EXCHANGE SERVICES

EXTENDED AREA SERVICE (EAS)

A. DESCRIPTION OF SERVICE

Whereas local service contemplates telephone service within an exchange, certain exchanges exist in which the local service is extended to a neighboring exchange(s), allowing calls between exchanges without the application of toll charges. Such service is termed "Extended Area Service (EAS)."

B. APPLICATION OF RATES

1. Classification of Exchanges by Access Lines

- a. Classification of Exchanges have been categorized into three access line levels. Level 1 having the lowest number of access lines and level 3 having the highest number of access lines.

Level 1 = 0 - 11,000 access lines
Level 2 = 11,001 - 35,000 access lines
Level 3 = 35,001 + access lines

- b. Each EAS route has been analyzed to determine the number of access lines that can be called from the originating exchange to the EAS exchanges.

2. The EAS route increments are based on the following flat rates for each level of access lines.

<u>RESIDENCE</u>	<u>BUSINESS</u>
Level 1 = \$2.00	Level 1 = \$3.00 (R)
Level 2 = 4.04	Level 2 = 6.00 (R)
Level 3 = 6.00 (R)	Level 3 = 11.00 (R)

3. The various rate levels are determined according to class of service and quantity of access lines in the exchanges' extended local calling area.
4. For the application of EAS charges on Centrex lines see Section 9 in the Price List.
