Negotiated Interconnection Agreement and Amendment Submitted for Commission Approval Pursuant to Section 252(e) of the Telecommunications Act of 1996.	)	

DISPOSITION: AGREEMENT and AMENDMENT APPROVED

On October 10, 2002, New Edge Networks and Qwest Corporation filed an negotiated interconnection agreement and first amendment thereto with the Public Utility Commission of Oregon (Commission). The current agreements replace ARB 149 and subsequent amendments. The parties seek approval of these agreements under Section 252(e) of the Telecommunications Act of 1996. The Commission provided notice by posting an electronic copy of the agreement and amendment on the World Wide Web, at: <http://www.puc.state.or.us/caragmnt/>. Only the Commission Staff (Staff) filed comments.

Under the Act, the Commission must approve or reject an agreement reached through voluntary negotiation within 90 days of filing. The Commission may reject an agreement only if it finds that:

- (1) the agreement (or portion thereof) discriminates against a telecommunications carrier not a party to the agreement; or
- (2) the implementation of such agreement or portion is not consistent with the public interest, convenience, and necessity.

Staff noted that an interconnection agreement or amendment thereto has no effect or force until approved by a state Commission. See 47 U.S.C. Sections 251 (a) and (e). Accordingly, Staff pointed out that the effective date of these filings will be the date the Commission signs an order approving them, and that any provision stating that the parties' agreement is effective prior to that date is not enforceable.

Staff recommended approval of the agreement and amendment. Staff concluded that the agreement and amendment do not appear to discriminate against telecommunications carriers who are not parties to the agreement and does not appear to be inconsistent with the public interest, convenience, and necessity.

The parties stated the agreement is a Statement of Generally Accepted Terms (SGAT). The terms and conditions of the agreement may be similar to the SGAT currently under review; however, at this time there is no approved SGAT on file with the Commission. As such, the agreement has been processed as a negotiated agreement.

**OPINION**

The Commission adopts Staff's recommendation and concludes that there is no basis under the Act to reject the agreement or amendment. No participant in the proceeding has requested that the agreement or amendment be rejected or has presented any reason for rejection. Accordingly, the agreement and amendment should be approved.

**CONCLUSIONS**

1. There is no basis for finding that the agreement discriminates against any telecommunications carrier not a party to the agreement.
2. There is no basis for finding that implementation of the agreement and amendment is not consistent with the public interest, convenience, and necessity.
3. The agreement and amendment should be approved.

**ORDER**

IT IS ORDERED that the agreement and amendment, between New Edge Networks and Qwest Corporation are approved.
