BUSINESS DIAL UP SERVICE

DESCRIPTION

Business Dial Up Service is an enhancement to single line residential and single line business service to provide higher quality transmission standards than normally provided for voice transmission. It is designed for customers requesting a better grade of service for data transmission. Lines conditioned with this level of service may also be used for normal voice communications. This service is offered subject to the availability of suitable facilities.

CONDITIONS

The parameters of Business Dial Up Service are designed to support transmission of data up to 4800 bits per second on the local loop from the point of demarcation to the serving central office switch.

The quality of the line is guaranteed only between the customer point of demarcation and the serving central office switch. No guarantee is made for a transmission level over the entire circuit.

Business Dial Up Service may not be compatible with other services offered in the Company's tariffs.

RATES	Monthly Rate	Nonrecurring Charge ²
Business and Residence, per line ¹	\$5.00	\$25.00

GENERAL SERVICES

DIRECT INWARD DIALING SERVICE

DESCRIPTION

Direct Inward Dialing (DID) Service is a central office service that provides in-dialing from the exchange and toll network directly to the station lines associated with customer premises equipment without intervention from an attendant.

CONDITIONS

DID Service will be provided from central offices where equipment and operating conditions and facilities permit.

DID Station Line Telephone Numbers

The assignment of telephone numbers and sequence of numbers assigned to this service are made at the discretion of the Company.

DID Service will be offered in a block of 20 numbers or a block of 100 numbers from electronic central offices where facilities and operating conditions permit. Additional numbers may be ordered on a per block basis.

Customer-Provided Switching Systems must handle calls to all assigned numbers, including those that are not currently used with specific stations. Calls to numbers not currently used with specific stations must be routed by the customer to a recorded announcement referring the caller to another number.

The Service Charges in Section IV of Network Access Services Tariff P.U.C. OR No. 18 shall apply when a routing selection is changed after the initial option has been selected and installed.

GENERAL SERVICES

EXTENDED BASIC REFERRAL

DESCRIPTION

Extended Basic Referral is a Direct-Inward Dialing (DID) Intercept service that permits station lines from one-way incoming DID trunks to be placed on intercept and routed to a "change number announcement." This service allows a business DID customer who is relocating to another exchange, changing telephone numbers or disconnecting DID lines to have as many internal lines placed on intercept as desired. Dialing the customer's former DID number results in a prerecorded message, which announces the new telephone number.

CONDITIONS

Extended Basic Referral service is subject to the availability of facilities.

Extended Basic Referral service is offered in five (5) line increments. When the number of lines placed on Extended Basic Referral do not fall into increments of five (5), the number of lines will be rounded up to the next five for billing purposes. For example, if the customer disconnects 13 DID lines and requests all 13 to be put on referral, the customer will be charged for 15 lines under the selected option.

Extended Basic Referral must be ordered coincidentally with the order to move, change or disconnect the DID numbers to be referred. A request to change the number in the "change number announcement" will be billed at the nonrecurring rate Section IV, Service Charges located in the Network Access Services Tariff P.U.C. OR No. 18.

TELECOMMUNICATIONS SERVICE PRIORITY SYSTEM

APPLICATION OF RATES

The following rates and charges are in addition to all other rates and charges that may apply for other services offered under this tariff which operate in conjunction with the TSP System.

Establishment of TSP System Service

The nonrecurring charge (NRC) specified below applies when facilities are ordered with provisioning and/or restoration priority. If both are ordered at the same time, only one NRC is applicable. The NRC is also applicable for orders changing priority levels.

Provisioning Priority

There are two basic levels of provisioning priority, Emergency (provisioning priority "E") and Essential (provisioning priority 1, 2, 3, 4 or 5).

Emergency provisioning

The Company will take immediate action to provide the requested service at the earliest possible date. The rates and charges will apply as set forth under Construction of Outside Plant Facilities, Special Construction, Section 21.

(T)

Essential provisioning

The Company will adjust its available resources to meet the customer's requested due date. To calculate the charges, the Company will keep track of the additional labor hours used to meet the request of the customer and bill the customer at the applicable Time and Material Charges as set forth under Service Charges, Section IV, of the Network Access Services Tariff P.U.C. OR No. 18.

(T)
(T)

Restoration Priority

Restoration Priority is a monthly rate per circuit for the ongoing administration and maintenance of the TSP System. This monthly rate only applies when a restoration priority code (1, 2, 3, 4 or 5) is specified in position 12 of the authorization code.

BUSINESS TRAFFIC STUDY SERVICE

CONDITIONS

Business Traffic Study Service is available to business customers only.

Calls must be carried by the Company, and billed by or on behalf of the Company to the customer requesting the study.

Studies cannot be performed on toll-free or pay-per-call type telephone numbers.

A one-week traffic study may be performed per customer location, per access line or hunt group, per calendar year, at no Service Establishment Charge and no monthly charge. Any additional traffic studies requested during the calendar year will be billed at the Rates and Charges on the following page.

Traffic study report features may vary by Central Office switching system type.

When applicable, traffic study reports on Customized Multi-line Telephone Service should include reports on both the Central Office Located Trunk and on the hunt group, in order to make sure that blockage is not occurring at either area.

APPLICATION OF RATES AND CHARGES

For the setup of each additional Traffic Study, per customer location, per calendar year, the Service Establishment Charge applies in addition to the Monthly Rate.

A Service Order Charge - Subsequent, Section IV of the Network Access Services Tariff P.U.C. OR No. 18, will apply in addition to the Service Order Charge - Initial for initial setup and for any subsequent additions or changes to Traffic Study Reports in a calendar year.

CALLING SERVICES

DEFINITION

Calling Services is a family of enhanced network services available to residence and business customers. These calling services provide customer-controlled or prearranged communications services on individual access lines.

INDIVIDUAL SERVICES

A. CONDITIONS

1. INDIVIDUAL SERVICES

These services are available where Network Access Service is provided by an electronic central office. The number of features available depends upon the central office providing this service.

These services are offered on a subscription or pay-per-use basis to customers subscribing to residence or business individual-line service.

Nonrecurring Service Charges as set forth in the Network Access Services Tariff P.U.C. OR No. 18, Section IV may be waived at the Company's discretion during sales promotions of these services. Nonrecurring Service Charges will not apply to new services ordered within 60 days of the conversion of a central office to electronic switching equipment with the capability of offering these services.

(T)
(T)

Customer provided equipment may be required for some of the described services. The Company assumes no responsibility for the customer provided equipment or its compatibility to the Company's network.

CALLING SERVICES

INDIVIDUAL SERVICES

A. CONDITIONS - Continued

2. CALL FORWARD, FIXED CALL FORWARD, AND REMOTE CALL FORWARD (RCF) - Continued

A change of the telephone number to which RCF or Fixed Call Forward calls are forwarded must be made in the central office. Nonrecurring Service Charges as set forth in the Network Access Services Tariff P.U.C. OR No. 18, Section IV will apply to number changes for individual-line and trunk-line services arranged for Fixed Call Forward and for all Remote Call Forward services.

(T)
(T)

The customer must order sufficient RCF features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Company. If, in the Company's opinion, additional Remote Call Forward features are required at the call forwarding location or if facilities are needed at the terminating station, the subscriber will be required to subscribe to additional features and facilities. Should the customer refuse to subscribe to additional features and/or facilities, the customer's RCF service will be subject to termination.

5. CUSTOM LOCAL AREA SIGNALING SERVICE (CLASS)

Custom Local Area Signaling Service is a group of Calling Services offered to individual line residential and business customers.

Custom Local Area Signaling Service features are applicable to calls placed to/from compatible central offices or within a compatible central office offering the service. These services are offered based on information stored within the switch or provided to the switch through call setup signaling and are subject to limitations associated with the availability, and content of that information. **Note:** The family of services to which *69 Caller ID belong is typically referred to as "CLASS" services, but the name may vary between states, e.g., Phone Smart Service, Frontier Calling Services. (T)

Operator assisted calls will override these services for emergency purposes.

Service Charges as set forth in the Network Access Services Tariff P.U.C. OR No. 18, Section IV are not applicable when Custom Local Area Signaling Service is provided at the same time as the business or residence individual line service is established. (T)

When services are added or rearranged on an existing line, the Service Charge will apply. (T)

All customer lines in Caller ID – Number Only serving areas will automatically be provisioned with Caller ID – Number Only - per call service unless the customer orders Caller ID – Number Only - per line service.

The Service Charge will not apply to Complete Blocking - per line. (T)

Customer provided equipment may be required for some of the described services. The Company assumes no responsibility for the customer provided equipment or its compatibility to the Company's network.

Monthly Charge Per Feature

There will be a monthly charge per feature activated for each exchange access line, Customized multi-line Telephone Service line, ISDN-BRI line, and/or when the line terminates in a hunting arrangement.

Rearrangement Charges

A Service Charge as set forth in the Network Access Services Tariff P.U.C. OR No. 18, Section IV will apply to each rearrangement performed by the Company in addition to applicable Nonrecurring Charges in Section IV of Tariff No. 18. Each change to a directory number will result in a Service Charge. For example, (215) 555-1354 is presently programmed to redirect to (215) 555-1234, but is changed to redirect to (717) 555-6767. A number that is moved by the Company from one group to another group will also incur a Service Charge. Each number added by the Company will incur a Service Charge.

CUSTOMIZED MULTI-LINE TELEPHONE SERVICE

CONDITIONS - Continued

Subsequent Additions, Deletions and Changes

Subsequent line additions will be rated under a new term commitment or an addendum to an existing term commitment based upon the remaining period of the initial term commitment.

If subsequent line deletions cause the total number of lines to fall within a different line group, all remaining lines will be billed at rates according to the associated line group.

If a customer requests an upgrade or downgrade of an existing Feature Series (e.g., from Series 1000 to 2000, from Series 3000 to 2000 etc.), his existing per line term rate will be changed to reflect the new Feature Series rate. The new term rate will apply for the duration of the existing term period. Data Base Program charges will apply.

The term period for Optional System Features is based upon the initial term period for the Customized Multi-line Telephone Service. Subsequent additions of Optional System Features will be rated under a new term commitment or an addendum to an existing term commitment based upon the remaining period of the initial term.

Service Connection Charge

The Service Charges for Network Access Line Connect-Business and Network Access Line Connect for Central Office Located Trunk, as identified in the Network Access Services Tariff P.U.C. OR No. 18, Section IV will not apply to the initial installation of Customized Multi-line Telephone Service Lines when installed at tariff rates under a term commitment. (T)

Numbers Not in Use

Customers are required to keep 50% or more of their assigned telephone numbers working, in order to retain them. The Company will notify customers annually if the quantity of working numbers drops below 50% of their assigned numbers, so that action can be initiated by the customer to increase their number of assigned numbers working, or by Frontier to reclaim numbers. Telephone numbers working periodically for regular intervals of time, such as those assigned to student residences, are "working at all times" to the extent that they work for a minimum of 90 non-consecutive days during each calendar year in which they are assigned to the customer.

Termination Liability

In the event Customized Multi-line Telephone Service is terminated by the customer prior to completion of the initial term commitment period, Termination Liability as outlined in General Regulations, Section III will apply.

CUSTOMIZED MULTI-LINE TELEPHONE SERVICE

CONDITIONS - Continued

Customized Multi-line Telephone Service CLASS

Custom Local Area Signaling Service (CLASS) is a group of Customized Multi-line Telephone Service features offered to customers subscribing to Customized Multi-line Telephone Service local exchange service.

The service is subject to available facilities and limited to central offices specifically equipped to provide such service. Custom Local Area Signaling Service features are applicable to calls placed to/from compatible central offices offering the service.

Operator assisted calls will override these features for emergency purposes.

Nonrecurring Service Charges as set forth in the Network Access Services Tariff P.U.C. OR No. 18, Section IV are not applicable when Custom Local Area Signaling Service features are provided at the same time as the Customized Multi-line Telephone Service is initially established. (T)

When features are added or rearranged on an existing line, the nonrecurring Service Charge will apply. (T)

All customer lines in Caller ID Number Only serving areas will automatically be provisioned with Cancel Caller ID Number Only – Per Call service unless the customer orders Cancel Caller ID Number Only – Per Line service.

Cancel Caller ID Number Only – Per Line, will be provided without nonrecurring Service Charge to law enforcement, domestic violence agencies, and crisis intervention agencies and volunteers certified by those agencies. (T)

In order to subscribe to Customized Multi-line Telephone Service CLASS, the customer must also subscribe to at least Feature Package Series 1000.

CUSTOMER MOVES AND CHANGES (CMAC) - Continued

Regulations

CMAC is available to either existing or new Customized Multi-line Telephone Service customers.

CMAC will be furnished only from offices that are technically capable of and equipped for providing the service.

Customers will have 24-hour access to the CMAC system except when restricted during maintenance windows. Customers are permitted unlimited sessions on the system; however, after a period of inactivity, the system will terminate the session.

Some of the lines in a customer's Customized Multi-line Telephone Service system cannot or should not be rearranged. The Company will specify the unchangeable lines. The customer may have the Company designate other lines as unchangeable. Changes to these lines will be made through the Company's existing service order procedures.

CMAC service is provided per Customized Multi-line Telephone Service system customer.

All normal or emergency functions of the central office switch processor will have priority over execution of CMAC requests. The Company assumes no responsibility for change requests delayed by priority central office switch processor functions.

The Company reserves the right to inhibit CMAC service in the event of a service-affecting condition to the central office or affiliated operating support system.

The Company reserves the right to bill appropriate charges should the customer-initiated changes require corrective action by the Company.

Customers requesting CMAC service for 201 or more lines will be price under an Individual Case Basis (ICB) arrangement.

CUSTOM LINE TELEPHONE SERVICE

CONDITIONS

Term Options

Custom Line Telephone Service customers may select either a month-to-month option or a two-year term commitment period. The term commitment period becomes effective upon the installation date of the service.

Custom Line Telephone Service payment options may be selected by billing account number within a customer's system.

Service Charges

The nonrecurring Service Charges as set forth in the Network Access Services Tariff P.U.C. OR No. 18, Section IV for Custom Line Telephone Service and Feature Changes will not apply to the initial installation of Custom Line Telephone Service when purchased on a term commitment.

(T)
|
(T)

Adding Lines Under Term Option

Additional Custom Line Telephone Service lines may be added to an existing system, up to a maximum of 30, during the term commitment period. For customers subscribing to the two-year term commitment period, the term commitment with respect to any additional lines will be coterminous.

Termination Liability¹

There is no termination liability for customers who have elected the Custom Line Telephone Service month-to-month payment option.

Transfer of Term Option¹

With the permission of the Company, the obligation to pay the Custom Line Telephone Service charges for the remainder of the term commitment period may be assigned to another customer.

DS1 CYBER SERVICE

REGULATIONS

DS1 Cyber is furnished subject to the availability of facilities from digital central office equipment located in a central office building owned or leased by the Company. Clear Channel Capability (B8ZS) will be provided where available.

DS1 Cyber is available within an exchange where appropriate digital facilities are available as determined by the Company. Service inquiries will be necessary to determine availability. Special Construction Charges as specified in Section 3 of this Price List may be applicable.

All DS1 Cyber must be channelized in a single equipment location on a customer's premises. DS1 Cyber cannot be split between premises, or multiple locations within a premise. Standard network interfaces, without Integrated Services Digital Network (ISDN) signaling and without any line type features, will be provided by the Company for analog and digital services consistent with existing practices.

APPLICATION OF RATES

The DS1 Cyber Capacity rate is applicable to each DS1 Cyber.

The DS1 Cyber Capacity element provides for the network facility to the customer premises and the central office channelization.

For each increment of 24 digital channels, a credit equal to 100% of the applicable interstate Subscriber Line Charge will be applied to 22 of the 24 channels.

DS1 Cyber Service is available on a month-to-month basis, or on a 12-, 24-, or 36-month term commitment. A change from month-to-month to a term commitment will incur a Service Order Charge - Subsequent found in Section IV of Tariff P.U.C. OR No. 18. In the event DS1 Cyber Service is terminated by the customer prior to the completion of the current term commitment period, Termination Liability as outlined in General Regulations, Section III will apply.

(T)
(T)

Supersedure (transfer) of service responsibility between customers is permitted subject to the rules and regulations as specified elsewhere in this Tariff.

Unless specified herein, rules and regulations contained elsewhere in this Tariff are also applicable to DS1 Cyber Service.

BUSINESS DIAL UP SERVICE

DESCRIPTION

Business Dial Up Service is an enhancement to single line residential and single line business service to provide higher quality transmission standards than normally provided for voice transmission. It is designed for customers requesting a better grade of service for data transmission. Lines conditioned with this level of service may also be used for normal voice communications. This service is offered subject to the availability of suitable facilities.

CONDITIONS

The parameters of Business Dial Up Service are designed to support transmission of data up to 4800 bits per second on the local loop from the point of demarcation to the serving central office switch.

The quality of the line is guaranteed only between the customer point of demarcation and the serving central office switch. No guarantee is made for a transmission level over the entire circuit.

Business Dial Up Service may not be compatible with other services offered in the Company's tariffs.

DIRECT INWARD DIALING SERVICE

DESCRIPTION

Direct Inward Dialing (DID) Service is a central office service that provides in-dialing from the exchange and toll network directly to the station lines associated with customer premises equipment without intervention from an attendant.

CONDITIONS

DID Service will be provided from central offices where equipment and operating conditions and facilities permit.

DID Station Line Telephone Numbers

The assignment of telephone numbers and sequence of numbers assigned to this service are made at the discretion of the Company.

DID Service will be offered in a block of 20 numbers or a block of 100 numbers from electronic central offices where facilities and operating conditions permit. Additional numbers may be ordered on a per block basis.

Customer-Provided Switching Systems must handle calls to all assigned numbers, including those that are not currently used with specific stations. Calls to numbers not currently used with specific stations must be routed by the customer to a recorded announcement referring the caller to another number.

The ~~Nonrecurring~~Service Charges in Section IV of Network Access Services Tariff P.U.C. OR No. 18 shall apply when a routing selection is changed after the initial option has been selected and installed. (T)

EXTENDED BASIC REFERRAL

DESCRIPTION

Extended Basic Referral is a Direct-Inward Dialing (DID) Intercept service that permits station lines from one-way incoming DID trunks to be placed on intercept and routed to a "change number announcement." This service allows a business DID customer who is relocating to another exchange, changing telephone numbers or disconnecting DID lines to have as many internal lines placed on intercept as desired. Dialing the customer's former DID number results in a prerecorded message, which announces the new telephone number.

CONDITIONS

Extended Basic Referral service is subject to the availability of facilities.

Extended Basic Referral service is offered in five (5) line increments. When the number of lines placed on Extended Basic Referral do not fall into increments of five (5), the number of lines will be rounded up to the next five for billing purposes. For example, if the customer disconnects 13 DID lines and requests all 13 to be put on referral, the customer will be charged for 15 lines under the selected option.

Extended Basic Referral must be ordered coincidentally with the order to move, change or disconnect the DID numbers to be referred. A request to change the number in the "change number announcement" will be billed at the nonrecurring rate for ~~"other changes of a Network Access Line" under Section IV, Service Charges located in the Network Access Services Tariff P.U.C. GENERAL SERVICES

TELECOMMUNICATIONS SERVICE PRIORITY SYSTEM

APPLICATION OF RATES

The following rates and charges are in addition to all other rates and charges that may apply for other services offered under this tariff which operate in conjunction with the TSP System.

Establishment of TSP System Service

The nonrecurring charge (NRC) specified below applies when facilities are ordered with provisioning and/or restoration priority. If both are ordered at the same time, only one NRC is applicable. The NRC is also applicable for orders changing priority levels.

Provisioning Priority

There are two basic levels of provisioning priority, Emergency (provisioning priority "E") and Essential (provisioning priority 1, 2, 3, 4 or 5).

Emergency provisioning

The Company will take immediate action to provide the requested service at the earliest possible date. The rates and charges will apply as set forth under Construction of Outside Plant Facilities, Special Construction, Section ~~IV~~ 21, of this tariff.

(T)

Essential provisioning

The Company will adjust its available resources to meet the customer's requested due date. To calculate the charges, the Company will keep track of the additional labor hours used to meet the request of the customer and bill the customer at the applicable Time and Material Charges as set forth under ~~Nonrecurring Service~~ Charges, Section IV, of the ~~tariff~~ Network Access Services Tariff P.U.C. OR No. 18.

(T)

(T)

Restoration Priority

Restoration Priority is a monthly rate per circuit for the ongoing administration and maintenance of the TSP System. This monthly rate only applies when a restoration priority code (1, 2, 3, 4 or 5) is specified in position 12 of the authorization code.

BUSINESS TRAFFIC STUDY SERVICE

CONDITIONS

Business Traffic Study Service is available to business customers only.

Calls must be carried by the Company, and billed by or on behalf of the Company to the customer requesting the study.

Studies cannot be performed on toll-free or pay-per-call type telephone numbers.

A one-week traffic study may be performed per customer location, per access line or hunt group, per calendar year, at no Service Establishment Charge and no monthly charge. Any additional traffic studies requested during the calendar year will be billed at the Rates and Charges on the following page.

Traffic study report features may vary by Central Office switching system type.

When applicable, traffic study reports on Customized Multi-line Telephone Service should include reports on both the Central Office Located Trunk and on the hunt group, in order to make sure that blockage is not occurring at either area.

APPLICATION OF RATES AND CHARGES

For the setup of each additional Traffic Study, per customer location, per calendar year, the Service Establishment Charge applies in addition to the Monthly Rate.

CALLING SERVICES

DEFINITION

Calling Services is a family of enhanced network services available to residence and business customers. These calling services provide customer-controlled or prearranged communications services on individual access lines.

INDIVIDUAL SERVICES

A. CONDITIONS

1. INDIVIDUAL SERVICES

These services are available where Network Access Service is provided by an electronic central office. The number of features available depends upon the central office providing this service.

These services are offered on a subscription or pay-per-use basis to customers subscribing to residence or business individual-line service.

Nonrecurring Service eCharges as set forth in the Network Access Services Tariff P.U.C. OR No. 18, Section IV may be waived at the Company's discretion during sales promotions of these services. Nonrecurring Service eCharges will not apply to new services ordered within 60 days of the conversion of a central office to electronic switching equipment with the capability of offering these services.

(T)
|
(T)

Customer provided equipment may be required for some of the described services. The Company assumes no responsibility for the customer provided equipment or its compatibility to the Company's network.

Custom Local Area Signaling Service is a group of Calling Services offered to individual line residential and business customers.

Custom Local Area Signaling Service features are applicable to calls placed to/from compatible central offices or within a compatible central office offering the service. These services are offered based on information stored within the switch or provided to the switch through call setup signaling and are subject to limitations associated with the availability, and content of that information. **Note:** The family of services to which *69 Caller ID belong is typically referred to as "CLASS" services, but the name may vary between states, e.g., Phone Smart Service, Frontier Calling Services. (T)

Operator assisted calls will override these services for emergency purposes.

~~Nonrecurring Service eCharges~~ as set forth in the Network Access Services Tariff P.U.C. OR No. 18, Section IV are not applicable when Custom Local Area Signaling Service is provided at the same time as the business or residence individual line service is established. (T)

When services are added or rearranged on an existing line, the ~~nonrecurring Service eCharge~~ will apply. (T)

All customer lines in Caller ID – Number Only serving areas will automatically be provisioned with Caller ID – Number Only - per call service unless the customer orders Caller ID – Number Only - per line service.

The ~~nonrecurring Service eCharge~~ will not apply to Complete Blocking - per line. (T)

Customer provided equipment may be required for some of the described services. The Company assumes no responsibility for the customer provided equipment or its compatibility to the Company's network.

(M) *69 Caller ID also on Sheet 17. (T)

CUSTOMIZED MULTI-LINE TELEPHONE SERVICE

CONDITIONS - Continued

Subsequent Additions, Deletions and Changes

Subsequent line additions will be rated under a new term commitment or an addendum to an existing term commitment based upon the remaining period of the initial term commitment.

If subsequent line deletions cause the total number of lines to fall within a different line group, all remaining lines will be billed at rates according to the associated line group.

If a customer requests an upgrade or downgrade of an existing Feature Series (e.g., from Series 1000 to 2000, from Series 3000 to 2000 etc.), his existing per line term rate will be changed to reflect the new Feature Series rate. The new term rate will apply for the duration of the existing term period. Data Base Program charges will apply.

The term period for Optional System Features is based upon the initial term period for the Customized Multi-line Telephone Service. Subsequent additions of Optional System Features will be rated under a new term commitment or an addendum to an existing term commitment based upon the remaining period of the initial term.

Service Connection Charge

The ~~nonrecurring~~ Service eCharges for Network Access Line Connect-Business and Network Access Line Connect for Central Office Located Trunk, as identified in ~~Section IV of Tariff No. 18~~ the Network Access Services Tariff P.U.C. OR No. 18, Section IV will not apply to the initial installation of Customized Multi-line Telephone Service Lines when installed at tariff rates under a term commitment. (T)

Numbers Not in Use

Customers are required to keep 50% or more of their assigned telephone numbers working, in order to retain them. The Company will notify customers annually if the quantity of working numbers drops below 50% of their assigned numbers, so that action can be initiated by the customer to increase their number of assigned numbers working, or by Frontier to reclaim numbers. Telephone numbers working periodically for regular intervals of time, such as those assigned to student residences, are "working at all times" to the extent that they work for a minimum of 90 non-consecutive days during each calendar year in which they are assigned to the customer.

Termination Liability

In the event Customized Multi-line Telephone Service is terminated by the customer prior to completion of the initial term commitment period, Termination Liability as outlined in General Regulations, Section III will apply.

CUSTOMIZED MULTI-LINE TELEPHONE SERVICE

CONDITIONS - Continued

Customized Multi-line Telephone Service CLASS

Custom Local Area Signaling Service (CLASS) is a group of Customized Multi-line Telephone Service features offered to customers subscribing to Customized Multi-line Telephone Service local exchange service.

The service is subject to available facilities and limited to central offices specifically equipped to provide such service. Custom Local Area Signaling Service features are applicable to calls placed to/from compatible central offices offering the service.

Operator assisted calls will override these features for emergency purposes.

Nonrecurring Service eCharges as set forth in the Network Access Services Tariff P.U.C. OR No. 18, Section IV are not applicable when Custom Local Area Signaling Service features are provided at the same time as the Customized Multi-line Telephone Service is initially established. (T)

When features are added or rearranged on an existing line, the nonrecurring Service eCharge will apply. (T)

All customer lines in Caller ID Number Only serving areas will automatically be provisioned with Cancel Caller ID Number Only – Per Call service unless the customer orders Cancel Caller ID Number Only – Per Line service.

Cancel Caller ID Number Only – Per Line, will be provided without nonrecurring Service eCharge to law enforcement, domestic violence agencies, and crisis intervention agencies and volunteers certified by those agencies. (T)

In order to subscribe to Customized Multi-line Telephone Service CLASS, the customer must also subscribe to at least Feature Package Series 1000.

CUSTOMER MOVES AND CHANGES (CMAC) - Continued

Regulations

CMAC is available to either existing or new Customized Multi-line Telephone Service customers.

CMAC will be furnished only from offices that are technically capable of and equipped for providing the service.

Customers will have 24-hour access to the CMAC system except when restricted during maintenance windows. Customers are permitted unlimited sessions on the system; however, after a period of inactivity, the system will terminate the session.

Some of the lines in a customer's Customized Multi-line Telephone Service system cannot or should not be rearranged. The Company will specify the unchangeable lines. The customer may have the Company designate other lines as unchangeable. Changes to these lines will be made through the Company's existing service order procedures.

CMAC service is provided per Customized Multi-line Telephone Service system customer.

All normal or emergency functions of the central office switch processor will have priority over execution of CMAC requests. The Company assumes no responsibility for change requests delayed by priority central office switch processor functions.

The Company reserves the right to inhibit CMAC service in the event of a service-affecting condition to the central office or affiliated operating support system.

The Company reserves the right to bill appropriate charges should the customer-initiated changes require corrective action by the Company.

Customers requesting CMAC service for 201 or more lines will be price under an Individual Case Basis (ICB) arrangement.

Rates and Charges:

The following rates and charges apply per Customized Multi-line Telephone Service system:

PRI Station Detail Billing: Provides individual station call details for all stations utilizing a Customer's ISDN Primary Service at an account level on a monthly basis. These details are provided with the normal customer bill or on the Frontier Communications Inc. website via the Internet.

PRI Station Detail billing is only available with message / measured usage service. Individual PRI Station Call Detail is for informational purposes only. Exact billing information is located in the Measured Call Summary portion of the bill.

The customer's ISDN Primary Service must be equipped with Calling Party Default Directory Number with the Calling Party Screening option. Customers will not have the option to change the Calling Party Number and CPN may not be deleted. Customers will have the option to define a partial listing in the screening list. Specific call details will not be provided for stations not included in the screening list. The screening list may not include 800 numbers, fictitious numbers, private network numbers or Centrex Dialing Plan numbers defined in the screening tables. Station Call Details will only be provided for valid telephone numbers within the switch providing the customer's ISDN Primary Service.

DS1 CYBER SERVICE

REGULATIONS

DS1 Cyber is furnished subject to the availability of facilities from digital central office equipment located in a central office building owned or leased by the Company. Clear Channel Capability (B8ZS) will be provided where available.

DS1 Cyber is available within an exchange where appropriate digital facilities are available as determined by the Company. Service inquiries will be necessary to determine availability. Special Construction Charges as specified in Section 3 of this Price List may be applicable.

All DS1 Cyber must be channelized in a single equipment location on a customer's premises. DS1 Cyber cannot be split between premises, or multiple locations within a premise. Standard network interfaces, without Integrated Services Digital Network (ISDN) signaling and without any line type features, will be provided by the Company for analog and digital services consistent with existing practices.

APPLICATION OF RATES

The DS1 Cyber Capacity rate is applicable to each DS1 Cyber.

The DS1 Cyber Capacity element provides for the network facility to the customer premises and the central office channelization.

For each increment of 24 digital channels, a credit equal to 100% of the applicable interstate Subscriber Line Charge will be applied to 22 of the 24 channels.

DS1 Cyber Service is available on a month-to-month basis, or on a 12-, 24-, or 36-month term commitment. A change from month-to-month to a term commitment will incur a ~~Miscellaneous Change~~ Service Order Charge - Subsequent found in Section IV of ~~Tariff No. 18~~ Tariff P.U.C. OR No. 18. In the event DS1 Cyber Service is terminated by the customer prior to the completion of the current term commitment period, Termination Liability as outlined in General Regulations, Section III will apply.

(T)
(T)

Supersedure (transfer) of service responsibility between customers is permitted subject to the rules and regulations as specified elsewhere in this Tariff.

Unless specified herein, rules and regulations contained elsewhere in this Tariff are also applicable to DS1 Cyber Service.
