

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 2438

In the Matter of

PUBLIC UTILITY COMMISSION OF
OREGON,

2026 Annual Certification of Eligible
Telecommunications Carriers.

ORDER

DISPOSITION: STAFF'S RECOMMENDATION ADOPTED

At its public meeting on September 3, 2026, the Public Utility Commission of Oregon adopted Staff's recommendation in this matter. The Staff Report with the recommendation is attached as Appendix A.

BY THE COMMISSION:

Alison Lackey
Chief Administrative Law Judge

A party may request rehearing or reconsideration of this order under ORS 756.561. A request for rehearing or reconsideration must be filed with the Commission within 60 days of the date of service of this order. The request must comply with the requirements in OAR 860-001-0720. A copy of the request must also be served on each party to the proceedings as provided in OAR 860-001-0180(2). A party may appeal this order by filing a petition for review with the Circuit Court for Marion County in compliance with ORS 183.484.

ITEM NO. CA7

**PUBLIC UTILITY COMMISSION OF OREGON
STAFF REPORT
PUBLIC MEETING DATE: September 3, 2025**

REGULAR _____ **CONSENT** X **EFFECTIVE DATE** _____ **N/A** _____

DATE: August 18, 2026

TO: Public Utility Commission

FROM: Nicola Peterson

THROUGH: Nolan Moser and Russ Beitzel **SIGNED**

SUBJECT: OREGON PUBLIC UTILITY COMMISSION STAFF:
(Docket No. UM 2438)
2026 Annual Certification of Eligible Telecommunications Carriers.

STAFF RECOMMENDATION:

Staff recommends that the Public Utility Commission of Oregon (Commission):

1. Certify, pursuant to the requirements of 47 C.F.R. § 54.314, to the appropriate use of federal Universal Service Fund (USF) high-cost support in Oregon, and to the continuing eligibility of the carriers listed in Attachment A to receive such support; and
2. Accept the annual reports of all eligible telecommunications carriers (ETCs) required by Commission Order No. 06-292, as amended by Order No. 15-169.

DISCUSSION:

Issue

1. Whether the Commission should certify the continuing eligibility of certain Oregon ETCs to receive federal USF high-cost support.
2. Whether the Commission should accept the annual reports submitted by all ETCs for the current reporting year.

Applicable Rule or Law

Federal regulation 47 C.F.R. § 54.314(a) requires states to submit annual certifications in order to enable the continuation of high-cost support to their state-designated ETCs. The certification must state that all ETCs receiving federal high-cost support within the state “only used support during the preceding calendar year and will only use support in the coming calendar year for the provision, maintenance, and upgrading of facilities and services for which support is intended.” The state must provide this annual certification to the Federal Communications Commission (FCC) and the Universal Service Administrative Company (USAC) by October 1 of each year.

ETCs filing annual reports for the purpose of certification must follow the requirements adopted by the Commission in Order No. 15-169, entered June 4, 2015. All ETCs must complete relevant sections of FCC Form 481. The FCC Form 481 addresses specific items of information established in FCC orders and regulations. The information is intended to aid in determining whether the ETC met the company’s commitments and responsibilities for the previous calendar year. Such items relate to functionality in emergencies, service rate comparability, Lifeline offerings, Tribal engagement, and broadband deployment progress and locations, as well as certifications that various obligations were met.

In addition to the FCC Form 481, incumbent local exchange carriers (ILECs) ETCs must also submit specific data supporting the receipt of a specific form of USF support known as CAF/ICC support, if applicable.

Commission Order No. 15-169 requires each ETC receiving high-cost support to also submit a notarized affidavit signed by a corporate officer attesting to the appropriate use of support in Oregon. To meet FCC requirements, and to enable the Commission to certify the Oregon ETCs properly to the FCC, the wording must be specific. To that end, each year the Commission staff distributes a template for the affidavit to the ETCs. This year’s template is included here as Attachment B.

Although the Commission does not certify Lifeline-only ETCs annually to the FCC, it does require these ETCs to file copies of their completed FCC Form 481 each year. See Order No. 15-169, Appendix A.

Due dates for the reports are keyed to the dates that such reports are to be filed with the FCC. This year all reports were due no later than July 1.

Analysis

Background

Section 214(e)(2) of the Telecommunications Act of 1996 (Act) authorizes state public utility commissions to designate telecommunications carriers eligible to receive federal USF support. The Commission first exercised this authority in December 1997 when it designated Oregon's incumbent local exchange carriers (ILECs) as ETCs.¹ Since then, the Commission has designated several wireless carriers and non-ILEC wireline carriers (collectively referred to as competitive ETCs or CETCs) to receive federal USF high-cost and Lifeline (low-income) support.² The Commission has also granted limited designations to several carriers only for the purpose of receiving Lifeline support, however, the rules do not specify that states need to certify these Lifeline-only ETCs.³

As set forth in 47 C.F.R. § 54.314(a), the FCC requires states to file annual certifications with the FCC to enable the continuation of high-cost support to their state-designated ETCs. The certification must state that all federal high-cost support provided to ETCs within the state “was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.” If the state fails to make such certification by the deadline, the ETCs will not receive federal USF support for the coming year.

Every year since 2006, in order to make this annual certification to the FCC, the Commission has required ETCs to submit reports. The reports also serve to demonstrate each ETC's ongoing compliance with designation requirements. The Commission first established requirements for the reports in Docket No. UM 1217, Order No. 06-292. When the FCC transformed its universal service program to include support for broadband services, it also established new annual reports (beginning in 2013) that all ETCs must file regardless of any existing state requirements for reporting.⁴ To reduce the resulting duplicative reporting burdens on Oregon ETCs, the

¹ See Order No. 97-481, Docket No. UM 873.

² Currently, the wireless carriers designated for federal high-cost support in Oregon are AT&T Mobility LLC, Eagle Telephone System Inc. dba Snake River PCS, and Viasat. The wireline competitive carriers designated for high-cost support are Douglas Services, Inc. dba Douglas Fast Net, Charter Fiberlink OR-CCVII, LLC, Beacon Broadband, Inc, Hood River Electric Cooperative, Siuslaw Broadband, LLC dba Hyak, Hunter Communications & Technologies, LLC and Columbia Fiber, LLC.

³ Currently, the Lifeline-only ETCs are Casco dba Peak Demand, i-wireless LLC dba Access Wireless, Monmouth Independence Network (MINET), Warm Springs Telecommunication Company, Alyrica Networks, Grase Communications LLC and Farmers Mutual Telephone.

⁴ See *Connect America Fund et al.*, WC Docket No. 10-90 et al., Report and Order and Further Notice of Proposed Rulemaking, FCC 11-161 et al., released November 18, 2011 (*Transformation Order*), and *Lifeline and Link Up Reform and Modernization et al.*, Report and Order and Further Notice of Proposed Rulemaking, WC Docket No. 11-42 et al., FCC 12-11, released February 6, 2012.

Commission approved the replacement of its own reports with those required by the FCC through several orders adopted in Docket No. UM 1648.

2026 Filings

In this filing, the data is from 2025, which is the most recent full calendar year for which data is available. For the calendar year 2025, Oregon ETCs received approximately \$99.9 million of federal high-cost support. The funds reflect a mixture of support for existing voice services as well as for expansion of broadband internet access services. The specific Oregon ETCs that receive federal high-cost funding and are eligible for ETC recertification are listed in Attachment A, with some companies operating on a consolidated basis with others. Siuslaw Broadband, LLC dba Hyak is not listed, as although this company is designated for high cost support, having defaulted on its RDOF obligations, it is no longer receiving high cost federal support and therefore is not required to be recertified. Oregon ETCs also received approximately \$3.67 million of federal Lifeline support in 2025. This is an 80 percent increase over the previous year. The Lifeline funds are received by high-cost ETCs as well as Lifeline-only ETCs.

Each year Staff requests that a new docket be opened to address annual ETC reports and certification for that year. This year's docket is Docket No. UM 2438. Staff reviewed all of the ETC reports and certifications filed in Docket No. UM 2438. Each ETC that was required to file a report has filed an annual report.

The ETC's that filed with the Commission and that are included in this recommendation are listed in Attachment A.

Conclusion

Staff concludes on its review that the ETCs have met the annual reporting requirements for this year and recommends that the Commission proceed to accept the reports and to certify Oregon ETCs receiving high-cost support to the FCC. The certification will enable the ETCs to continue receiving federal universal service support for the benefit of the residents of Oregon.

PROPOSED COMMISSION MOTION:

Issue an order in Docket No. UM 2438:

1. Certifying that all federal high-cost support provided to the ETCs listed in Attachment A within Oregon was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, and that the

ETCs listed in Attachment A are eligible to receive federal universal service high-cost support pursuant to 47 C.F.R. § 54.314; and

2. Accepting the 2026 annual reports of all ETCs currently designated in Oregon.
