

ORDER NO. 23-078

ENTERED Mar 10 2023

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 2205(1)

In the Matter of

AVISTA CORPORATION, dba AVISTA
UTILITIES,

Application for an Order Reauthorizing
Deferral of Allowance for Funds Used During
Construction (AFUDC).

ORDER

DISPOSITION: STAFF'S RECOMMENDATION ADOPTED

At its public meeting on March 7, 2023, the Public Utility Commission of Oregon adopted Staff's recommendation in this matter. The Staff Report with the recommendation is attached as Appendix A.

BY THE COMMISSION:

Nolan Moser
Chief Administrative Law Judge

A party may request rehearing or reconsideration of this order under ORS 756.561. A request for rehearing or reconsideration must be filed with the Commission within 60 days of the date of service of this order. The request must comply with the requirements in OAR 860-001-0720. A copy of the request must also be served on each party to the proceedings as provided in OAR 860-001-0180(2). A party may appeal this order by filing a petition for review with the Circuit Court for Marion County in compliance with ORS 183.484.

ITEM NO. CA8

**PUBLIC UTILITY COMMISSION OF OREGON
STAFF REPORT
PUBLIC MEETING DATE: March 7, 2023**

REGULAR CONSENT EFFECTIVE DATE _____ N/A _____

DATE: February 22, 2023

TO: Public Utility Commission

FROM: Kathy Zarate

THROUGH: Bryan Conway, Marc Hellman, and Matt Muldoon **SIGNED**

SUBJECT: AVISTA CORPORATION:
(Docket No. UM 2205(1))
Request for Re-authorization for Deferral of Costs Associated with Allowance for funds used during Construction (AFUDC).

STAFF RECOMMENDATION:

Approve Avista Corporation's, dba Avista Utilities (Avista, AVA, or Company) application for reauthorization to defer costs associated with AFUDC for the 12-month period beginning January 15, 2023.

DISCUSSION:

Issue

Whether the Commission should approve Avista's request for reauthorization to defer costs related to AFUDC for the 12-month period beginning January 15, 2023.

Applicable Rule or Law

Under ORS 757.259, the Commission may authorize deferred accounting for later incorporation in rates. Specific amounts eligible for deferred accounting treatment with interest authorized by the Commission include:

Identifiable utility expenses or revenues, the recovery or refund of which the commission finds should be deferred in order to minimize the frequency of rate changes or the fluctuation of rate levels or to match appropriately the costs borne by and benefits received by ratepayers.

Docket No. UM 2205(1)
February 22, 2023
Page 2

ORS 757.259(2)(e).

Under ORS 757.259, the Commission may authorize deferred accounting for later incorporation in rates. In OAR 860-027-0300(3) the Commission has set forth the requirements for the contents of deferred accounting applications. Applications for reauthorization must include that information along with a description and explanation of the entries in the deferred account to the date of the application for reauthorization and the reason for continuation of deferred accounting. OAR 860-027-0300(4). Notice of the application must be provided pursuant to OAR 860-027-0300(6).

Amounts deferred under ORS 757.259(5) and OAR 860-027-0300 are allowed in rates only to the extent authorized by the Commission in a proceeding under ORS 757.210 to change rates and upon a prudence review. A review of the utility's earnings is required, unless subject to an automatic adjustment clause. With some exceptions, a company's amortization of amounts deferred cannot exceed an amount equal to three percent of the company's gross revenues from the preceding year. ORS 757.259(6).

Analysis

Background

In the Company's general rate case filed in 2020, in which rates became effective on January 15, 2021, (Docket No. UG 389), the parties to the case (Avista Corporation, the Staff of the Public Utility Commission of Oregon (Staff), the Oregon Citizens' Utility Board (CUB), and the Alliance of Western Energy Consumers (AWEC)) agreed that Avista would be allowed to record AFUDC as recommended by the Federal Energy Regulatory Commission (FERC).

In Order No. 20-468, the Commission approved the Second Settlement Stipulation in Docket UG 389, which states the following:

Allowance for Funds Used During Construction (AFUDC): Due to recommendations made by the Federal Energy Regulatory Commission (FERC) in a recent audit of Avista, the Parties agree that the Company would defer the AFUDC difference calculated between using the State AFUDC rate and the FERC AFUDC rate as a regulatory asset (i.e. FERC Account No. 182.3), which is included in rate base, and amortize this regulatory asset over the composite remaining life of the plant-in-service.

AFUDC represents the cost of both the debt and equity funds used to finance utility plant additions during the construction period. As prescribed by regulatory authorities, AFUDC is capitalized, during construction, as part of the cost of utility plant.

Docket No. UM 2205(1)
February 22, 2023
Page 3

The offsetting entries are recorded in the income statement. The Company is permitted, under established regulatory practices, to recover the capitalized AFUDC through its inclusion in rate base and the provision for depreciation after the related utility plant is placed in service.

In addition, Avista capitalizes AFUDC in Washington, Idaho and Oregon on a monthly basis using the Washington Utilities and Transportation Commission (WUTC) approved Rate of Return (ROR) from the most recent general rate case.

Reason for Deferral

The Company requests continuation of deferred accounting in order to defer the difference of calculated AFUDC between the state rate and the FERC rate.

Proposed Accounting

As plant is being constructed, for the deferral amount of AFUDC (which is the calculated difference between the state rate and the FERC rate) the Company debits FERC Account No.182311 – Regulatory Asset-AFUDC (CWIP) and credits the income statement (FERC Account No. 407411 – Regulatory Credit-AFUDC Debt and FERC Account No. 407412 – Regulatory Credit-AFUDC Equity).

When the plant is in service and transfers from Construction Work in Progress to Plant-in-Service, the deferred AFUDC is transferred from FERC Account No.182311 – Regulatory Asset-AFUDC (CWIP) to FERC Account No. 182332 – Regulatory Asset AFUDC (Plant-in-Service).

When transferred to in service, amortization begins and the Company debits FERC Account No. 407311 – Regulatory Debit-AFUDC Amortization and credits FERC Account No. 182318 – Regulatory Asset-AFUDC Accumulated Amortization.

Estimate of Amounts to Be Recorded for the Next 12 Months

On December 31, 2021, for Oregon operations, the Company had \$1.91 million recorded in FERC Account No. 182332 – Regulatory Asset-AFUDC (Plant-in-Service) and (\$0.56 million) recorded in FERC Account No. 182318 – Regulatory Asset-AFUDC accumulated amortization, for net addition to rate base of \$1.35 million. During 2021, the Company recorded amortization of \$118,000 in FERC Account No. 407311 – Regulatory Debit-AFUDC Amortization.

In addition, the Company believes the 2021 amortization amount is representative of the future amortization during the deferral period beginning January 15, 2023.

Docket No. UM 2205(1)
February 22, 2023
Page 4

Information Related to Future Amortization

- Earnings Review – No earnings test recommended to be applied
- Prudence Review – A prudence review will be performed prior to amortization
- Sharing – Non-Applicable
- Three Percent Test – The three percent test applies to limit aggregated deferral amortizations during a 12-month period to no more than three percent of the utility's gross revenues for the preceding year.

Conclusion

The Company's application meets the requirements of ORS 757.259 and OAR 860-027-0300 for deferred accounting, and the reason for the deferral—costs related to AFUDC—is still valid.

Therefore, Staff recommends the Commission approve Avista's application.

The Company has reviewed this memo and agrees with its contents.

PROPOSED COMMISSION MOTION:

Approve Avista's application for reauthorization to defer the AFUDC difference calculated between using the State AFUDC rate and the FERC AFUDC for the 12-month period beginning January 15, 2023.
