DISPOSITION: MOTION FOR RECONSIDERATION GRANTED

By motion filed May 20, 2008, Crooked River Ranch Water Company (Crooked River) moves for reconsideration and/or clarification of an earlier ruling denying the Company's motion for an extension of time to comply with two provisions of Order No. 08-243. In particular, Crooked River states that it is not able to file the required accounting within the time allowed. The Company also asks for clarification regarding the insufficiency of its accounting submitted on April 8, 2008.

Crooked River's request for more time to file the accounting is granted, with the understanding that the Company's noncompliance with Ordering Paragraph 5 of Order No. 07-527 continues until an adequate accounting is filed. Regarding the insufficiency of its earlier submission, the filing lacked specificity in explaining the nature of the reported expenditures and their consistency with the purpose of the special assessment surcharge as expressed in the Board resolution adopting the surcharge.

Crooked River shall file its accounting not later than June 3, 2008.

Dated at Salem, Oregon, this 29th day of May, 2008.
