

Notice of Special Public Meeting

November 23, 2021

Special Public Meeting on the Implementation of HB 2165 and HB 3141

Oregon Public Utility Commission (OPUC) opened two dockets from the 2021 legislative session related to implementation of the Transportation Electrification bill (HB 2165) and updating the Public Purpose Charge (HB 3141). Those dockets are:

- UM 2165 for HB 2165
- UM 2195 for HB 3141

Staff and stakeholders identified near-term activities necessary to begin implementation of both bills January 1, 2022. These activities involve developing interim definitions and processes to be used until a more comprehensive stakeholder engagement is conducted next year.

Since the end of the 2021 legislative session, Staff has been working on bill implementation to develop these interim definitions and processes through Docket No. UM 2165, and opening Docket No. UM 2195. The Special Public Meeting (SPM) on November 30, 2021, will be the culmination of Staff's activities on these definitions. At the SPM, Staff will present the interim definitions and processes to the Commissioners for discussion prior to their use beginning in January 2022.

Staff encourages stakeholder participation in this SPM. The Commissioners will invite public comment on the interim definitions and processes. Below is the participation information:
