until a rate order for recovery is approved.

D. Estimate of Amounts [OAR 860-027-0300(3)(d)]

The estimated revenue reduction will be approximately \$595,000 per year based on the twelve months ended October 2022.

E. Notice [OAR 860-27-0300(3)(e)]

A copy of the Notice of Application and a list of persons served with the notice are attached as Appendix A to this application.

F. A description and explanation of the entries in the deferred account to the date of the application for reauthorization [OAR 860-027-0300(4)(a)]

Please see the workpaper attached as "UM-2191-CNGC-Pet-Acct-WP-08-01-23.xlsx" for a summary of the costs deferred since November 1, 2021, per the original request. Please note that Cascade neglected to file for reauthorization at the conclusion of the original request and is showing zero for the months of November 2022 through July 2023.

G. The Reason for Continuation of Deferred Accounting [OAR 860-027-0300(4)(b)]

The Company requests the reauthorization for use of deferred accounting for a second time frame (August 1, 2023, through July 31, 2024) because the lost revenues are continuing in nature. Respectfully submitted this 1^{st} day of August 2023.

Sincerely,

/s/ Mike Parvinen
