

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 2059

In the Matter of

PACIFICORP, dba PACIFIC POWER,
Application for Approval of 2020 All-
Source Request for Proposal.

**NOTICE OF SPECIAL PUBLIC
MEETING AND AGENDA**

On April 16, 2020, Commission Staff filed a partial schedule in this proceeding that includes a Commission Special Public Meeting on Thursday, July 2, 2020, to consider approval or disapproval of a final draft Request for Proposal (RFP). This notice contains the call-in information for the teleconference due to the ongoing COVID-19 conditions, and an agenda for our discussion.

DATE: July 2, 2020

TIME: 9:30 a.m.

TELECONFERENCE: Call 866-390-1828 then enter the passcode 2252868#

MEETING TYPE: Public Hearing and Commission Work Session

PARTICIPATION: To help us organize the teleconference, we request that individuals email puc.publicmeetings@state.or.us by noon on July 1 if they plan to participate in this meeting, also include their name, organization, number of commenters, phone number(s) if available, and the topic of any comments.

AGENDA:

1. PacifiCorp is asked to make introductory remarks on its draft RFP, with an overview of how it has complied with OAR 860-089-0250, our rule on Design of Requests for Proposals.
2. The Independent Evaluator (IE) is asked to summarize the remaining disputed terms or issues with the RFP. Staff and parties will be asked to explain the remaining conditions

they seek to have included in our order on approval of the RFP, and PacifiCorp may provide responses.

3. Time permitting, we will engage PacifiCorp, Staff, and the IE in discussion of questions raised by the Commissioners, Staff, or others, including the following:
 - Transition Close Date of January 31, 2020 (also referred to as the cutoff date):
 - If a FERC order on rehearing changes the cutoff date, and the FERC order is issued after July 6, 2020, how would PacifiCorp modify the RFP?
 - If a FERC order on rehearing does not change the cutoff date, does PacifiCorp have a proposal for how it could consider bids from these projects in time for Commission review of the final shortlist?
 - Next Commission Review: PacifiCorp's RFP schedule shows the initial screening/ranking will be developed in September and the initial shortlist in October, just prior to the cluster study.
 - Please discuss what level of Commission and stakeholder engagement is contemplated during the initial screening/ranking process and the creation of the initial shortlist, including the potential timing of that engagement.
 - Please discuss whether such engagement will be paired with PacifiCorp's implementation of the Commission's directive in Order No. 20-186 for a September 2020 summary of the specific terms of sensitivities that will highlight futures having fewer off-system sales due to lower market prices.
 - Models and Scoring:
 - Please discuss the values or metrics that will be produced and analyzed with the initial screening/ranking versus the initial shortlist.
 - Can the initial screening/ranking include a view of the bids ranked by price and non-price score, in addition to the modeled results based on an hourly shape?
 - Please explain how the rankings may shift after applying the hourly shape.
 - Future Developments:
 - Please address how PacifiCorp will consider freed-up transmission from retiring coal plants. Will that transmission be addressed in another cluster study or another RFP?

If you have questions, please contact the Administrative Hearings Division by telephone (503-378-6678) or by e-mail (puc.hearings@state.or.us).

Dated this 26th day of June, 2020, at Salem, Oregon.

Megan W. Decker

Chair

Letha Tawney

Commissioner

Mark R. Thompson

Commissioner
