Application to Transfer a Certificate of

ORDER

DISPOSITION: DOCKET CP 1623, APPLICATION GRANTED; and  
DOCKET CP 1275, ORDER NO. 05-189,  
CERTIFICATE OF AUTHORITY TRANSFERRED.

**Note:** By issuing this certificate, the Commission makes no endorsement or certification regarding the certificate holder's rates or service.

**The Application**

On August 31, 2018, Crown Castle Fiber, LLC (Crown Fiber) and Crown Castle NG West, LLC (CCNG-West) filed a joint application to transfer authority to provide telecommunications service in Oregon as a competitive provider. The application requests to transfer the authority of CCNG-West, granted by Order No. 05-189, Docket CP 1275, to Crown Fiber. The application was filed pursuant to OAR 860-032-0005. CCNG-West is the transferor. Crown Fiber is the transferee. Both entities together will be referred to as Joint Applicants.

The transfer is necessitated by a *Pro Forma* Consolidation involving a series of planned intra-company transactions that will simplify the corporate structure of Crown Fiber's parent company, Crown Castle International Corp. CCNG-West's certificate will be canceled upon transfer to Crown Fiber, and CCNG-West will no longer have authority to

ORDER NO. 18-489

ORDER NO. 18-468 REVISED

provide telecommunications service in Oregon. CCNG-West is reminded that because it had a certificate of authority for one or more days in 2018, it is required to file a revenue statement and pay a minimum of \$100 for that year.

CCNG-West is currently authorized to provide intraexchange non-switched, private line service (dedicated transmission service) within all exchanges of the telecommunications utilities and cooperative corporations listed in Appendices A and B to this order.

CCNG-West also is authorized to provide interexchange private line service (dedicated transmission service) statewide in Oregon.

CCNG-West operates as a facilities-based provider and not as a reseller of intraexchange and interexchange service.

Crown Fiber, the Applicant, will not directly provide operator services as defined in OAR 860-032-0001 and will not be an "operator service provider" as defined in ORS 759.690(1)(d).

The Commission served notice of the application on September 5, 2018. No protests or requests to be made parties of the proceeding were filed.

Based on the record in this matter, the Commission makes the following:

## **FINDINGS AND CONCLUSIONS**

### **Applicable Law**

Two statutory provisions apply to this application. First, ORS 759.020 governs Applicant's request to provide telecommunications as a competitive provider. Under ORS 759.020(5), the Commission shall classify Applicant as a competitive provider if Applicant demonstrates that its services are subject to competition, or that its customers or those proposed to become customers have reasonably available alternatives. In making this determination, the Commission must consider the extent to which services are available from alternative providers that are functionally equivalent or substitutable at comparable rates, terms and conditions, existing economic or regulatory barriers to entry, and any other factors deemed relevant.

Second, ORS 759.050 governs Applicant's request to provide local exchange (intraexchange) telecommunications service. Under ORS 759.050(2)(a), the Commission may authorize Applicant to provide local exchange service within the local exchange of a telecommunications utility if the Commission determines such authorization would be in the public interest. In making this determination, the Commission must consider the

ORDER NO. 18-489

ORDER NO. 18-468 REVISED

extent to which services are available from alternative providers, the effect on rates for local exchange service customers, the effect on competition and availability of innovative telecommunications service in the requested service area, and any other facts the Commission considers relevant. *See* Order No. 96-021.

### **Designation as a Competitive Provider**

Applicant has met the requirements for classification as a competitive telecommunications service provider. Applicant's customers or those proposed to become customers have reasonably available alternatives. The incumbent telecommunications utilities and cooperative corporations listed in the appendices provide the same or similar local exchange services in the local service area requested by Applicant. AT&T, Sprint Communications, Qwest Corporation, Frontier Communications Northwest Inc., and others provide interexchange telecommunications service in the service area requested by Applicant. Subscribers to Applicant's services can buy comparable services at comparable rates from other vendors. Economic and regulatory barriers to entry are relatively low.

### **Public Interest**

With regard to the general factual conclusions relevant to this proceeding, the Commission adopts the Commission's findings in Order No. 93-1850 and Order No. 96-021. Based on a review of those findings, as well as information contained in the application, the Commission concludes that it is in the public interest to grant the application of Crown Castle Fiber, LLC to provide local exchange telecommunications service as a competitive telecommunications provider in exchanges of the telecommunications utilities and cooperative corporations listed in the appendices, as described in the application. Further, it is in the public interest to grant statewide interexchange authority as described in the application. This finding will have no bearing on any determination the Commission may be called upon to make under sections 251 or 252 of the Telecommunications Act of 1996 (47 USC § 251, 252) with regard to the telecommunications utilities and cooperative corporations in this docket.

### **Conditions of the Certificate**

In Order No. 96-021, the Commission interpreted ORS 759.050 and established conditions applicable to competitive local exchange carriers. Also, other conditions are listed in administrative rules, including among others OAR 860-032-0007. Applicant, as a competitive provider, shall comply with the conditions adopted in Order No. 96-021, as well as all applicable laws, Commission rules, and orders related to provision of telecommunications service in Oregon.

ORDER NO. 18-489

ORDER NO. 18-468 REVISED

Per ORS 759.050(2)(c) and Order No. 96-021, Applicant shall comply with the following conditions.

1. Applicant shall make quarterly contributions to the Oregon Universal Service fund based on a Commission approved schedule and surcharge percentage assessed on all retail intrastate telecommunications services sold in Oregon, pursuant to ORS 759.425. If Applicant bills the surcharge to its end-users, Applicant shall show the charges as a separate line item on the bill with the words "Oregon Universal Service Surcharge \_\_\_\_%".
2. Applicant shall pay an annual fee to the Commission pursuant to ORS 756.310 and 756.320 and OAR 860-032-0095. The minimum annual fee is \$100. Applicant is required to pay the fee for the preceding calendar year by April 1.
3. Pursuant to Oregon Laws 1987, chapter 290, sections 2-8, and to OAR chapter 860, division 033, Applicant shall ensure that the Residential Service Protection Fund surcharge is remitted to the Commission. This surcharge is assessed against each retail subscriber at a rate that is set annually by the Commission.
4. Applicant, as transferee, shall be liable for all fees incurred and reports due by the transferor as of the effective date of this order.

### **Competitive Zones**

All exchanges of the telecommunications utilities and cooperative corporations listed in the appendices to this order are designated competitive zones for dedicated transmission service pursuant to ORS 759.050(2)(b).

### **Pricing Flexibility**

#### Dedicated Transmission Service

The telecommunications utilities listed in Appendix A are granted pricing flexibility for dedicated transmission service in their respective exchanges by this order.

See Order No. 93-1850, Docket UM 381.
