**DISPOSITION: DEFERRED ACCOUNTING APPLICATION
APPROVED**

On May 11, 2007, Avista Corporation (Avista) filed an application with the Public Utility Commission of Oregon (Commission) requesting it reauthorize the deferral of certain costs associated with demand-side management programs. A description of the filing and its procedural history is contained in the Staff Report, attached as Appendix A and incorporated by reference.

At its Public Meeting on July 10, 2007, the Commission adopted Staff's Recommendation and approved Avista's request.

ORDER

IT IS ORDERED that Avista Corporation's deferred accounting reauthorization request for revenue requirements and lost margin revenues associated with the company's Commission-approved energy efficiency programs for the 12 months beginning July 1, 2007, is approved. This approval is for accounting purposes only, and does not constitute approval for ratemaking purposes.

Made, entered and effective JUL 16 2007.

ITEM NO. CA2

PUBLIC UTILITY COMMISSION OF OREGON
STAFF REPORT
PUBLIC MEETING DATE: July 10, 2007

REGULAR _____ CONSENT X EFFECTIVE DATE July 1, 2007

DATE: June 7, 2007

TO: Public Utility Commission

SUBJECT: AVISTA CORPORATION: (Docket No. UM 1165 (3)) Requests reauthorization to defer certain costs associated with demand-side management programs.

STAFF RECOMMENDATION:

Staff recommends the Commission approve reauthorization of Avista Corporation's deferrals of conservation or energy efficiency costs for a twelve-month period beginning July 1, 2007.

DISCUSSION:

On May 11, 2007, Avista Corporation (Avista or Company) submitted an application requesting the Commission reauthorize the deferral of certain costs associated with demand-side management programs (DSM).

Order No. 93-1881 authorized Avista to defer revenue requirements and estimated revenue margin losses associated with its DSM investment, and to establish an annual rate adjustment mechanism to reflect the deferred costs in rates on a timely basis. This authorization was for the twelve-months ending December 31, 1994. Subsequently, the Commission reauthorized DSM-related deferrals, each year through June 30. Current authorization for this deferral extends through June 30, 2007, pursuant to Order No. 06-354.

Deferral of DSM program investment costs and associated net lost margins is consistent with the Commission's policy to remove the significant disincentives to acquiring DSM relative to supply-side resources. ORS 757.262 allows the Commission to "...adopt policies designed to encourage the acquisition of cost-effective conservation resources."

Without deferral and recovery of these direct and indirect costs of DSM, the company would again have a disincentive to acquire cost-effective conservation.

This year the Company proposes to change the accounting for these costs by combining the previously used sub-accounts of FERC Account 182 with FERC Account 186. Avista will calculate interest at its authorized cost of capital, or 8.88 percent, on the average net balance.

The Company estimates it will defer approximately \$760,000 - \$860,000 in conservation costs and \$110,000 - \$120,000 of lost margin revenue during the twelve-month period ending June 30, 2008.

PROPOSED COMMISSION MOTION:

The Commission approve reauthorization of Avista Corporation's deferrals of conservation or energy efficiency costs for a twelve-month period beginning July 1, 2007.
