RE: Advice No. 21-14, Schedule 38 Large Nonresidential Optional Time-Of-Day Standard Service

Portland General Electric Company (PGE) submits this filing pursuant to Oregon Revised Statutes 757.205 and 757.210, and Oregon Administrative Rule (OAR) 860-022-0025 for filing proposed tariff sheet associated with Tariff P.U.C. No. 18, with a requested effective date of **July 1, 2021**:

Fifteenth Revision of Sheet No. 38-1

This filing proposes to update the Applicability section in Schedule 38 Large Nonresidential Optional Time-Of-Day Standard Service to mirror PGE's Schedule 83 for Large Nonresidential Standard Service. The proposed change provides Large Nonresidential Customers continuity between the two rate schedules since they are meant to be applicable to the same customer class. Currently, if a Schedule 38 customer exceeds 200 kW more than once, they are automatically migrated to Schedule 83, which is not the intent of Schedule 38. This proposed change will reduce customer confusion and unnecessary rate migrations. Under the proposed change, the customer would simply move to Schedule 85 should they exceed the 200 kW Demand threshold more than six times, rather than being moved to Schedule 83, which is what occurs under the current tariff. This change is only applicable to those customers who qualify for Schedules 38 and 83.

To satisfy the requirements of OAR 860-022-0025(2), PGE responds as follows:

This change does not increase, decrease, otherwise change existing rates, or impact revenues.
