

PUBLIC UTILITY COMMISSION OF OREGON
STAFF REPORT
PUBLIC MEETING DATE: April 23, 2019

REGULAR CONSENT EFFECTIVE DATE _____ N/A

DATE: April 15, 2019

TO: Public Utility Commission

FROM: Malia Brock MB

THROUGH: Jason Eisdorfer, Bryan Conway, and Bruce Hellebuyck EJM BJC

SUBJECT: TELEPORT COMMUNICATIONS AMERICA, LLC.:
(Docket No. UM 2006) Petition for exemption of service quality reporting requirements under OAR 860-032-0012(15)(c).

STAFF RECOMMENDATION:

The Public Utility Commission of Oregon (Commission) should approve the petition filed by Teleport Communications America, LLC (Teleport or Company) but expressly reserve the authority to withdraw the exemption for cause as explained in this Staff report.

DISCUSSION:

Issue

Whether the Commission should approve Teleport's petition for exemption from service quality reporting requirements.

Applicable Law

The Commission establishes minimum service quality standards to ensure safe and adequate services for telecommunications carriers pursuant to Oregon Revised Statute (ORS) 759.450. Oregon Administrative Rule (OAR) 860-032-0012 provides the statutorily required retail service quality standards for competitive telecommunications providers and also mirrors much of the relevant statute ORS 759.450.

Under OAR 860-032-0012(15)(c) the Commission may grant an exemption from service quality reporting requirements if the competitive telecommunications provider meets all

service quality objective service levels set forth in the rule for the 12 months prior to the month in which the petition is filed.

Analysis

On March 29, 2019, Teleport filed a petition pursuant to Oregon Administrative Rule (OAR) 860-032-0012(15)(c) requesting exemption from the rule's monthly Service Quality Reporting requirements. Teleport is certified as a Competitive Telecommunications Provider in the state of Oregon.

Teleport has met all service quality objective service levels as set forth in sections (4) through (8) of OAR 860-032-0012 for the 12 consecutive months ending in February 2019. See Attachment A for Staff's cumulative yearly report of Teleport's metrics that is posted to the OPUC website.

Staff has reviewed the Consumer Services Division archives of complaints relating to Teleport and found no complaints within the study period. Further, the Company advises that Teleport provides service only to business customers in Oregon and that those customers already have service level agreements with Teleport that provide measures to address service quality problems. Therefore, Staff does not oppose the petition.

Staff notes that granting an exemption request under the rule does not vacate Teleport's continuing obligation to measure service quality metrics, gather information and retain a complete record of service quality data for up to one year as outlined in OAR 860-032-0012.

Conclusion

Teleport's request, if granted, would only exempt Teleport from submitting Service Quality Reports to the Commission on a monthly basis. Any exemption from Service Quality Reporting may be withdrawn for cause, such as a showing by Staff that service has degraded, primarily by a resumption of service complaints.

PROPOSED COMMISSION MOTION:

Approve Teleport's request for an exemption from service quality reporting requirements, conditioned upon the Commission's continuing authority to withdraw the exemption for cause.
