BEFORE THE PUBLIC UTILITY COMMISSION

OF OREGON

UM 1930

In the Matter of

PUBLIC UTILITY COMMISSION OF OREGON,

ORDER

Certification of the Solar Harvest project in the Community Solar Program.

DISPOSITION: STAFF'S RECOMMENDATION ADOPTED

At its public meeting on May 16, 2024, the Public Utility Commission of Oregon adopted Staff's recommendation in this matter. The Staff Report with the recommendation is attached as Appendix A.

BY THE COMMISSION:

Nolan Moser Chief Administrative Law Judge

A party may request rehearing or reconsideration of this order under ORS 756.561. A request for rehearing or reconsideration must be filed with the Commission within 60 days of the date of service of this order. The request must comply with the requirements in OAR 860-001-0720. A copy of the request must also be served on each party to the proceedings as provided in OAR 860-001-0180(2). A party may appeal this order by filing a petition for review with the Circuit Court for Marion County in compliance with ORS 183.484.

ITEM NO. CA4

PUBLIC UTILITY COMMISSION OF OREGON STAFF REPORT PUBLIC MEETING DATE: May 16, 2024

 REGULAR
 CONSENT
 X
 EFFECTIVE DATE
 May 17, 2024

- **DATE:** May 6, 2024
- **TO:** Public Utility Commission
- **FROM:** Benedikt Springer
- THROUGH: JP Batmale and Sarah Hall SIGNED
- **SUBJECT:** OREGON PUBLIC UTILITY COMMISSION STAFF: (Docket No. UM 1930) Certification of the Solar Harvest project in the Community Solar Program.

STAFF RECOMMENDATION:

Certify the Solar Harvest project in the Community Solar Program.

DISCUSSION:

ssue

Whether the Public Utility Commission of Oregon (Commission) should certify the Solar Harvest project in the Community Solar Program.

Applicable Rule or Law

Section 22 of Senate Bill 1547, codified in ORS 757.386, directs the Commission to establish a community solar program (hereinafter referred to as "Program," or "CSP").

On June 29, 2017, the Commission adopted formal rules for the Program under OAR Division 88 of Chapter 860. OAR 860-088-0050 details the requirements for project Certification.

Section 5.2 of the CSP Program Implementation Manual (PIM) outlines the information and documentation that projects must submit to the CSP Program Administrator (PA) as part of the Certification application. Docket No. UM 1930 May 6, 2024 Page 2

<u>Analysis</u>

Background

A Project Manager (PM) registered with CSP may submit applications for project Certification to the PA. As required by OAR 860-088-0050(3), the PA reviews applications for compliance with Program requirements and recommends projects for Certification by the Commission. Certification is an important stage gate for CSP projects. Receiving Certification means that the project meets all Program requirements and can proceed to commercial operation.

The PA received a Certification application from Solar Harvest on April 9, 2024. After reviewing the application and supporting documentation provided by the PM, the PA has recommended that the Commission certify the project in the Program. See the Certification Recommendation Form in Attachment A.

Project Name	Name of Project Manager	Utility Territory	Project Size (kW-AC)	Attachment #
Solar Harvest	Oregon Clean Power Cooperative	PGE	300	Attachment A

Recommended Project

Solar Harvest is a 300 kW-AC project in Aurora, Oregon in Clackamas County. Solar Harvest is an agrivoltaics research project developed with Oregon State University on land controlled by the university. Outreach and customer management are conducted by Oregon Clean Power Cooperative.

The project was Pre-Certified with Tier 1 Program capacity on October 10, 2022, and had an original Certification deadline of April 10, 2024. The PM submitted necessary Certification paperwork to the PA prior to the project's Certification deadline. The PA completed its review on April 16, 2024, and recommends Certification in CSP. While this timeline has led Staff to recommend the Commission certify the project after its Certification deadline, Staff and the PA have no concerns with certifying the project at this time. The Program considers that projects submitting Certification applications to the PA by the deadline to have met the deadline, while PA and Staff may require additional time to review applications for recommendation to the Commission.¹

¹ Staff has previously utilized this approach. See UM 1930, <u>Order No. 21-321</u>, October 6, 2021.

Docket No. UM 1930 May 6, 2024 Page 3

Conclusion

Staff has discussed the project application with the PA and reviewed CSP requirements. Staff supports the PA's recommendation that the Commission approve Solar Harvest's Certification in the Program.

PROPOSED COMMISSION MOTION:

Certify the Solar Harvest project in the Community Solar Program.

UM 1930 CSP Project Certification

Project Certification Review and Recommendation

The Oregon Community Solar Program Administrator (PA) has reviewed the certification request of the project described below and recommends that the project be Certified.

Project Information

Project ID: PGE-2022-148 Project Name: Solar Harvest Project Manager: Oregon Clean Power Cooperative Subscription Manager: Oregon Clean Power Cooperative Utility Service Area: PGE Project Site Address: 15210 NE Miley Rd. Aurora, OR 97002 Project Size (kW-AC): 300 Carveout-eligible: Yes, the Project Manager is a Renewable Energy Cooperative Date of Pre-Certification: 10/10/2022 Expected Commercial Operations Date: 05/15/2024

Project Description

Solar Harvest is a 300 kW-AC project in Aurora, Oregon in Clackamas County. Solar Harvest is an agrivoltaics research project developed with Oregon State University on land controlled by the university. Outreach and customer management are conducted by Oregon Clean Power Cooperative.

Review Summary

Date Review Completed: 04/16/2024 **Project Satisfies all Certification Requirements?:** Yes **PA Recommendation:** Approve
