RE: Advice No. 16-18 Schedule 102 Regional Power Act Exchange Credit

Portland General Electric (PGE) submits this filing pursuant to Oregon Revised Statutes (ORS) 757.205 and 757.210, and Oregon Administrative Rules (OARs) 860-022-0025 and 860-022-0030, for filing proposed tariff sheet associated with Tariff P.U.C. No. 18, with a requested effective date of **January 1, 2017**:

Ninth Revision of Sheet No. 102-1

The purpose of this filing is to pass through to eligible customers the monetary benefits received from the Bonneville Power Administration (BPA) under the Residential Exchange Program consistent with the provisions of the Residential Exchange Program Settlement Implementation Agreement (REPSIA) Contract No. 11PB-12467. The Commission authorized PGE to execute the REPSIA in Order No. 11-114.

BPA's Final Record of Decision in BP-16, Power and Transmission Rate Proceeding dated July 23, 2015 specifies an annual exchange amount of \$61.8 million in monetary benefits for the approximately 791,000 eligible PGE customers. In addition to the \$61.8 million, PGE proposes to pass through an additional \$4.1 million owed to customers from the BPA balancing account during 2017. This \$4.1 million reflects the projected balance in the BPA balancing account at the end of December 2016. The BPA balancing account is projected to be fully amortized by December 2017.

To satisfy the requirements of OAR 860-022-0025(2) and 860-022-0030(1), PGE provides the following responses:

As a result of this proposed price change, the approximate 791,000 eligible customers will see a \$7.3 million increase in their annual bills. This increase represents a reduction in credit to customers relative to the credit contained in current prices. A typical Schedule 7 Residential customer consuming 840 kWh monthly will see a bill increase of approximately \$.95 or 1.0%.

Work papers detailing the Schedule 102 rate development, and the balancing account detail are enclosed. Also enclosed are detailed bill comparisons.
