

ORDER NO. 16 113

ENTERED MAR 18 2016

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 1754

In the Matter of

PACIFICORP, dba PACIFIC POWER

2017-2021 Renewable Portfolio Standard
Implementation Plan.

ORDER

DISPOSITION: APPLICATION FOR CASE CERTIFICATION GRANTED

On February 24, 2016, the Small Business Utility Advocates (SBUA) filed a Petition for Case Certification. The SBUA request for case certification for intervenor funding purposes is filed under OAR 860-001-0120(4) and Article 5.3 of the Third Amended and Restated Intervenor Funding Agreement (Agreement). No party filed an objection to the request. For reasons explained below, we grant the petition.

I. DISCUSSION

To be case certified for purposes of receiving intervenor funding, an organization must meet certain criteria set forth in OAR 860-001-0120(4). These criteria are set forth below, along with SBUA's position on each.

1. The organization must present the interests of a broad group or class of customers, and its participation in the proceeding will be primarily directed at public utility rates and terms and conditions of service affecting that broad group or class of customers.

SBUA states that its members include small businesses from different industries including pest management, commercial cleaning and maintenance, artisanal glass, insurance consult, website hosting, wood products milling, food and beverage, commercial agriculture, small business consulting, residential and commercial construction, energy efficiency and renewable energy consulting. SBUA further states that its participation is directed primarily at how the renewable portfolio standards (RPS) plan impacts rates or terms and conditions of service affecting small businesses.

2. *The organization must demonstrate that it is able to effectively represent its particular group or class of customers.*

SBUA asserts that it is able to effectively represent its members to provide input in this RPS planning process. SBUA explains that it recently provided testimony before the Oregon legislature on RPS legislation. Further, SBUA points out that it has meaningfully participated in dockets and workshops before the Commission, including dockets UM 1610 and UE 294.

3. *The organization's members, who are customers of one or more of the utilities affected by the proceeding, contribute a significant percentage of the overall support and funding of the organization.*

SBUA states that its members include PacifiCorp ratepayers in California and Oregon. SBUA further states that Oregon's SBUA membership is broad and consists of various member's money contributions, in-kind professional services, space, and capital equipment.

4. *The organization demonstrates, or has demonstrated in the past, the ability to substantively contribute to the record on behalf of customer interest related to rates, and terms and conditions of service.*

SBUA asserts that its ability to represent small business customers is demonstrated in its obtaining expert testimony informing the Commission on the state of small business in Oregon and the impact of PURPA on renewable energy generation projects, and comparing rate impacts in a general rate case. SBUA states that while it is not as seasoned as the Citizens' Utility Board or Industrial Customers of Northwest Utilities, its legal counsel has several years of experience working on utility related issues in Oregon.

5. *The organization demonstrates that:*
- a. No precertified intervenor in this docket adequately represent the specific interests of the class of customers represented by the organization as to rates, and terms and conditions of service; or*
 - b. The specific interest of a class of customers will benefit from the organization's participation; and*
 - c. Its request for case-certification will not unduly delay the schedule of the proceeding.*

SBUA states that no other party in this proceeding adequately represents the specific interests of Pacific Power's small business or small nonresidential customers. SBUA notes that the Citizens' Utility Board represents the residential customer class and stands

to run a conflict given the different proposed rate impacts on residential and small non-residential customer classes. SBUA further notes that large industrial customers are represented by Industrial Customers of Northwest Utilities and large industrial customers are subject to different rate impacts than the small nonresidential customers. Finally, SBUA represents that its request for case-certification will not unduly delay the proceedings.

II. CONCLUSION

We have reviewed the petition and find that SBUA meets all of the requisite criteria. The petition for case certification should be granted.

III. ORDER

IT IS ORDERED that the Petition for Case Certification, filed by Small Business Utility Advocates, is granted.

Made, entered, and effective MAR 18 2016.
