2006 Resource Valuation Mechanism.)	

**DISPOSITION: ADVICE NO. 05-22 ALLOWED
TO GO INTO EFFECT JANUARY 1, 2006**

At its December 20, 2005, Public Meeting, the Public Utility Commission of Oregon (Commission) adopted Staff's recommendation allowing Portland General Electric Company's (PGE) Advice No. 05-18 to go into effect January 1, 2006. The filing was designed to implement the energy charges and resource valuation mechanism changes that correspond to the final 2006 net variable power costs provided to the Commission in Docket No. UE 172.

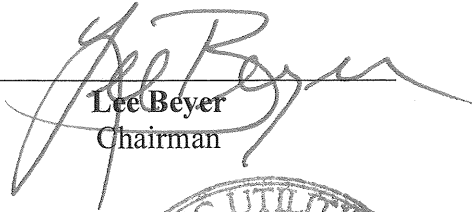

The following day, on December 21, 2005, PGE filed Advice No. 05-22 to correct an administrative error made in Advice No. 05-18. PGE explains that, in the prior filing, it inadvertently failed to include the adjustment rate for Schedules 38 and 49 (although the correct figures were shown in the accompanying workpapers). PGE's new filing revises Sheet 125-3 to remedy this omission.

Because the error was inadvertent and ministerial in nature, PGE's request for a waiver of legal statutory notice is granted, and Advice No. 05-22 is allowed to go into effect on January 1, 2006.

ORDER

IT IS ORDERED that Advice No. 05-22, filed by Portland General Electric Company, is allowed to go into effect on less than statutory notice on January 1, 2006.

Made, entered, and effective DEC 22 2005.

Lee Beyer
Chairman

John Savage
Commissioner

Ray Baum
Commissioner

A party may request rehearing or reconsideration of this order pursuant to ORS 756.561. A request for rehearing or reconsideration must be filed with the Commission within 60 days of the date of service of this order. The request must comply with the requirements in OAR 860-014-0095. A copy of any such request must also be served on each party to the proceeding as provided by OAR 860-013-0070(2). A party may appeal this order to a court pursuant to applicable law.
