Patrick Power Administrative Law Judge Public Utility Commission 550 Capitol Street NE, Suite 215 Salem, Oregon 97301

Re: In the Matter of Idaho Power Company 2010 Annual Power Cost Update, Docket No. UE 214

Dear Judge Power:

Please accept into the record in this docket the enclosed, amended exhibits -- Staff/OICIP/CUB/102 Revised, and Staff/OICIP/CUB/102A. Public Utility Commission of Oregon Staff ("Staff") produced these amended exhibits, and the Oregon Industrial Customers of Idaho Power ("OICIP") and the Citizens' Utility Board of Oregon ("CUB") have concurred in the accuracy of these exhibits. I am authorized by Staff and CUB to submit these exhibits for inclusion in the record for the reasons explained below.

The Joint Rate Spread Testimony called for amendment of the values in the original Staff/OICIP/CUB/102, to incorporate information and data unavailable on the February 16 filing date of that original exhibit. On page 2, lines 10 and 11 of Staff/OICIP/CUB/100, the testimony states if "the APCU revenue amount is adjusted to a different value, the joint proposal is to allocate that in line with the method recommended below." Additionally, the testimony, on page 8, lines 12 and 13 of Staff/OICIP/CUB/100, called for including the revenue requirements from both the October Update and the March Forecast in the joint rate spread methodology. Paragraphs 14 and 27 of the Partial Stipulation filed on March 23 likewise call for these updated calculations.

Since the time of filing the joint testimony and partial stipulation, Idaho Power Company filed its March Forecast, and then, by its April 15 filing, stipulated to a reduced revenue requirement for the October Update and the March Forecast. Thus, Staff/OICIP/CUB/102 Revised incorporates the stipulated October Update revenue requirement figure into the original Staff/OICIP/CUB/102 to yield the updated rates shown on Line 49. Likewise, Staff/OICIP/CUB/102A combines the stipulated October Update with the substitution, for those currently in Schedule 55, the proposed new March Forecast rates (Line 49), and conveys, on Line 43, the overall net increase for the Schedules proposed under the Partial Stipulation.

Note that OICIP was not a signatory to the revenue requirement stipulation, but OICIP has not opposed that stipulation.

I have therefore enclosed for filing an original and five copies of Staff/OICIP/CUB/102 Revised and Staff/OICIP/CUB/102A, which will be electronically filed today pursuant to O.A.R. 860-013-0060.

Sincerely,

Greg Adams

Attorney for Oregon Industrial Customers of Idaho Power

#### NOTES:

- 1 2010 March Forecast APCU Settled Revenues = \$4.82/MWh x 660,516.781MW's = \$3,183,691 (Line 34, Column A)
- 2 Apparent rate reduction for Area Lighting (Line 43) is due to that schedule's receiving no additional costs from the general rate case or 2010 APCU adjustments while losing the burden of the current Schedule 55. (The new Schedule 55 surcharge for Area Lighting will be zero.)
- 3 Combined revenue requirement (Line 44) is indicated to be slightly greater than what is shown in UE 214 Idaho Power/504 Wright/1 due to the fact that the former is based upon 2009 general rate case test period sales while the latter reflects the lower sales projected for the 2010-2011 APCU test period.

# IDAHO POWER COMPANY, Oregon Jurisdiction: UE 213 & UE 214 -- Joint Parties Stipulation Purpose of Exhibit Revision: Substitutes for the Original the Company-Stipulated Reduced October APCU Update Amount (Line 40-A)
