Re: June 2016 Bill Adjustments:

Schedule 185, "Special Annual Interstate Storage and Transportation Credit, and "Schedule 186, "Special Annual Core Storage and Pipeline Capacity Optimization Credit"

Northwest Natural Gas Company, dba NW Natural (NW Natural or Company), files herewith the following tariff sheets stated to become effective with service on and after **June 1. 2016**:

Fifth Revision of Sheet 185-1, Schedule 185, "Special Annual Interstate Storage and Transportation Credit," and

Fourth Revision of Sheet 186-1 Schedule 186, "Special Annual Core Storage and Pipeline Capacity Optimization Credit."

The purpose of this filing is to revise Schedule 185 and Schedule 186, respectively, to reflect the per-therm credit used to calculate the lump sum amount to be applied to the bills of customers served under Rate Schedules 2 and 3, and under the Sales Service option of Schedules 31 and 32.

The lump sum June bill credit will be applied to customer bills commencing with the first billing cycle in June 2016 and ending with the last billing cycle in June 2016. The bill credit is calculated on a customer-specific basis according to the rate schedule applicable to the customer and the customer's actual billed gas usage between January 1, 2015 and December 31, 2015. In order to receive the bill credit, a customer must have an active gas service account at the time of the customer's June 2016 billing cycle.

Public Utility Commission of Oregon NWN OPUC Advice No. 16-03 April 15, 2016, Page 2

#### Schedule 185

The Schedule 185 credit represents the refund of the Oregon share of revenues NW Natural received for interstate storage and related transportation service activities under a Limited Jurisdiction Blanket Certificate granted under FERC Regulations, 18 C.F.R. § 294.224. The refund of \$2,807,504 million (before revenue sensitive effects) is comprised of \$2,768,137 million from revenues for 2015 activity, plus \$39,367 that is the residual remaining balance from the June 2015 credits.

Commencing with the June 2016 credits, the Schedule 185 amounts are calculated on an equal percentage of margin basis to reflect rate allocation practices adopted in the Company's last general rate case (Docket UG 221).

The Schedule 185 credit will reduce June 2016 customer bills as follows:

- The average Schedule 2 Residential Customer that used about 510 therms in 2015 will see a bill credit of about \$3.61.
- The average Schedule 3 Commercial Customer that used about 2,411 therms in 2015 will see a bill credit of about \$11.56.
- The average Schedule 31 Commercial Firm Sales customer that used about 31,497 therms in 2015 will see a bill credit of about \$110.88.
- The average Schedule 32 Industrial Firm Sales customer that used about 231,111 therms in 2015 will see a bill credit of about \$140.59.

#### Schedule 186

This filing also revises Schedule 186 to add the per therm credit that will be applied to customer bills for the refund of the Oregon share of revenues received from the Company's core pipeline capacity optimization activities. The refund of \$6,610,670 (before revenue sensitive effects) is comprised of \$6,517,973 from revenues for 2015 activity, plus \$92,697 that is the residual remaining balance from the June 2015 credits.

The Schedule 186 credit applies across all sales-based rate schedules and is a credit of \$0.01210 per-therm. The average June 2016 bill credit under Schedule 186 is as follows:

- Schedule 2 Residential \$6.17
- Schedule 3 Commercial \$29.18
- Schedule 31 Commercial Firm \$381.11
- Schedule 32 Industrial Firm Sales \$2,796.44
- Schedule 32 Industrial Interruptible Sales \$4,278.58

#### Combined Effects

The combined effects of the Schedule 185 and Schedule 186 amounts is a refund of \$9,418,174 million (before revenue sensitive effects), which is comprised of \$9,286,110 million from revenues for 2015 activity, plus \$132,064 that is the residual remaining balance from the June 2015 credits.

Public Utility Commission of Oregon NWN OPUC Advice No. 15-04 April 15, 2015, Page 3

The average bill effects of the Schedule 185 and Schedule 186 credits combined are as follows:

- The average Schedule 2 Residential customer will see a bill credit of about \$9.78.
- The average Schedule 3 Commercial customer will see a bill credit of about \$40.73.
- The average Schedule 31 Commercial Firm Sales customer will see a bill credit of about \$491.99.
- The average Schedule 32 Industrial Firm Sales customer will see a bill credit of about \$2,937.03.
- The average Schedule 32 Industrial interruptible Sales customer will see a bill credit of about \$5,288.87.

In support of this filing, the Company incorporates by reference the Annual Report of Interstate and Intrastate Gas Storage and Optimization Activities filed with the Commission on March 30, 2016 (Docket RG 32).

The Company respectfully requests that the tariff sheets filed herein be approved to become effective with service on and after June 1, 2016.
