RE: Revised SDC

Avion Water Company submitted Advice 20-01 (Schedule 7) to the Public Utility Commission on 6/09/2020. The purpose of this filing is to increase the System Development Charge for developers using Avion Water Company's services.

The SDC has not changed in more than 20 years. This change is required to equitably apportion costs to developers based upon the size of their development. Historically, Avion has required offsite improvements based specifically upon each project, with line share agreements where appropriate. This system was appropriate when growth consisted of a smaller number of very specific, well bounded projects. With the expansion of the City of Bend's Urban Growth Boundary, Avion has started to experience growth that is much greater in scale, coming in a much more haphazard manner (more akin to what a municipality would experience). Consequently, we are revising the SDC to more accurately reflect the infrastructure costs of adding new services on a "per customer" basis.

Please direct any questions or notifications of action taken on this filing to Adam Jackson at (541) 382-5342 or adam@avionwater.com.

Sincerely,

/s/

Adam Jackson
