The hearing in this docket will take place on September 8, 2011, at 9:30 a.m. Based on the parties' cross-examination statements, the following witnesses should be made available for cross-examination at the hearing:

<b>Witness / Sponsor</b>	<b>Approx. Duration of Cross</b>	<b>Subject</b>

Donald Schoenbeck ICNU	1 hour, Pacific Power	Hedging

Numerous parties reserved the right to conduct additional cross-examination to follow up on testimony elicited at the hearing. The schedule may need to be adjusted to accommodate such questioning.

Today ICNU filed a motion to strike the August 31, 2011 testimony of Frank Graves (PPL/700). ICNU states that it attempted to contact Pacific Power about the motion but was unable to reach the company. Because the hearing is only two days away, ICNU's motion will be addressed at the beginning of the hearing. Pacific Power may file a response to ICNU's motion in writing, or it may choose to respond to the motion orally at the beginning of the hearing.

Dated at Salem, Oregon, this 6<sup>th</sup> day of September, 2011.
