

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

CP 538

In the Matter of the Cancellation of the)
Certificate of Authority Held by OPEX) ORDER
COMMUNICATIONS INC.)

DISPOSITION: CERTIFICATE OF AUTHORITY CANCELLED

On November 10, 1998, PremierCom Inc. was granted a certificate of authority to provide telecommunications service in Oregon as a competitive provider. *See* Order No. 98-463. The company later changed its name to Opex Communications Inc.

Opex Communications Inc. has failed to file its 4th Quarter 2006 OUS2 form to comply with Oregon Universal Service Fund requirements per ORS 759.425.

The certificate holder failed to file an annual report for 2006 as required by OAR 860-032-0060(2)(a). On June 25, 2007, the Commission notified the certificate holder that the report had not been received. The certificate holder failed to respond to the original request for the annual report and to the second notification.

ORS 756.515(4) provides that the Commission may, after investigation, but without hearing, make such findings and orders as deemed justified by the results of the investigation. In view of the foregoing, the Commission determined at its July 10, 2007, Public Meeting that the certificate holder has failed to comply with Commission rules and terms of the certificate. The certificate of authority to provide telecommunications service should be cancelled, per OAR 860-032-0008(2).

The Commission notes that this is the second time it has canceled a certificate held by the certificate holder. Before the Commission will process any future application for certification, the certificate holder must fully comply with Commission rules. Any future application must include:

1. Payment of all revenue fees, including late payment fees, owed for each calendar year of operation pursuant to ORS 756.310(6)(a), in accordance with Commission requirements;
2. Confirmation of compliance with Oregon Universal Service Fund requirements pursuant to ORS 759.425; and
3. Annual reports for each calendar year of operation pursuant to OAR 860-032-0060.

The certificate holder must include all fees and documents for each year of operation, regardless of whether it held a valid certificate of authority from this Commission. In addition, the certificate holder must provide information to the Commission why it believes it is in the public interest to again grant a certificate of authority to an entity that has repeatedly ignored Commission rules. The Commission will evaluate the information to help determine whether to grant the application. If the certificate holder fails to include these items in its application, the Commission will deem the application incomplete and return it.

IT IS ORDERED that the certificate of authority held by Opex Communications Inc. is cancelled.

Made, entered, and effective JUL 16 2007.
