OF OREGON**

UM 1083 and UM 1166

In the Matter of

RCC MINNESOTA, INC

Notice of Relinquishment of its Eligible  
Telecommunications Carrier and Eligible  
Telecommunications Provider Status

ORDER

**DISPOSITION: NOTICE OF RELINQUISHMENT ACKNOWLEDGED**

On April 15, 2009, RCC Minnesota, Inc., (RCC) filed a Motion for Acknowledgement of Relinquishment of Eligible Telecommunications Carrier (ETC) Designation and Eligible Telecommunications Provider (ETP) Designation in the State of Oregon. RCC requests we grant the motion by April 30, 2009, and approve the relinquishment effective July 1, 2009.

On April 24, 2009, the Staff of the Public Utility Commission of Oregon (Staff) filed a response supporting RCC's request to relinquish its ETC and ETP designations in Oregon. Staff also supports the request for issuance of an order by April 30, 2009, to allow sufficient time for RCC customers currently participating in the low-income programs to switch to another provider before RCC's designation ends on June 30, 2009.

**DISCUSSION**

The relinquishment of ETC status is governed by 47 C.F.R. §54.205. That rule first requires a carrier seeking to relinquish ETC status to provide advance notice to the state commission. The rule then imposes two requirements on the state commission. The state commission (1) shall permit an ETC to relinquish its designation in any area served by more than one ETC; and (2) prior to permitting an ETC to relinquish its status, require the remaining ETCs to ensure that all customers served by the relinquishing carrier will continue to be served.

RCC's request for relinquishment meets these requirements. First, RCC has provided advance notice of its intent to relinquish its ETC status. Second, the area in which

RCC seeks to relinquish its designation is served by more than one ETC. As Staff notes, RCC's designated service area in Oregon is served by incumbent local exchange carriers (ILECs) that have been designated as ETCs. Finally, the actions taken by RCC are sufficient to ensure that its customers will have several choices for continuation of service. They may continue their current wireless service, as RCC is not ceasing operations and will soon be integrated with Verizon Wireless. They may also chose to obtain service from the ILEC serving their local exchange, or possibly by other carriers, including other wireless ETCs, that serve portions of RCC's area.

There are no specific rules governing the relinquishment of ETP status. Nonetheless, Staff is concerned that RCC's current low-income customers be given sufficient time and information to switch to an alternative Lifeline/Oregon Telecommunications Assistance Program (OTAP) provider. Staff believes RCC's proposed 60-day notice period is sufficient for this purpose.

### **FINDINGS OF FACT**

RCC is an Oregon certified competitive telecommunications service provider and designated ETC.

On April 15, 2009, RCC filed notice to relinquish both its federal ETC status in Oregon and its Oregon ETP status to participate in OTAP.

RCC's entire designated territory is served by ILECs certified as ETCs. Portions of RCC's territory are served by other wireless carriers, some of whom are certified as ETCs.

60-day notice is sufficient for RCC's current low-income customers to be able to switch to an alternative Lifeline/OTAP provider.

### **CONCLUSIONS OF LAW**

RCC has provided advance notice of its intent to relinquish its ETC status as required by 47 C.F.R. §54.205.

The area in which RCC seeks to relinquish its designation is served by more than one ETC.

RCC customers will be able to continue service by other ETCs, and, if necessary, have sufficient time to switch to another Lifeline/OTAP provider.
