SUBJECT: QWEST CORPORATION : (Docket No. UM 1130) Roseburg rate center numbering expansion for Dell Computer Corporation Call Center.

STAFF RECOMMENDATION:

I recommend that the Commission issue an order granting Qwest Corporation (Qwest) a waiver of the Federal Communications Commission (FCC) months to exhaust criterion for the issuance of 1000 consecutive numbers for Dell Computer Corporation (Dell) in the Roseburg rate center.

DISCUSSION:

Qwest is requesting Neustar (the National numbering administrator) to open 500 consecutive numbers out of the Roseburg (RSBGOR57DS0) switch in the 541-817-8XXX numbering sequence.

Qwest submitted a request for numbers to Neustar and was denied because Qwest did not meet the FCC months to exhaust criterion, which is six months to exhaust.

The FCC, in its Second Report and Order on Numbering Resource Optimization, allowed for a waiver of the numbering rules by a State Commission where there is a demonstrated need for a large block of numbers (*FCC Docket No. 99-200, Order No. 00-429*). Dell has requested 500 consecutive numbers in addition to their present 200 numbers. The minimum amount of numbers that Neustar grants is 1000.

This latest request from Dell is needed to meet their global dialing plans and to grow their business in Roseburg. The Dell call center is an economic plus for the Roseburg area and the State of Oregon.

PROPOSED COMMISSION MOTION:

That an order be issued granting Qwest Corporation a waiver of the FCC's months to exhaust criterion for the Roseburg rate center in order to accommodate Dell Computer Corporation's need for 500 consecutive numbers in the 541-817-7XXX number group.
