DISPOSITION: ORDER NO. 25-092 CORRECTED

On March 6, 2025, the Commission memorialized its decision, made and effective at our March 4, 2025 Regular Public Meeting, suspending Advice No. 24-38, for investigation and hearing and opening a docket to investigate the following non-exclusive scope: further modifications to Rule C and Rule I, and PGE’s marginal cost study’s treatment of transmission costs for large customers. The disposition line of that order erroneously stated “STAFF’S RECOMMENDATION ADOPTED” rather than “TARIFF SHEETS SUSPENDED; INVESTIGATIONS OPENED.”

ORDER

IT IS ORDERED that the disposition line is corrected to read “TARIFF SHEETS SUSPENDED; INVESTIGATIONS OPENED.” The order otherwise remains unchanged.

Made, entered, and effective Mar 12 2025.
