DISPOSITION: APPLICATION GRANTED

NOTE: By issuing this order, the Commission makes no endorsement regarding Applicant's rates or service.

INTRODUCTION

On July 30, 2007, the Commission certified EPCOR Energy Marketing (US) Inc. as an electricity service supplier (ESS or ES). *See*, Order 07-326. On October 9, 2009, CP Energy Marketing (US) Inc. filed a material change form with the Commission asking that it be granted scheduling ESS certification. This change was requested due to EPCOR Energy Marketing (US) Inc. changing its legal name to CP Energy Marketing (US) Inc. on July 9, 2009. This name change occurred as a result of a company-wide reorganization at the parent level.

The Commission usually service notice of an application by electronic mail to the Commission's ES application electronic mail list. As EPCOR Energy Marketing (US) Inc. was previously certified, we waived our usual notice procedures.

Based on the application and Commission's records, the Commission makes the following:

FINDING OF FACT

EPCOR Energy Marketing (US) Inc. changed its name to CP Energy Marketing (US) Inc. on July 9, 2009, and as a result CP Energy Marketing (US) Inc. will succeed to the rights and obligations of EPCOR Energy Marketing (US) Inc., as an ESS. CP Energy Marketing (US) Inc. cannot, however, succeed to such rights and obligations until such time as it has satisfied the conditions imposed by Portland General Electric Company for entry into an ESS Service Agreement with Portland General Electric Company.

The Applicant, CP Energy Marketing (US) Inc. is a Delaware corporation. Applicant intends to provide electricity service to nonresidential retail consumers in Oregon. Applicant seeks certification as a scheduling ES under OAR 860-038-0400 and ORS 757.649.

OPINION

Applicant must comply with all other provisions as set forth in OAR 860-038-0400 including an attestation that Applicant will comply with all applicable laws, rules, Commission orders, and electric company tariffs.

CONCLUSIONS

Staff reviewed the material change request application and supporting documents. Applicant has met the requirements to be certified as an electricity service supplier. The material change request should be granted.
