# RE: Advice No. 21-07, Schedule 109 Energy Efficiency Funding Adjustment

Portland General Electric Company (PGE) submits this filing pursuant to Oregon Revised Statutes (ORS) 757.205 and 757.210, and Oregon Administrative Rules (OARs) 860-022-0025 and 860-022-0030, for filing proposed tariff sheets associated with Tariff P.U.C. No. 18 with a requested effective date of <u>May 1, 2021</u>:

Twelfth Revision of Sheet No. 109-1 Fifteenth Revision of Sheet No. 109-2 Fifteenth Revision of Sheet No. 109-3

The purpose of this filing is to request an increase in the amount of cost-effective energy efficiency funding for Energy Trust of Oregon (ETO) through PGE's Schedule 109. In consultation and coordination with the Energy Trust, PGE proposes to increase the annual level of budgeted funding by \$3 million, from \$47.4 million to \$50.4 million. This increase in annual funding, should allow for ETO to achieve its forecasted energy efficiency savings goals and provide \$2 million in additional funding in 2021.

ETO's forecasted budget amount of \$50.4 million included in Schedule 109 for recovery is allocated to rate schedules on the basis of an equal percentage of base revenues. Also, since Schedule 109 is directly collected from customers and passed-through to ETO, there is no balancing account, true-up, or amortization associated with this adjustment schedule.

To satisfy the requirements of OARs 860-022-0025(2) and 860-22-0030(1), PGE provides the following responses:

The proposed change in Schedule 109 results in an annual increase of \$3.0 million or 0.18% for the approximately 909,000 (2021 forecasted) customers. A Schedule 7 Residential customer consuming 800 kWh monthly will see a \$0.17 or 0.16% increase in their monthly bill.
