**BEFORE THE PUBLIC UTILITY COMMISSION  
OF OREGON**

ARB 171(1)

In the Matter of the Amendment to the Interconnection )	
Agreement Between NORTHPOINT )	
COMMUNICATIONS INCORPORATED AND )	ORDER
GTE NORTHWEST INCORPORATED Submitted )	
for Commission Approval Pursuant to Section 252 (e) )	
of the Telecommunications Act of 1996. )	
)	

**DISPOSITION: AMENDMENT APPROVED**

On March 7, 2000, Northpoint Communications Incorporated (Northpoint) and GTE Northwest Incorporated (GTE) filed with the Public Utility Commission of Oregon (Commission), a fully executed amendment to the agreement initially approved by Commission Order No. 99-746. The amendment restates in its entirety, Section 1 of Article X regarding collocation terms and conditions, including Attachments 1 and 2. The parties seek approval of the amendment under Section 252(e)(1),(2) of the Telecommunications Act of 1996 (Act).

Under the Act, the Commission must approve or reject an agreement reached through voluntary negotiation within 90 days of filing. The Commission may reject an agreement only if it finds that:

- (1) the agreement (or portion thereof) discriminates against a telecommunications carrier not a party to the agreement; or
- (2) the implementation of such agreement or portion is not consistent with the public interest, convenience, and necessity.

The Commission provided notice of the request for approval and an opportunity to comment to a list of persons who have participated in arbitrations under the Act. PUC Staff filed comments.

While Staff recommended approval of the amendment, Staff noted that the amendment allows for rates paid for collocation to be changed as a result of a GTE tariff filing. GTE filed a state

collocation tariff on December 30, 1999, which the Commission subsequently suspended for investigation and docketed as UT 150. Northpoint may participate in docket UT 150 to protect its interests.

Additionally, Staff noted that Northpoint and GTE agreed to allow the amendment to become effective upon execution and prior to approval or disapproval by the Commission. Staff further noted that Sections 252(a) and (e) of the Telecommunications Act of 1996 require parties to an interconnection agreement to submit the agreement to the state commission for approval or rejection and that agreements do not have force or effect until approved by the relevant state commission. Therefore, according to Staff, the provision allowing the amendment to the agreement to become effective upon execution is not enforceable.

Staff concluded that, with the understanding that the provision governing the effective date is unenforceable, the amendment to the previously filed agreement does not appear to discriminate against telecommunications carriers who are not parties to the agreement and does not appear to be inconsistent with the public interest, convenience, and necessity.

### **OPINION**

The Commission has reviewed the amendment to the previously approved agreement and the comments. No participant in the proceeding has requested that the amendment be rejected or has presented any reason for rejection. The Commission concludes that there is no basis under the Act to reject the amendment and that the amendment should be approved.

### **CONCLUSIONS**

1. There is no basis for finding that the amendment to the previously approved agreement discriminates against any telecommunications carrier not a party to the agreement.
2. There is no basis for finding that implementation of the amended agreement is not consistent with the public interest, convenience, and necessity.
3. The amendment should be approved with the understanding that the provision governing the effective date is unenforceable.

**ORDER**

IT IS ORDERED that the amendment to the previously approved agreement between Northpoint Communications Incorporated and GTE Northwest Incorporated is approved with the understanding that we do not find the provision governing the effective date enforceable.
