**5.4.7 INTRACALL SERVICE**

A. Description

The *INTRACALL* Service provides a special calling feature to a residence or business line. It allows customers to use their standard residence or business telephone line to provide an intercom system between their primary telephone and any extension telephone. This is accomplished by the customer dialing an access code, hanging up, letting the telephone ring, and allowing both primary and extension to talk to each other. The ringing supplied to the line is a special ringing circuit which allows the customer to distinguish between a normal incoming call and an *INTRACALL*.

B. Terms and Conditions

1. The access code may be the customer's own telephone number or a special three digit code depending upon the type of central office from which the customer is served.
2. Interaction between *INTRACALL* Service and other Custom Calling type features will depend upon the type of central office from which the customer is served.
3. *INTRACALL* Service is not available to lines in a Hunt Group.

10. MISCELLANEOUS SERVICE OFFERINGS

10.4 SCREENING/RESTRICTION SERVICES (CONT'D)

10.4.7 CARRIER ACCESS CODE BLOCKING

A. Description

Carrier Access Code Blocking prevents access to all alternate carrier direct-dialed domestic/international calls. When a customer attempts to dial an alternate carrier from a restricted line, the call will be diverted to a Company-provided announcement.

This service prevents the following calls from being completed:

- 10XXX1+
- 10XXX011+
- 101XXXX1+
- 101XXXX011+

B. Terms and Conditions

1. This service is offered subject to the availability of existing central office facilities.
2. Provision of Carrier Access Code Blocking does not alleviate customer responsibility for completed toll calls.
3. Other Toll Restriction type services are available to customers subscribing to Carrier Access Code Blocking.
