and	)	
	)	
Application for Deferral of Costs and Benefits Due to Hydro Generation Variance. (UM 1187)	)	

**DISPOSITION: MOTION TO MODIFY PROCEDURAL SCHEDULE  
GRANTED; SCHEDULE MODIFIED**

On August 31, 2005, Staff of the Public Utility Commission of Oregon (Staff) filed an expedited motion seeking a modification to the post-hearing briefing schedule. Under the current schedule, opening briefs are due on September 2, 2005, and reply briefs are due on September 14, 2005. Staff requests that the due dates for both briefs be extended by one week, so that the opening briefs are due on September 9, 2005, and the reply briefs are due September 21, 2005. Staff explains that the delay is needed due to workload constraints, and adds that it has contacted all parties to these consolidated dockets, and no party objects to the request.

Staff's motion is granted. The schedule in these dockets is modified as follows:

Opening Briefs Due From All Parties	September 9, 2005
Reply Briefs Due From All Parties	September 21, 2005

Dated at Salem, Oregon, this 31st day of August, 2005.
