ITEM NO. CA2

PUBLIC UTILITY COMMISSION OF OREGON
STAFF REPORT
PUBLIC MEETING DATE: June 2, 2009

REGULAR CONSENT EFFECTIVE DATE July 1, 2009

DATE: May 15, 2009

TO: Public Utility Commission

FROM: Deborah Garcia *DG*

THROUGH: *in* Lee Sparling, *EB* Ed Busch, and *JJ* Judy Johnson

SUBJECT: AVISTA UTILITIES: (Docket No. UM 1165(5)) Reauthorizes deferrals for costs associated with demand side management programs.

STAFF RECOMMENDATION:

I recommend that the Commission approve Avista Utilities' (Avista or Company) deferral accounts related to demand side management (DSM) costs for a twelve-month period beginning July 1, 2009.

DISCUSSION:

Avista makes this filing under ORS 757.259 and OAR 860-027-0300(4).

Reason for Deferral

Deferral of DSM program investment costs and associated net lost margins is consistent with the Commission's policy to remove the significant disincentives to acquiring DSM relative to supply-side resources. ORS 757.262 allows the Commission to "...adopt policies designed to encourage the acquisition of cost-effective conservation resources." Without deferral and recovery of these direct and indirect costs of DSM, Avista would have a disincentive to acquire cost-effective conservation.

By Order No. 93-188 the Commission authorized Avista to begin deferral of the revenue requirements and estimated revenue margin losses associated with its DSM investment, and to establish an annual rate adjustment mechanism to reflect the deferred costs in rates on a timely basis. Subsequently, the DSM-related deferral

accounts have been reauthorized each year. Current authorization for the deferrals extends through June 30, 2009, pursuant to Order No. 08-325.

Adoption of this deferred account is authorized by 757.259(2)(e) in order to minimize the frequency of rate changes or fluctuation of rate levels. Avista has met the requirements of OAR 860-027-0300 in its filing.

Proposed Accounting

The proposed deferrals would be recorded in subaccounts of FERC Account 186 for costs that include the installation and acquisition of DSM measures, approved advertising expenses, applicable taxes, lost margin revenue, interest, and the amortization of previously approved DSM costs currently being collected from customers. Absent reauthorization of deferred accounting, standard accounting practices would be utilized for recording conservation costs. The costs would be expensed until such time as they could be incorporated into rates.

Estimated Deferrals in Authorization Period

The Company estimates it will defer \$1,260,000 for the twelve-month period ending June 30, 2010. Avista expects the deferral for conservation costs to be about \$1,200,000 and \$60,000 for lost margin revenues.

PROPOSED COMMISSION MOTION:

Avista's UM 1165(5) application for deferral reauthorization be approved, effective July 1, 2009.
