Re: Docket No. UE 316
Recovery of Costs Associated with North Valmy Power Plant – **Corrected**
Page 9 of the Application

Attention Filing Center

Attached is an electronic copy of **corrected** page 9 to the Application filed in the above matter on November 2, 2016. The Application contains an error on page 9 lines 2 through 3, in the reference to the method under which Idaho Power will recover the incremental revenue requirement. The Application should have mirrored the language in Idaho Power/100, page 12, lines 24-26, indicating the Company is proposing to recover the incremental revenue requirement through Idaho Power's Schedule 92, Coal Plant Operating Life Adjustment. The change has no impact on the revenue requirement computation or the attachments prepared representing the bill impact to customers.

Idaho Power is filing the enclosed **corrected** page 9 in order to correct the error and regrets any confusion this may cause. A redlined copy of page 9 is also attached for reference and the Commission's convenience. If you have any questions regarding the corrected page or this matter, please do not hesitate to contact me.

Very truly yours,

Lisa F. Rackner

ERRATA PAGE 9 – REDLINED VERSION

**IN THE MATTER OF THE APPLICATION OF IDAHO POWER
COMPANY FOR AUTHORITY TO INCREASE ITS RATES FOR
ELECTRIC SERVICE TO RECOVER COSTS ASSOCIATED
WITH THE NORTH VALMY POWER PLANT**

1 Company requests that the incremental revenue requirement of approximately \$1.06 million
2 be recovered from all customer classes through the Company's proposed revised
3 Schedule 92, Coal Plant Operating Adjustment ~~uniform percentage increase to all base~~
4 ~~rate components except the service charge~~. The proposed change equates to an overall
5 increase of 1.91 percent (see Attachment No. 1).

6 Attachment No. 2 to this Application shows a comparison of revenues from the various
7 tariff customers under Idaho Power's existing rates to the corresponding new revenue levels
8 resulting from the proposed Valmy ratemaking treatment and the updated depreciation study,
9 filed concurrently in Docket No. UM 1801.

10 **VII. COAL PLANT OPERATING LIFE ADJUSTMENT TARIFF**

11 Idaho Power is seeking authority to revise Schedule 92, Boardman Operating Life
12 Adjustment, to incorporate the revenue requirement impacts associated with the 2025 end-of-
13 life of Valmy that are captured in the balancing account. Because Schedule 92 will reflect the
14 revenue requirement impacts of both the Valmy and Boardman end-of-life changes, the
15 Company is proposing to change the name of Schedule 92 to Coal Plant Operating Life
16 Adjustment. A copy of the proposed revisions to Schedule 92 is included as Attachment No. 3.

17 **VIII. COMMUNICATIONS AND SERVICE OF PLEADINGS**

18 Idaho Power wishes to waive paper service in this docket. Communications and
19 service of pleadings with reference to this Application should be sent to the following:
