- b. indicate the particular Environmental Justice Community or low-income customers it represents and demonstrate that it is able to effectively represent them;

¹ *In the Matter of Public Utility Commission of Oregon, House Bill 2475, Environmental Justice Communities Funding Agreement*, Docket No. 2389, Order No. 25-409 (Oct. 15, 2025).

In its application, the organization must identify:

- a. the matter or matters in which the applicant intends to participate, the nature of that participation, and why these matters are Eligible Proceedings;
- b. the Participating Public Utility account or accounts from which the applicant seeks funds; and
- c. a budget showing estimated Eligible Expenses, which may include the cost for appropriate support staff and operational support; a budget showing estimated consultant fees, expert witness fees, or contractor costs, which also may include the cost for appropriate support staff and operational support.

The Commission may, but is not obligated to consider any of the following factors:

- a. the breadth and complexity of the issues or the importance of community participation;
- b. the degree to which any policy issues affect the interests of low-income residential customers or the interests of residential customers that are members of Environmental Justice Communities;
- c. the proposed budget;
- d. whether the organization has significant ties to the Environmental Justice Community or low-income customers in the service area of each utility for which pre-certification or funding from a Case Fund is sought;
- e. the qualifications of the applicant and experience before the Commission; and
- f. the level of available funding available under the agreement.

In Order No. 25-409, the Commission determined that CEP is an eligible organization for Portland General Electric Company funds under OAR 860-001-0840.² CEP states that it will review and assess utility wildfire mitigation plans, risk modeling, and submit comments. CEP explains it also will host listening sessions for those living in high risk fire zones and attend weekly joint wildfire advocate meetings.

No party objected to CEP's notice of intent or proposed scope of work.

CEP included a proposed budget for consideration upon being deemed eligible for Case Funds. CEP requests case funding in the amount of \$6,456. No party objected to CEP's certification request or contested its ability to represent PacifiCorp dba Pacific Power customers. CEP requests a progress payment of 50 percent of its total request.

Docket UM 2208 was determined to qualify as an eligible proceeding in Order No. 25-533, because it is a Commission proceeding affecting a participating utility (PacifiCorp, dba Pacific Power), its customers, and environmental justice communities.

² *Id.*

The Commission has the authority to accept, deny, or partially deny the request, and may place reasonable conditions on the grant, and may delegate this responsibility to the Chief Administrative Law Judge, consistent with Order No. 25-408.³

CEP's proposed budget includes the requisite information and reflects the anticipated activity in this docket. No party opposed CEP's proposed budget. Considering the issues being addressed, the complexity of the issues and the significant policy decisions to be made, CEP's proposed budget is reasonable and should be approved.
