STAFF RECOMMENDATION:

Staff recommends that the Public Utility Commission of Oregon (Commission) approve Portland General Electric's (PGE or Company) Advice No. 22-25, which updates Schedule 134 to adjust the Gresham Retroactive Privilege Tax Payment Adjustment rate to zero, effective for service rendered on and after January 1, 2023.

DISCUSSION:

Issue

Whether the Commission should approve PGE's Advice No. 22-25, which updates Schedule 134, making the adjustment rate zero for approximately 48,500 City of Gresham customers since the balance is projected to be fully collected at the end of 2022.

Filings that propose any change in rates, tolls, charges, rules, or regulations must be filed with the Commission at least 30 days before the effective date

Analysis

Background

PGE initially filed Schedule 134 in Advice No. 17-05 on February 24, 2017, in UE 324. The purpose of the filing was to recover from ratepayers approximately \$7 million in privilege taxes it was required to pay the City of Gresham following an Oregon Supreme Court decision in 2016. The Commission decided there were no legal issues precluding PGE's recovery of the amounts in Order No. 17-482.

Schedule 134 ultimately became effective on February 1, 2018. Order No. 18-023.

On October 26, 2022, PGE filed Advice No. 22-25 updating Schedule 134, Gresham Retroactive Privilege Tax Payment adjustment charge to zero, effective January 1, 2023. The Company included work papers that show PGE will have fully collected from ratepayers the amount of privilege tax paid to the City of Gresham after the Oregon Supreme Court decision in 2016 by the end of 2022. PGE subsequently revised its work papers to correct a minor error in the calculation of interest identified by Staff.

Staff Analysis

Staff has reviewed the Company's filing and associated workpapers, including the supplemental filing on November 17. Staff finds that the proposed revision to Schedule 134 impacts approximately 48,500 City of Gresham Customers. A typical Schedule 7 Residential customer in the City of Gresham consuming 780 kWh monthly will see an overall bill decrease of \$.023, or 0.2 percent. Other than the oversight in the initial filing, Staff found no errors in the calculations for the balancing account, revenue requirement, rate design workpapers, or proposed tariff sheets.

Conclusion

Staff finds that PGE's Advice No. 22-25 filing and associated workpapers comply with the terms of the stipulation adopted in Commission Order No. 18-023. Staff recommends that the Commission approve the Company's Advice No. 22-25, which updates Schedule 134 by adjusting the rate to zero.
