Attn: Filing Center

RE: Advice 20-005/UE 352 – Renewable Adjustment Clause Compliance Filing

In compliance with ORS 757.205, OAR 860-022-0025, and OAR 860-022-0030, PacifiCorp d/b/a Pacific Power submits for filing proposed tariff sheets associated with Tariff P.U.C. OR No. 36, which sets forth all rates, tolls, charges, rules, and regulations applicable to electric service in Oregon. This filing is made in compliance with Order 19-304 and includes an April 1, 2020 effective date.

Sixth Revision of Sheet No. 202-1	Schedule 202	Renewable Adjustment Clause –
		Supply Service Adjustment

To support this filing and meet the requirements of OAR 860-022-0025 and OAR 860-022-0030, PacifiCorp submits the tariff sheets listed above with the following supporting attachments:

Attachment 1: Estimated Effect of Proposed Rate Change Attachment 2: RAC Rate Spread and Rate Calculation Attachment 3: Monthly Billing Comparisons

These attachments include the rate spread, rates, and rate impact by rate schedule based on the cost update that was filed on March 16, 2020. The updated costs are lower than those reflected in the Stipulation for Marengo I and II. PacifiCorp has used the updated costs reflected in this filing to set rates for Marengo I and II.

The cost update provided in the March 16th filing reflects a total revenue requirement of \$4,812,000 for Marengo I and II. As shown in Attachment 1, this proposed change will affect approximately 614,000 customers and result in an overall rate increase of approximately \$4.8 million or 0.4 percent. A typical residential customer using 900 kilowatt-hours per month will see a monthly bill increase of \$0.36.

In accordance with Paragraph 26 of the Renewable Adjustment Clause Stipulation filed August 1, 2019, PacifiCorp will make a subsequent filing with the signed affidavit attesting to the fact that the wind repowering facilities have been placed into service prior to the April 1, 2020 rate effective date.

Public Utility Commission of Oregon March 17, 2020 Page 2

The proposed changes to Schedule 202 in this filing do not include the proposed increases to this schedule that are proposed in the UE 369 compliance filing, Advice Letter 20-006, that has also been filed on March 17, 2020. The version of Schedule 202 presented in this filing is superseded by the version presented in the UE 369 compliance filing, Advice Letter 20-006 which shows the combined rate change scheduled to take effect on April 1, 2020.

Please direct any questions on this filing to Cathie Allen at (503) 813-5934.

Sincerely,

Etta Lockey

Vice President, Regulation

Enclosure

Proposed Tariff

SUPPLY SERVICE ADJUSTMENT

Page 1

(I)

(I)

Purpose

This schedule recovers, between rate cases, the costs to construct or otherwise acquire facilities that generate electricity from renewable energy sources and for associated electricity transmission.

This adjustment is to recover the actual and forecasted revenue requirement associated with the prudently incurred costs of resources, including associated transmission, that are eligible under Senate Bill 838 (2007) and in service as of the date of the proposed rate change. The revenue requirement includes the actual return of and grossed up return on capital costs of the renewable energy source and associated transmission at the currently authorized rate of return, forecasted operation and maintenance costs, forecasted property taxes, forecasted energy tax credits, and other forecasted costs not captured in the Transition Adjustment Mechanism (TAM). The revenue requirement for Oregon will be calculated using the forecasted inter-jurisdictional allocation factors based on the same 12-month period used in the TAM.

Applicable

To all Residential consumers and Nonresidential consumers except consumers who began service under the five-year cost of service opt-out program described in Schedule 296 before January 1, 2019.

Energy Charge

The adjustment rate is listed below by Delivery Service Schedule.

<u>Charge</u>
0.114 cents per kWh
0.114 cents per kWh
0.154 cents per kWh
0.179 cents per kWh
0.190 cents per kWh
0.185 cents per kWh
0.192 cents per kWh
0.173 cents per kWh
0.173 cents per kWh
0.132 cents per kWh
0.190 cents per kWh
0.152 cents per kWh
0.083 cents per kWh
0.121 cents per kWh
