Investigation into the Treatment of CO2 Risk in)	
the Integrated Resource Planning (IRP) Process.)	

DISPOSITION: DATES SET FOR FILING GUIDELINE 8; COMMENTS

At the end of the formal Commission workshop held on January 3, 2008, I invited parties to meet among themselves to continue to seek consensus on the terms of a draft Guideline 8. If they are making further progress in that regard they may inform the Commission of their intent to submit a consensus version and propose a date for their filing. Otherwise, the Staff of the Public Utility Commission (Staff) is instructed to file its proposed final draft version of Guideline 8 on January 17, 2008. Interested parties may file comments on Staff's proposed Guideline 8 by January 31, 2008.

Dated at Salem, Oregon, this 4th day of January, 2008.

Patrick Power
Administrative Law Judge
