ITEM NO. CA22

**PUBLIC UTILITY COMMISSION OF OREGON
STAFF REPORT
PUBLIC MEETING DATE: June 18, 2002**

REGULAR _____ CONSENT X EFFECTIVE DATE July 1, 2002

DATE: June 12, 2002

TO: John Savage through Lee Sparling and Ed Busch

FROM: Ed Krantz

SUBJECT: NORTHWEST NATURAL: (Docket No. UM 632) Requests reauthorization to defer certain costs associated with demand-side management programs.

STAFF RECOMMENDATION:

I recommend that the Commission approve reauthorization of Northwest Natural's (Northwest or company) deferrals of conservation or energy efficiency costs for a 12-month period beginning July 1, 2002.

DISCUSSION:

By Order No. 94-195, the Commission authorized Northwest to defer, under Schedule No. 175, revenue requirements and lost margin revenues associated with the company's Commission-approved demand-side management (DSM) programs. This authorization was for the 12 months ending January 25, 1995. Deferrals were reauthorized for the 12-month period ending November 30, 1995, by Order No. 94-1766. Subsequently, the Commission reauthorized DSM related deferrals, each year, through June 30. Current authorization extends through June 30, 2002.

Deferral of revenue requirements and lost margins associated with Northwest DSM programs is consistent with the Commission's policy to remove the significant disincentives to acquiring DSM relative to supply-side resources. ORS 757.262 allows the Commission to "...adopt policies designed to encourage the acquisition of cost-effective conservation resources." Without deferral and recovery of these direct and indirect costs of DSM, the company would again have a disincentive to acquire cost-effective conservation.

The company estimates it will defer approximately \$1,900,000 under its Schedule 175 (Conservation Resource Adjustments) and Schedule 209 (Residential High-Efficiency Furnace Program), during the 12-month period ending June 30, 2003.

PROPOSED COMMISSION MOTION:

Northwest Natural's deferred accounting reauthorization for revenue requirements and net lost revenues associated with the company's Commission-approved energy efficiency programs be approved for the 12 months beginning July 1, 2002.
